Exporting a Citation from a Database to RefWorks (JSTOR version)

1. Once you have searched a database and found an article that you are interested in, click on the title of the article to bring up the full record which looks like this:

2. Click on the Export Citation link

3. Select RefWorks from the list
4. Another window will pop-up and ask you to log on to RefWorks. **Make sure your pop-up blocker is turned off.**

5. Once you have logged on, RefWorks will give you the following options:

   ![RefWorks interface](image)

   Importing references, please wait...

   Import completed - 1 reference imported

6. Click on **View Last Imported Folder** to see the article that you imported from the database.
