Exporting a Citation from a Database to RefWorks (FirstSearch version)

NOTE: You must use Internet Explorer for the First Search Databases if you want to export citations to RefWorks

1. Once you have searched a database and found an article that you are interested in, click on the title of the article to bring up the full record which looks like this:

   ![FirstSearch Database Record](image)

   - Click on the Export button at the top or bottom of the screen.
   - From the next page select RefWorks from the list and then click on the Export button.
4. Another window will pop-up and ask you to log on to RefWorks. **Make sure your pop-up blocker is turned off.**

5. Once you have logged on, RefWorks will give you the following options:
