Exporting a Citation from a Database to RefWorks (EBSCOHost version)

1. Once you have searched a database and found an article that you are interested in, click on the title of the article to bring up the **full record** which looks like this:

![Full Record Screen](image)

2. Click on the **Export** link on the right side of the screen

3. You will be taken to a screen that looks like this:

![Export Screen](image)

4. Select the last option in the list, **Direct Export to RefWorks**, and click on **Save**

5. Another window will pop-up and ask you to log on to RefWorks. **Make sure your pop-up blocker is turned off.**
6. Once you have logged on, RefWorks will give you the following options:

7. Click on View Last Imported Folder to see the article that you imported from the database.
