WIDENER UNIVERSITY

Widener is an innovative metropolitan university that combines academic quality with career preparation and a commitment to community service. A Widener education connects curricula to societal issues through civic engagement. Dynamic teaching, active scholarship, personal attention, and experiential learning are key components of the Widener experience.

For a complete description of the University’s mission, vision, and strategic goals, please see the Widener University homepage at http://www.widener.edu/about/vision_history/default.aspx.

Center for Social Work Education Mission

As a social work program within a Metropolitan University committed to civic engagement and community service, the mission of Widener University’s MSW Program is to prepare culturally competent clinical social workers who are dedicated to the attainment of social and economic justice for the betterment of poor, vulnerable, and oppressed individuals, families, groups, and communities; who demonstrate care and compassion for clients from diverse cultural, social, and economic backgrounds; who hold an unwavering belief in client strengths, client empowerment, and the importance of the helping relationship; and who use self-reflection and critical thinking in creating purposeful interventions informed by theory and evidence, by:

1. Creating a supportive and nurturing academic environment that integrates dynamic classroom instruction and scientific inquiry with real world learning;
2. Having a diverse faculty whose social work practice, research, and community service experiences inform their teaching and inspire our students; and
3. Having students and faculty engage in community-based research and community partnerships that strengthen disadvantaged individuals, families, organizations, and communities while contributing to the knowledge base of the profession.

The above mission statement provides the direction for the MSW Program’s explicit and implicit curricula. It sets the direction for preparing clinical social workers who are committed to: the values of the profession, a belief in civic engagement and community service, serving vulnerable clients from diverse backgrounds, and engaging in culturally competent clinical practice that emphasizes client strengths and the use of the helping relationship.

Coinciding with the program’s mission, the following goals of the MSW program were developed by social work faculty to shape and direct both the explicit and implicit curricula of the program. The MSW program aims:

1. To prepare clinical social workers who can effectively deliver culturally competent, evidence-based social work services to individuals, families, and groups from diverse client populations;
2. To create a nurturing and supportive learning environment that inspires students to be
advocates for social change and a more just and equitable society;

3. To have faculty and students actively involved in community partnerships and civic engagement activities that promote the well being of disadvantaged populations and communities; and

4. To have faculty and students participate in the development and dissemination of knowledge for the profession.

__________________________________________________________

COUNCIL ON SOCIAL WORK EDUCATION ACCREDITATION

The Council on Social Work Education accredits social work education programs at both the baccalaureate and master’s levels. The BSW program and the MSW program at Widener are fully accredited by the Council on Social Work Education.

The Council on Social Work Education (CSWE) uses the Educational Policy and Accreditation Standards (EPAS) to accredit baccalaureate and master’s level social work programs. EPAS supports academic excellence by establishing thresholds for professional competence. It permits programs to use traditional and emerging models and methods of curriculum design by balancing requirements that promote comparable outcomes across programs with a level of flexibility that encourages programs to differentiate. EPAS describe four features of an integrated curriculum design: (1) program mission and goals, (2) explicit curriculum, (3) implicit curriculum, and (4) assessment. The educational policy and the accreditation standards are conceptually linked to each other. Educational Policy describes each curriculum feature. Accreditation standards are derived from the Educational policy and specify the requirements used to develop and maintain an accredited social work program at the baccalaureate (B) or master’s (M) level. (http://www.cswe.org/File.aspx?id=81660 taken from CSWE website 6/20/16).

Widener University’s Center for Social Work Education embraces these standards and has used them as the basis for our curriculum. Each competency describes the knowledge, values, skills, and cognitive and affective processes that comprise the competency at the generalist level of practice, followed by a set of behaviors that integrate these components. These behaviors represent observable components of the competencies, while the preceding statements represent the underlying content and processes that inform the behaviors. (p.7)

The following lists the Social Work Practice, Education, and Educational Policy and Accreditation Standards (EPAS) of the Council for Social Work Education. Each policy is further developed through the use of Specialized Competencies and Related Behaviors.

**Core Competency 1: Demonstrate Ethical and Professional Behavior**

Social workers understand the value base of the profession and its ethical standards, as well as relevant laws and regulations that may impact practice at the micro, mezzo, and macro levels. Social workers understand frameworks of ethical decision-making and how to apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize personal values and the distinction between personal and professional values. They also
understand how their personal experiences and affective reactions influence their professional judgment and behavior. Social workers understand the profession’s history, its mission, and the roles and responsibilities of the profession. Social Workers also understand the role of other professions when engaged in inter-professional teams. Social workers recognize the importance of life-long learning and are committed to continually updating their skills to ensure they are relevant and effective. Social workers also understand emerging forms of technology and the ethical use of technology in social work practice. Social workers:

1.1 Make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context.
1.2 Use reflection and self-regulation to manage personal values and maintain professionalism in practice situations.
1.3 Demonstrate professional demeanor in behavior; appearance; and oral, written, and electronic communication.
1.4 Use technology ethically and appropriately to facilitate practice outcomes.
1.5 Use supervision and consultation to guide professional judgment and behavior.

Specialized Competency 1

Clinical social workers are able to address ethical issues, legal parameters, and societal changes as they affect clinical practice on micro, mezzo, and macro levels. Clinical social workers recognize the multi-faceted issues that impact ethical decision-making in professional therapeutic settings. Clinical social workers demonstrate professional demeanor in all manners of communication, both in-person and through electronic and/or virtual technology. Clinical social workers:

1.6 Demonstrate the awareness of trauma and how it affects the self and others, and of the implications for interventions, including advocacy, being conscious of our potential to re-traumatize clients on the micro and macro level.
1.7 Commit to lifelong learning.
1.8 Demonstrate awareness of how our affective reactions influence clients (social and emotional competency) and of in vivo reflection in relational work.

Core Competency 2: Engage Diversity and Difference in Practice

Social workers understand how diversity and difference characterize and shape the human experience and are critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that, as a consequence of difference, a person’s life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers also understand the forms and mechanisms of oppression and discrimination and recognize the extent to which a culture’s structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate, or create privilege and power. Social workers:
2.1 Apply and communicate understanding of the importance of diversity and difference in shaping life experiences in practice at the micro, mezzo, and macro levels.
2.2 Present themselves as learners and engage clients and constituencies as experts of their own experiences.
2.3 Apply self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies.

Specialized Competency 2

Clinical social workers are knowledgeable about diversity and difference and how the intersectionality of such variables affects the lives of client systems within the therapeutic context. Clinical social workers also display cultural competency in clinical work with such systems, including addressing the realities of oppression and privilege. Clinical social workers understand that they are shaped by their own cultural and developmental experiences and how those experiences influence their clinical practice choices. Clinical social workers are knowledgeable that they must continually strive to enhance their degree of cultural competency, especially when working with diverse client systems. Clinical social workers:

2.4 Identify the systemic influence of oppression and privilege on human rights violations and social, economic, and environmental injustice on client systems.
2.5 Display culturally sensitive language and behaviors with clients.
2.6 Demonstrate cultural competency in assessing the intersectionality of client problems and strengths.
2.7 Display emotional intelligence regarding their own cultural values and biases and how such values and biases can affect clinical decisions.

Core Competency 3: Advance Human Rights and Social, Economic, and Environmental Justice

Social workers understand that every person regardless of position in society has fundamental human rights such as freedom, safety, privacy, an adequate standard of living, health care, and education. Social workers understand the global interconnections of oppression and human rights violations, and are knowledgeable about theories of human need and social justice and strategies to promote social and economic justice and human rights. Social workers understand strategies designed to eliminate oppressive structural barriers to ensure that social goods, rights, and responsibilities are distributed equitably and that civil, political, environmental, economic, social, and cultural human rights are protected. Social workers:

3.1 Apply their understanding of social, economic, and environmental justice to advocate for human rights at the individual and system levels.
3.2 Engage in practices that advance social, economic, and environmental justice.

Specialized Competency 3

Clinical social workers understand the potentially challenging effects of economic and social
factors in the lives of clients and client systems. They also understand the potentially empowering effects that community engagement with client systems – addressing such variables as human rights violations and social, economic, and environmental injustices – can have on such communities. Clinical social workers also demonstrate effective and client-centered, culturally competent strategies for advancing human rights and social economic justice in domestic and global contexts. Clinical social workers:

3.3 Display competency in addressing the effects of oppression, discrimination, global human rights issues, and historical trauma on client systems in clinical decisions.
3.4 Identify the social work profession’s role in advocacy and empowerment in communities when addressing human rights violations and social, economic, and environmental injustice on client systems using relevant strategies.

Core Competency 4: Engage In Practice-informed Research and Research-informed Practice

Social workers understand quantitative and qualitative research methods and their respective roles in advancing a science of social work and in evaluating their practice. Social workers know the principles of logic, scientific inquiry, and culturally informed and ethical approaches to building knowledge. Social workers understand that evidence that informs practice derives from multi-disciplinary sources and multiple ways of knowing. They also understand the processes for translating research findings into effective practice. Social workers:

4.1 Use practice experience and theory to inform scientific inquiry and research.
4.2 Apply critical thinking to engage in analysis of quantitative and qualitative research methods and research findings.
4.3 Use and translate research evidence to inform and improve practice, policy, and service delivery.

Specialized Competency 4

Clinical social workers are knowledgeable about evidence-based interventions, best practices, and the research process, and are able to think critically about what constitutes evidence. Clinical social workers:

4.4 Critically evaluate evidence-based methods for assessment and intervention with individuals, families, groups, organizations, and communities.
4.5 Use evidence-based interventions in a culturally sensitive and collaborative manner that integrates research evidence with both practitioner experience and client values.
4.6 Participate in and inform agency-based and community-based needs assessments and program evaluations.
4.7 Use research methodology to evaluate practice and program effectiveness.

Core Competency 5: Engage in Policy Practice
Social workers understand that human rights and social justice, as well as social welfare and services, are mediated by policy and its implementation at the federal, state, and local levels. Social workers understand the history and current structures of social policies and services, the role of policy in service delivery, and the role of practice in policy development. Social workers understand their role in policy development and implementation within their practice settings at the micro, mezzo, and macro levels and they actively engage in policy practice to effect change within those settings. Social workers recognize and understand the historical, social, cultural, economic, organizational, environmental, and global influences that affect social policy. They are also knowledgeable about policy formulation, analysis, implementation, and evaluation. Social workers:

5.1 Identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services.
5.2 Assess how social welfare and economic policies impact the delivery of and access to social services.
5.3 Apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice.

Specialized Competency 5

Clinical social workers recognize the connection between clients, practice, and public and organizational policy. Clinical social workers are knowledgeable of and have the ability to critically analyze the factors that influence the development of legislation, policies, program services, and funding at all system levels, as well as the impacts of these policies. They have knowledge of policy analysis, advocacy, organization, trauma-informed strategies, and methods of social change that contribute to effective policies that promote social, economic, and environmental well being. They engage in policy practice at the agency and community level. Clinical social workers:

5.4 Identify the influence of community and organizational factors and trauma that impact services and client quality of life.
5.5 Develop policies and funding strategies for enhancing services and client quality of life at the organizational and community level.
5.6 Select appropriate methods of advocacy, organization, and trauma-informed social change to promote social and economic well being.
5.7 Conduct policy practice.

Core Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that engagement is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers value the importance of human relationships. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to facilitate engagement with clients and constituencies, including individuals, families, groups, organizations, and communities. Social
workers understand strategies to engage diverse clients and constituencies to advance practice effectiveness. Social workers understand how their personal experiences and affective reactions may impact their ability to effectively engage with diverse clients and constituencies. Social workers value principles of relationship-building and inter-professional collaboration to facilitate engagement with clients, constituencies, and other professionals as appropriate. Social workers:

6.1 Apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with clients and constituencies.
6.2 Use empathy, reflection, and interpersonal skills to effectively engage diverse clients and constituencies.

Specialized Competency 6

Clinical social workers develop culturally sensitive therapeutic relationships with individuals and families from diverse backgrounds and effectively attend to the interpersonal dynamics and contextual factors that strengthen and potentially threaten the therapeutic alliance. Clinical social workers establish a relationally based process that engages clients in a collaborative partnership throughout the treatment process. Clinical social workers also understand the importance of cultural differences in the therapeutic relationship and have the ability to use research to strengthen their cultural competence and ability to engage clients in a therapeutic relationship. Clinical social workers:

6.3 Understand the contextual elements that affect engagement in the therapeutic relationship including interpersonal dynamics, trauma, cultural difference, and organizational dynamics.
6.4 Utilize collaborative and person-centered, developmentally appropriate engagement strategies.

Core Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Social workers understand that assessment is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand methods of assessment with diverse clients and constituencies to advance practice effectiveness. Social workers recognize the implications of the larger practice context in the assessment process and value the importance of inter-professional collaboration in this process. Social workers understand how their personal experiences and affective reactions may affect their assessment and decision-making. Social workers:

7.1 Collect and organize data, and apply critical thinking to interpret information from clients and constituencies.
7.2 Apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies.
7.3 Develop mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies.
7.4 Select appropriate intervention strategies based on the assessment, research knowledge, and values and preferences of clients and constituencies.

Specialized Competency 7

Clinical social workers engage in an assessment process with clients in order to inform their choice and implementation of interventions. Clinical social workers combine knowledge of theories and frameworks – including trauma-informed assessment during the assessment process. On-going self reflection is part of best practice, allowing the social work practitioner to be aware of issues relating to transference/countertransference. Clinical social workers:

7.5 Conduct multidimensional, trauma-informed assessments with consideration for the client’s readiness for change, adaptive capacities, and contexts.
7.6 Use continuous assessment and collaboration with clients to inform the implementation of interventions.
7.7 Critically analyze client and contextual dynamics using theory to guide assessment and interventions with clients.
7.8 Engage in ongoing self-reflection to assess how personal experiences and affective reactions may influence assessment, including the identification of transference/countertransference.

Core Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that intervention is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers are knowledgeable about evidence-informed interventions to achieve the goals of clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to effectively intervene with clients and constituencies. Social workers understand methods of identifying, analyzing and implementing evidence-informed interventions to achieve client and constituency goals. Social workers value the importance of inter-professional teamwork and communication in interventions, recognizing that beneficial outcomes may require interdisciplinary, inter-professional, and inter-organizational collaboration. Social workers:

8.1 Critically choose and implement interventions to achieve practice goals and enhance capacities of clients and constituencies.
8.2 Apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in interventions with clients and constituencies.
8.3 Use inter-professional collaboration as appropriate to achieve beneficial practice outcomes.
8.4 Negotiate, mediate, and advocate with and on behalf of diverse clients and constituencies.
8.5 Facilitate effective transitions and endings that advance mutually agreed-on goals.

Specialized Competency 8

Clinical social workers engage in interventions with clients through an ongoing process of skill selection and implementation. In the skill selection process, clinical social workers base their choice in interventions on the intersectionality of such factors as theoretical models, multidisciplinary frameworks, evidence-based practice, practice wisdom, the trauma-informed perspective, advocacy, and the therapeutic relationship. Clinical social workers:

8.6 Critically analyze theory driven strategies within the context of their practice and as applied to diverse client needs and challenges.
8.7 Use multidisciplinary frameworks and knowledge of human behavior and the social environment to apply and continually evaluate intervention models in their work with clients.
8.8 Utilize a variety of skills to both support and negotiate for their clients, including interdisciplinary and interagency collaboration, advocacy, and system change initiatives.
8.9 Utilize evidence-based practice, practice-informed wisdom, and a trauma-informed perspective to critically evaluate, select, and apply interventions with clients.
8.10 Continually attune to and examine the therapeutic relationship and use of self with clients as they affect change, and empower and support clients particularly in areas of vulnerability and difference.

Core Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that evaluation is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations and communities. Social workers recognize the importance of evaluating processes and outcomes to advance practice, policy, and service delivery effectiveness. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in evaluating outcomes. Social workers understand qualitative and quantitative methods for evaluating outcomes and practice effectiveness. Social workers:

9.1 Select and use appropriate methods for evaluation of outcomes.
9.2 Apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the evaluation of outcomes.
9.3 Critically analyze, monitor, and evaluate intervention and program processes and outcomes.
9.4 Apply evaluation findings to improve practice effectiveness at the micro, mezzo, and macro levels.

Specialized Competency 9

Clinical social workers recognize the critical role of evaluation of practice at all levels from individual clients to international policy. Clinical social workers are knowledgeable about
evaluative processes and can identify empirically and theoretically sound indicators of change. They are knowledgeable of a range of evaluative methods, and they participate in the evaluation process. They also design and implement evaluations as appropriate to their practice setting. Clinical social workers:

9.5 Participate in the evaluation of processes and outcomes in organization and community programs.
9.6 Use empirical literature to identify variables, concepts, and theories to evaluate practice.
9.7 Utilize evaluation outcomes to critically analyze and modify practice effectiveness at the micro, mezzo, and macro levels.

PROGRAMS OF STUDY

On Campus Programs
Two graduate MSW programs of study are available, with both programs available on a full- or part-time basis:

Regular 64-credit Program
Full time Regular Admission students can complete the program in two years (4 semesters) of full-time study. Regular Admission part-time students can complete the program in three years (8 semesters). Part-time students must take at least two courses a semester and complete the program within four calendar years.

41-credit Advanced Standing Program
Students from an accredited BSW program are eligible to apply for Advanced Standing admission. The Advanced Standing program offers both full-time and part-time options. Beginning with a summer session in May, full-time students can complete the program in one year (3 semesters) or part-time in two years (5 semesters).

Most Main Campus graduate social work classes are held on Wednesdays and Thursdays. Some classes are offered on Tuesday evenings and some classes are offered on weekends. First year students are in agency field placements on Monday and Tuesday. Second year students are in agency field placements on Monday, Tuesday and Fridays.

Change of Program Status
Changing from the on-campus program to the online program is not an entitlement. On-campus students who are in good standing and who would like to move to the online MSW program must first schedule a meeting with the online MSW Program Director. During this meeting, the Director will determine whether the change in programs is feasible based on programmatic fit and logistics, and the student’s academic and behavioral performance, extenuating circumstances, and progress towards completion of their degree. The final decision as to whether a change in programs is permissible is ultimately up to the online MSW Program Director.
All students who transfer from the on-campus MSW program to the online MSW program are required to complete the New Student Orientation prior to the start of their first online course. Failure to do so may postpone a student’s start date in the course.

*Note: Students may only change programs once during their time in the MSW program.*

**Certificates**

The MSW program currently offers three certificates that can be completed concurrently with the MSW degree. Upon acceptance into the specific certificate, students take two electives relating to the certificate, focus their clinical internship on the population relevant to the certificate, and take an additional two-semester seminar along with the field placement.

Students interested in applying for one of the certificate programs will be required to submit an application to the coordinating faculty member. This application is accessible in the MSW Student Resource Center. Each certificate program application requires a 1-2 page essay describing the student’s interest in obtaining the certificate, including professional interests and future goals as well as a current resume and transcript for the MSW program to date. To be eligible for a certificate program, the student must have an overall GPA of 3.3 or higher and maintain a B+ or better in all required courses.

**Supporting People with Intellectual and Developmental Disabilities and Challenging Behaviors Certificate**

Through this certificate, students undergo training to work with people with intellectual and developmental disabilities. Students work in an agency three days a week under the supervision of clinical social workers who work with people with developmental disabilities. The field internship is devoted to developing skills for therapeutic services. Faculty members provide a two-semester long seminar – in addition to the traditional field seminar – to students doing their internship while working towards this certificate.

**Trauma Certificate**

This certificate prepares MSW students with the knowledge and skills for work with people who have experienced the effects of trauma. Students receive instruction focused on supports and resources, special training regarding current theory and interventions for trauma victims, and effective strategies for dealing with vicarious traumatization.

Students work in an agency three days a week under the supervision of clinical social workers who work with individuals who have experienced trauma. The field internship is devoted to developing skills for therapeutic services. Faculty members provide a two-semester long seminar – in addition to the traditional field seminar – to students doing their internship while working towards this certificate.
Global Social Work Certificate

Through hands-on experience, students learn real-world applications to theories in global social work and the impact that international policies and globalization have on local populations. Field placements include work with refugee/immigrant populations. During one international trip, students get the opportunity to apply what they have learned in the program. Past destinations included China, Netherlands, Great Britain, Thailand, and Japan.

Students work in an agency three days a week under the supervision of clinical social workers who work with refugee/immigrant populations. The field internship is devoted to developing skills for therapeutic services. Faculty members provide a two-semester long seminar – in addition to the traditional field seminar – to students doing their internship while working towards this certificate.

DEGREE REQUIREMENTS

Regular Admission
Students enrolled in the regular admission MSW program must complete 34 credit-hours of required core practice courses, 30 credit hours of advanced practice courses which include 9 hours of electives, and a noncredit writing module for a total of 64 credit hours.

Course Requirements
- SW 501 Human Behavior & the Social Environment I (3)
- SW 502 Human Behavior & the Social Environment II (3)
- SW 503 Interpersonal Processes (3)
- SW 505 Generalist Social Work Practice (3)
- SW 506 Social Work Practice with Individuals, Families, & Groups (3)
- SW 507 Personal and Professional Writing Module
- SW 520 Methods of Social Work Research (3)
- SW 540 Social & Economic Justice I (3)
- SW 541 Social & Economic Justice II (3)
- SW 552 Field Practicum I (4)
- SW 553 Field Practicum II (4)

Note: Students are expected to have the same instructor for both SW 505 and 506, and the same instructor for both SW 552 and SW 553 and remain in the same section for the fall and spring semesters.

Advanced Concentration Courses:
- SW 630 Clinical Social Work Practice with Individuals (3)
- SW 633 Clinical Social Work Practice with Families (3)
- SW 636 Organization & Program Development (3)
- SW 639 Clinical Social Work Seminar (3)
- SW 650 Field Practicum III (4)
• SW 651 Field Practicum IV (4)
• SW 664 Treating Trauma (3)

Note: Students are expected to have the same instructor for both SW 630 and SW 639, and the same instructor for both SW 650 and SW 651 and remain in the same section for the fall and spring semesters.

Elective Courses:
• Three elective courses (9)

Cumulative Total = 64 Credits

Advanced Standing

Students enrolled in the Advanced Standing program must complete 32 credit hours of required courses and 9 credit hours of elective courses for a total of 41 credits.

Course Requirements
• SW 502 Human Behavior & the Social Environment II (3)
• SW 503 Interpersonal Processes (3)
• SW 507 Personal and Professional Writing Module

• Three elective courses (9)

Electives

All regular admission students must complete 9 credit hours of electives. Advanced standing students must complete 9 credit hours of electives. Students may fulfill elective requirements by taking electives offered within the Center for Social Work Education or by taking approved electives in related disciplines.

Some electives have prerequisite requirements. Students are responsible for checking on eligibility as they plan their course ladder.

Available electives¹ include:

¹ Available elective offerings may vary from year to year. Current offerings are available as part of the registration packet prior to registration each semester. This information can be accessed via the MSW committee on Campus Cruiser in the Shared Files for this committee.

SW 639 Clinical Social Work Seminar
The Council for Social Work Education (CSWE) has identified the field experience as the signature pedagogy in social work education. A signature pedagogy “represents the central form of instruction and learning in which a profession socializes its students to perform the role of practitioner” (CSWE, 2008, p. 8). The overall objective of the Field Education Program is to provide students with the opportunity to integrate and apply the knowledge and skills gained throughout the MSW curriculum to social work practice within an agency setting. Each year of field education is designed to provide an opportunity for holistic competency development that includes knowledge, values, skills, and cognitive and affective processes. Upon completion of the two years of field placements, students should have the requisite knowledge, skills, and commitment to professional values and ethics that support social and economic justice, along with an appreciation of diversity, the effects of trauma, self-awareness, and self discipline in order to provide competent clinical social work services. In addition, MSW students should demonstrate competency in the Core Competencies and related behaviors established by the Council for Social Work Education and the Widener University Center for Social Work Education.

The Widener Center for Social Work Education supports field learning through an integrated field model. The integrated model of the field program is designed to join the student’s practice class learning with the field experience, providing students the opportunity to merge acquired course knowledge with agency clients “in vivo”. This integrated model is accomplished through several means. The practice classes and the field placements are concurrent. During the first year of field, students take a three-hour practice class each week for the full year (SW 505 and SW 506) at the same time they are in the sixteen-hour per week field placement (SW552 and SW 553). During this first year field experience, students participate in a one credit seminar that meets every other week for 90 minutes. During the second year of field, students similarly are furthering clinical learning in a full practice sequence (SW 630 and SW 639) while concurrently in the field (SW 637/638). The field seminar is embedded in the practice class for the specialization field year. The field seminars provide students with the opportunity to develop their skills of self-reflection while integrating their learning.
The Widener Center for Social Work Education recognizes the importance of the role of the faculty field liaison as the student’s link between the MSW program and the field placement agency. As part of the program’s commitment to field education through the integration of practice and field, the student’s seminar teacher (SW550 and SW551, SW637/638) also serves as the student’s field liaison throughout the field year. The integrated model of field instruction assures that the person visiting the agency knows the student and the curriculum as well as the specifics of the field placement. In short, the faculty liaison supports the agency field instructor and the student, reiterates the field placement expectations to the field instructor, and helps with planning and implementation so that the curriculum can be well integrated into practice.

The generalist/first year field placement:

1. Provides the student with two (2) consecutive semesters of field practice for 14-16 hours per week. The student spends a total of 420 hours in the field setting for which he/she earns eight (8) credit hours. All generalist field placement hours should be completed within two consecutive semesters at a single agency approved by the Director/Assistant Director of Field Education. Please note that some agencies, especially the more selective sites, have their own internship requirements to which students must agree in order to accept the placement.
   a. Students accrue field hours only for the actual amount of time spent in the field at the agency. If students miss time for any reason (sickness, weather, holiday, etc.), the hours must be made up. The minimum number of field hours (420 for first year) must be met by the end of the field year.
   b. Students are required to accrue at least 210 hours by the end of the first semester (SW 552) unless arrangements have been made with the Director/Assistant Director of Field Education.
   c. Students are required to stay in the field placement until the end of the field year (SW553) even if they have acquired the minimum number of hours (420) prior to the end of the field year.
   d. It is the student’s responsibility to collaborate with the agency and calculate how many hours must be completed weekly in order to meet the minimum number of total field hours (420). Students must be in the placement a minimum of fourteen hours per week and a maximum of sixteen hours unless previous arrangements have been made with the agency field instructor and field liaison.

2. Offers the student the opportunity to engage in agency-based social work practice from a person-in-environment, generalist perspective consistent with the values, ethics and principles of the social work profession.

3. Allows students to provide direct service to clients and client systems for at least 6 hours weekly. Soon after a beginning agency program orientation, students should be assigned one to two cases working up to at least six hours of face-to-face contact by November.
4. Provides micro practice learning opportunities that may include but not be limited to the following: biopsychosocial assessments, crisis intervention, intake, individual counseling, family and/or group work, case management and advocacy.

5. Provides opportunities to learn about macro practice during the course of the academic year. Macro practice learning opportunities may include but not be limited to the following: program planning and development, evaluation practice, community outreach, attendance at administrative meetings, such as board meetings, committee meetings, task force meetings, etc.

The specialization/second year field placement:

1. Provides the student with two or three consecutive semesters of field practice for two days (14-16 hours) or three days (20-24 hours) per week. The student spends a total of 680 hours in the field setting for which he/she earns eight (8) credit hours. All second year field placement hours should be completed in no more than three consecutive semesters at a single agency approved by the Director/Assistant Director of Field Education. Please note that some agencies, especially the more selective sites, have their own internship requirements to which students must agree in order to accept the placement.
   a. Students accrue field hours only for the actual amount of time spent in the field at the agency. If students miss time for any reason (sickness, weather, holiday, etc.), the hours must be made up. The minimum number of field hours (680 for first year) must be met by the end of the field year.
   b. Students completing hours in two semesters must accrue at least 340 hours by the end of the first semester (SW 630/ SW 650) unless previous arrangements have been made with the Director/Assistant Director of Field Education and agency field instructor. Students extending the placement to three semesters must accrue at least 210 hours by the end of the first semester (SW 630/ SW 650) unless previous arrangements have been made with the Director/Assistant Director of Field Education and agency field instructor.
   c. Students are required to stay in the field placement until the end of the field year (SW639/SW651) even if they have acquired the minimum number of hours (680) prior to the end of the field year.
   d. It is the student’s responsibility to collaborate with the agency and calculate how many hours must be completed weekly in order to meet the minimum number of total field hours (680). Students in a two-semester placement must be in the placement a minimum of twenty hours per week and a maximum of twenty-four hours unless previous arrangements have been made with the agency field instructor and field liaison. Students in a three-semester placement must be in the placement a minimum of fourteen hours per week and a maximum of sixteen hours unless previous arrangements have been made with the agency field instructor and field liaison.
2. Allows students to provide clinical services for at least 9 hours of clinical service weekly to individuals, families and groups in the 20-24 hours per week of field placement.

3. Allows for student to attend weekly staff meetings, case conferences, in-service trainings, etc. to provide ample exposure to agency life.

4. Provides opportunity for students to examine and integrate the theories and skills of agency-based clinical social work practice with individuals, families, and small groups.

5. Encourages students to develop and refine their clinical assessment, intervention, and evaluation skills.

6. Provides opportunities for students to consolidate their own identities as professional, disciplined, and self-aware clinical social workers.

Extended Field Option: The Center for Social Work Education offers the option for second year field students to enroll in a 14-16 hour per week specialization/second year field placement that extends beyond the second semester (SW 639/ SW 658). Students who elect this option will complete the same total number of hours in the field as the students who elect the traditional 20-24 hour per week option. Students who enroll in the extended field placement must take a one-credit field seminar (SW 652) during the third semester of field. This option must be discussed with and approved by the Director/Assistant Director of Field Education and must be agreed upon by the host agency. In order to utilize this option, the student must begin the process of approval no later than the start of SW 638.

Criteria for Selection of Field Placement Settings

Generalist/first year field placement settings are selected on the basis of their capacity to provide the student with the opportunity to explore the social work roles and functions associated with social work practice from a generalist perspective with a range of client systems. Specialization/second year field placement settings are selected on the basis of their capacity to provide the student with a more specialized focus on clinical social work practice with individuals, families, and small groups. Private practice settings are generally not approved for generalist or specialization field placements, but may be reviewed by the Director/Assistant Director of Field Education on an individualized basis.

To qualify as a field placement site, the social service setting must:
1. Conduct social work practice from a person-in-environment perspective.

2. Engage in social work practice that is consistent with the values, ethics, and principles of the social work profession.

3. Practice non-discrimination with regard to gender, sexual orientation, race, color, ethnicity, age, religion, or disability in the provision of services and operation of the setting.

4. Provide the student with adequate learning assignments and resources so that they can achieve the identified social work practice competencies and behaviors.

5. Provide the student with an orientation to the agency services, operations, structure, and personnel guidelines, including safety policies and procedures.

6. Provide the student with a qualified MSW field instructor who has adequate time to supervise, meet with the faculty liaison, and attend supervisory training seminars.

7. Sign an Affiliation Agreement with the University indicating acceptance of respective responsibilities.

Criteria for Selection of Field Instructors

Field instructors are selected who:

1. According to CSWE standards, have an MSW from an accredited social work program, have at least two years of post-graduate professional social work practice experience, and are committed to teaching the student the knowledge, skills, and values of the social work profession.

2. Have the skills to provide a knowledge base of agency-based social work practice from a generalist perspective if providing field instruction for a generalist/first year student and a knowledge base of skills for agency-based clinical social work practice if providing field instruction for a specialization/second year student.

3. Can provide a minimum of sixty (60) minutes of individual supervision on a weekly basis. The generalist/first year field instructor will help the student look at the process of interaction with the client system in a planful manner through written process recordings, audio or video-tapings, summarized process recordings, role plays, and case written reports. The specialization/second year field instructor will help the student on a weekly basis look at the process of interaction with the client through written process recordings, audio or videotaping, and live supervision.

4. Have adequate agency time to orient, prepare, teach, and supervise the assigned student.

5. Agree to participate in faculty liaison-led meetings, which may take place in person or via video or telephone conference calls. Faculty liaison conference calls take place during the beginning of the first semester of field (SW 552 and SW 630/SW 650) and as needed.
throughout the student’s field experience. All field instructors are invited to attend any Center-sponsored CEU events free of charge, including the field orientation and evaluation seminars. CEU events will also be offered as web-based seminars online. Web-based seminar attendance is encouraged when available, but not required.

6. In some circumstances when an agency is able to provide a suitable site supervisor but does not have a qualified MSW available to work with the intern, an off-site and/or volunteer supervisor may be assigned to provide the social work component of supervision. These MSWs are selected and assigned by the Director/Assistant Director of Field Education and will work collaboratively with the agency-based site supervisor.

The Field Placement Process

Process for Matching Campus Students and Field Settings

Matching students with a field placement setting that is appropriate to their professional interests, experience, and learning needs is the goal of the Field Placement Process and requires preparation and planning. This is a collaborative process that requires consistent and timely communication between the student and the assigned field director. Widener University Center for Social Work Education utilizes a comprehensive database for all field students.

Newly admitted full time students (Regular and Advanced Standing Admission) are provided login information to their field database account and electronically complete an Application for Field Placement and upload a resume containing current contact information. At the same time, new students are required to request clearances through the Center for Social Work Education’s contracted clearance organization. Once the application and resume upload are completed and the clearance application is submitted, students make an appointment to meet individually with the Director or Associate or Assistant Director of Field Education to explore the student’s agency setting preferences, previous social work experience and skill level, practice domain interests, needs regarding geographic location, and future professional goals. Every effort is made to meet the student’s learning needs, however the student must be flexible with their requests. Following the interview, the Director/Associate or Assistant Director of Field Education contacts one of the appropriate agencies and presents the student to the agency’s designated field placement contact for consideration for student placement. If the student is accepted as a potential intern, the student and agency contact schedule a preliminary interview. Each student is given an outline of possible questions to help focus the interview. If either the student or the agency have serious reservations about the placement, the Director/Associate or Assistant Director of Field Education addresses these reservations with both parties to determine whether adjustments might be made that would facilitate a successful match. However, if the issues cannot be resolved, an interview with another agency is scheduled. The ultimate determination of a field practicum match is made by the Director or Associate or Assistant Director of Field Education. The
student will have no more that two field interviews. If the student is not accepted for a placement after two agency interviews, the student is required to meet with the Director or Associate or Assistant Director of Field Education to discuss options that may include delay of the field internship or dismissal from the program depending on the reasons for not being accepted.

The process of field placement for returning part time students and second year students begins during the Spring academic term. Students log in to the electronic database, complete an Application for Field Placement, and upload a current resume. In addition, first year students are required to request clearances through the Center for Social Work Education’s contracted clearance organization. Similar to the process described above, students arrange an appointment to meet with the Director/Associate or Assistant Director of Field Education to explore in more detail their field education needs. Based on this discussion, the Director/Associate or Assistant Director of Field Education selects one of the appropriate agencies and presents the student to the agency designee. The student and agency designee meet for a preliminary interview. As described above, if either the student or the agency has serious reservations about the placement, the Director of Field Education attempts to resolve these issues with both parties to facilitate a successful match. In the event the issues cannot be resolved, another agency is identified and the placement process is repeated. Part-time students and all students entering the second year of field placement are expected to have their field appointments by March 31. The student will have no more than two placement interviews. If the student is not accepted for a placement after two agency interviews, the student is required to meet with the Director or Associate or Assistant Director of Field Education to discuss options that may include delay of the field internship or dismissal from the program depending on the reasons for not being accepted.

The ultimate determination of a field placement match is made by the Director/ Assistant Director of Field Education.

All MSW students are required to go through the field process in order to be eligible for field placement. Students may explore field options but are not permitted to schedule agency interviews without the approval of the Director/Associate or Assistant Director of Field Education. Not following the designated field process or scheduling independent interviews may place the student’s status in the field placement process or in the program in jeopardy.

Students entering generalist/ first year field and Advanced Standing students will be responsible for obtaining clearances. Students are required to utilize Castle Branch in order to obtain the clearances required in the state where they will complete their field placements. Previously obtained clearances that match the requirements listed in CastleBranch and that were obtained within six months from the field start date may be accepted. Students should be aware that positive reports for criminal history may impact the types of agencies students may pursue for field placement. Students are expected to disclose any criminal history to the Director/ Assistant Director of Field Education at the start of the field planning process in order to plan accordingly.
All students in the field are required to carry personal liability insurance in the amounts of $1,000,000 per incident/$3,000,000 aggregate for the duration of their field placements. Proof of insurance is to be uploaded to the student’s electronic database account by August 1 prior to beginning the field placement. This individual policy is in addition to the group policy provided by the University and is obtained at the expense of the student.

**Field Education at Place of Employment**

Occasionally, students may have the opportunity to fulfill the field experience in the social work setting in which they are also employed. The student must have fulfilled the employee probationary requirements satisfactorily in order to consider a worksite placement. Through careful planning with the Director/Assistant Director of Field Education and the social work setting, a student may meet the field education requirements at their employment site. The student's field placement assignments must be clearly differentiated from the regular work assignments to allow for new learning, to ensure that master’s level core competencies and behaviors can be achieved, and to expand the student’s current professional knowledge and skills base. The placement location, case assignments, field supervision time, and learning tasks must be separated from the student’s employment-related supervision, case assignments, and tasks. The MSW field instructor must be different from the student’s ongoing work supervisor to ensure, in part, that the field instructor is free to focus on the educational aspects of the placement rather than administrative issues. The student’s MSW field instructor must meet all of the Widener University Center for Social Work Education’s established criteria to serve as a field instructor. The worksite setting must support the student’s field placement by providing sufficient resources as well as populations and/or social work roles and functions for the student’s field education experience.

Both generalist and specialization students should have a preliminary discussion with the appropriate worksite administrator(s) prior to the initial field interview about the possibility of a worksite field placement and discuss these ideas with the Director/Assistant Director of Field Education during the interview. If the preliminary discussion indicates that a worksite field proposal is viable, the student completes the Worksite Agreement template and submits it to the Director/Assistant Director of Field Education no later than sixty (60) days prior to the start of the placement. The plan is reviewed by the Director/Assistant Director of Field Education to assess the educational focus of the worksite field education plan and to ensure that it is sufficiently different from the student’s paid work responsibilities. A meeting or conference call is held with the student, the field instructor, and the appropriate agency representative in order to further develop and/or finalize and approve the plan. The student submits the signed Worksite Agreement to the Director/Assistant Director of Field Education and to the agency field instructor. The student retains a copy of the agreement and provides a copy to the worksite administrator. The field office will upload the approved plan to the electronic database in order for the field liaison to have access to it throughout the placement.

During the placement, the faculty field liaison closely monitors the worksite placement to ensure
that the agreed upon plan is fully implemented, that the placement experience is adequately differentiated from the student’s paid work responsibilities, and that the placement is consistent with the educational objectives of the School and the proposal made by the student.

If a worksite field student’s job is terminated by the agency, the Director of Field Education reviews the circumstances of the termination based on information received from the agency field instructor/work supervisor, field liaison, and a meeting with the student through an Administrative Field Review. The Director of Field Education will lead this review and involve appropriate administrators and/or faculty to participate. Administrative Field Reviews will take place in person or via video conference. After the review is completed, the Director of Field Education will make a decision regarding the student’s status in the field program.

**Field Education Roles and Responsibilities**

The success of a field placement depends upon cooperation between the social work program, the agency, the Director/Assistant Director of Field Education, the faculty liaison, the field instructor, the site supervisor (as applicable), and the student. The following describes the various participants’ roles and responsibilities:

**Responsibilities of the Social Work Program**

It is the Center for Social Work Education’s responsibility to:

1. Develop and maintain a curriculum that will prepare the social work student for clinical social work practice with individuals, families and small groups.
2. Select a diverse population of students with the intellectual and personal characteristics and commitment to the profession of social work to successfully complete the degree requirements.
3. Provide faculty to coordinate field education and to fulfill faculty liaison responsibilities.
4. Plan and conduct periodic informational meetings and seminars for faculty and field instructors in order to adequately integrate the field experience with the curriculum.
5. Provide field education settings with an Agreement of Affiliation that specifies mutual expectations and responsibilities.
6. Provide group malpractice liability insurance for all students in the field;
7. Inform field instructors of their privileges within the University (e.g. library use, CEU events).

**Responsibilities of the Field Setting**
It is the field setting’s responsibility to:

[There are some minor differences between the on campus and online lists.]

1. Provide qualified field instructors who have an MSW and two years of post-graduate professional experience or a designated task supervisor willing to work collaboratively with an identified off-site MSW.

2. Provide an orientation to the student on the social work setting, its mission, purpose, functions and services, including safety policies and procedures.

3. Give the field instructor adequate time to prepare for and provide a minimum of sixty (60) minutes of individual student supervision weekly, to attend field education informational meetings and seminars conducted by the Center for Social Work Education.

4. Meet in person at least once yearly and maintain on-going telephone or email contact with the faculty liaison and/or Director/Assistant Director of Field Education.

5. Provide adequate space and learning opportunities for the student to gain social work practice experience.

6. Sign an Affiliation Agreement with the University indicating acceptance of designated responsibilities.

7. Make the Center for Social Work Education aware of any requirements for driving, transporting of clients, use of a personal car, or use of an agency car, and the agency insurance coverage for these tasks.

**Responsibilities of Director/Assistant Director of Field Education**

It is the Director/Assistant Director of Field Education's responsibility to:

1. Develop and administer the MSW field program.
2. Coordinate the student placement process including:
   a. Exploring and selecting field placements.
   b. Matching students with field placements appropriate to the student's learning needs.
c. Maintaining active collaboration with agencies on selection of qualified field instructors.

3. Provide consultation for faculty liaisons regarding the student's overall learning process. If a serious problem arises with student's learning and/or a placement must be terminated, the Director/Assistant Director will coordinate the process.
4. Plan one meeting per semester for faculty liaisons to exchange information on students' learning needs in the field, and the operation of the field instruction program as part of curriculum planning for the program.
5. Coordinate all field activities, including the development of a field calendar.
6. Provide informational meetings and educational seminars for field instructors.

Responsibilities of the Faculty Field Liaison

It is the faculty field liaison's responsibility to:

1. Maintain regular contact with the field instructor and visit the student’s placement at least once during the fall semester. Regular contact throughout the spring semester may be via visit, telephone, or email.
2. Support the student’s transition into the field placement, respond to problems that arise in the field placement, and evaluate the student’s progress through joint discussion with the student and his/her field instructor.
3. Review and approve the Learning Contract prepared by the student in collaboration with the field instructor and monitor progress made in achieving goals and tasks identified in the student’s Learning Contract.
4. Ensure that the student is receiving the agreed upon sixty (60) minutes of supervision.
5. Write a field contact report after each agency visit and upload the report to the student’s electronic database account.
6. Communicate pertinent information about the student’s learning needs, problems and progress to the Director or Assistant Director of Field Education.
7. Actively participate in each semester’s curriculum planning meeting with the Director of Field Education or Assistant Director of Field Education and other faculty field liaisons in relation to the operation of the field education program.
8. Actively participate in regularly scheduled field meetings, such as the Field Instructors’ Orientation and Training Seminars and the Annual Field Appreciation Breakfast.
9. Award a “pass” or “non-pass” grade to the student for each semester of field education. In the event of a failing grade, the faculty field liaison must alert the Director of Field Education/Associate or Assistant Director of Field Education and arrange for a joint review and planning meeting with the student, faculty liaison, and Director of Field Education/Associate or Assistant Director of Field Education.
10. Act as a liaison between the program and the social work setting. The faculty field liaison conveys the program’s expectations to the field instructor, helps plan and implement the
placement, and provides information regarding the MSW curriculum. The faculty field liaison is also expected to support and develop the social work setting’s continued availability as a field placement setting for our program.

11. Facilitate at least one forty-five (45) minute bi-monthly practice class discussion on field related issues and concerns.
12. Monitor and review the student’s monthly documentation of field hours and supervision times that are uploaded to the electronic database.
13. Meet with students individually as needed if field concerns arise.
14. Monitor worksite field placements to insure differentiation of field assignments from paid employment assignments.

Responsibilities of the Field Instructor

It is the responsibility of the field instructor to:

1. Submit a copy of his or her resume or CV to the Center for Social Work Education.
2. Orient the student to the social work setting, its mission, purpose, function, and services within the community, including safety policies and procedures.
3. Structure the student’s field experience by collaborating with the student in assessing his/her learning needs, developing the Learning Contract, and reviewing regularly progress made in achieving goals identified in the Learning Contract.
4. Provide regular weekly individual supervisory conferences for a minimum of sixty (60) minutes and to be accessible to the student as needed to maximize the field learning experiences. The program encourages field instructors to require first year students to submit on a weekly basis material that documents student/client system interactions in detail. Such documents may include written process recordings, audio/videotapes, and or role-play scenarios. Progress notes and/or other methods of documentation of professional activities required by the field setting should also be examined. Depending on learning needs and learning style, second year field students are encouraged to submit at least one written process recording, video or audio tape weekly to help focus the supervision of their clinical work with clients.
5. Include the student in other professionally related learning opportunities such as teaching seminars, study groups, staff meetings, and conferences within and outside of the agency.
6. Serve as a professional role model who is committed to the values and ethics of the social work profession and to the importance of supervision as a critical element of the student’s learning process.
7. Engage the student in a collaborative process of evaluation of the student's performance and learning in the field. Formal evaluations are done at the end of fall semester and at the end of the academic year. The evaluation process should provide an opportunity for the field instructor and student to jointly assess the student's learning progress, set new learning goals and review the stages of the learning process.
8. Review and sign student’s monthly documentation of field hours and supervision that is
submitted to the faculty field liaison.

9. Maintain adequate communication with the faculty field liaison with regard to the student's progress, and provide feedback on the program’s curriculum and field instruction program.

10. Complete an Evaluation of Faculty Field Liaison and Program at the end of the academic year.

11. Attend meetings or trainings for field instructors provided by the program.

Responsibilities of the Agency Task Supervisor

The task supervisor:

1. Provides administrative supervision by meeting regularly with the MSW intern to assign and review caseload, work assignments, documentation, and other related tasks as appropriate.

2. Provides the student with information regarding agency policy, development of professional relationships within the agency, and general insight regarding the culture of the agency and/or program.

3. Provides ongoing supervision and consultation as the intern works to acquire social work competency.

4. Communicates regularly with the student’s MSW supervisor.

5. Participates in the visits/meetings/phone calls with the faculty field liaison scheduled each semester.

7. Collaborates with the MSW supervisor in preparing the student’s evaluations.

Responsibilities of the Student

It is the student's responsibility to:

1. Complete the Field Application in the Center’s electronic database, upload a current resume, and participate in a field interview with the Director or Assistant Director of Field Education to discuss learning interests and needs in person or via Zoom, Skype, or other virtual technology.

2. Maintain timely contact, both by phone and via email, with the Field Director or Assistant Director throughout the field placement process.

3. Request clearances through the Center for Social Work Education’s contracted clearance organization (Castle Branch). This is done one time at the beginning of the student’s first field experience and is done at the student’s expense.
4. Provide all clearances required by the field placement agency at the student’s expense. These include but are not limited to a physical health examination, immunizations and/or a drug screen test if required by the field placement agency at the student’s expense.

5. Obtain and maintain malpractice insurance during the duration of the field placements in the amount of $1,000,000 per incident/$3,000,000 aggregate at the student’s expense.

6. Abide by the NASW Code of Ethics in the classroom and in all aspects of the field placement. This Code can be found in the MSW Student Policy Manual available in One Drive or on the NASW website.

7. Address any personal issues that may impede the student’s ability to interact respectfully with clients, fellow students, faculty, colleagues and/or field personnel.

8. Complete the Field Application in the electronic database, upload a current resume, and attend a field interview with the Director/Assistant Director of Field Education to discuss learning interests and needs.

9. Maintain timely contact, both by phone and via email, with the Field Director/Assistant Field Director throughout the field placement process.

10. Adhere to the field placement calendar and to their social work setting’s work schedule, personnel practices, and work policies.

11. Demonstrate mastery of the required social work competencies on the Field Evaluation.

12. Prepare a Learning Contract, in collaboration with the field instructor, that describes learning goals and activities for the field year, and regularly review with his/her field instructor progress made toward achieving identified learning goals and activities. The Learning Contract is uploaded to the electronic database and a copy is provided to the field instructor, generally by mid-October.

13. Perform field assignments in a responsible and professional manner, including all required documentation and planned delivery of services.

14. Participate in supervisory conferences by preparing an agenda, addressing issues related to field assignments, theoretical issues, and/or related agency concerns. Students are encouraged to use supervision actively by identifying their learning needs and resolving any barriers to learning that might interfere with their learning process. First year students submit weekly process material that documents student/client interactions in detail. Second year students submit at least one written process recording, video or audio tape weekly to help focus the supervision of their clinical work with clients.

15. Complete readings and written material assigned by the field instructor in a timely manner.

16. Participate in written and live field discussions on field-related issues and concerns.

17. Participate in social work setting staff meetings, student seminars, teaching seminars, study groups, and conferences.

18. Share academic material related to field learning with the field instructor.

19. Maintain confidentiality of client contact, case records and other social work setting material. Students must have approval of their field instructor before using case material for class purposes and client identity must at all times be appropriately protected.

20. Maintain on-going communication with the field instructor and the faculty field liaison about any concerns or problems interfering with a successful field experience.

21. Upload the monthly documentation of field hours and supervision times to SONIA for the faculty field liaison to review.
22. Complete the Student Field Placement Evaluation at the end of the second semester of field practice and submit it to Director of Field Education.

The Learning Contract

Purpose

The purpose of the Learning Contract is to serve as a vehicle to allow the student and field instructor to share expectations and to define, clarify, and focus the learning journey in the field. In addition to meeting the identified core competencies and related practice behaviors, the Learning Contract requires the student to develop individual learning goals and activities for each semester. The Learning Contract can also serve as a useful document for evaluating the progress the student is making during as well as at the end of the semester.

Procedures

At the beginning of the fall semester the student should review with their field instructor previous field experiences, work and volunteer experiences, career goals and particular learning interests and needs, as well as what she/he needs to learn in the specific field placement in order to carry out a social work service role. From this assessment, the student develops individual learning goals and tasks or activities based on the Core Competencies set out by CSWE as ways to meet these goals. The student and field instructor need to discuss and share ideas for the Learning Contract, but the student is responsible for writing and submitting a copy of the contract to the faculty field liaison via Canvas by the date assigned by the Director or Assistant Director of Field Education.

The Learning Contract template identifies the Council on Social Work Education Competencies and behaviors and then requires the student to identify the individual activities or tasks that the student and field instructor will do to achieve these competency goals. Students in generalist/first year field placement should strive to develop a Learning Contract that integrates the generalist perspective into practice. The field placement should allow the student a wide range of learning opportunities to practice generalist social work skills with individuals, families, groups, organizations and communities. Students in specialization/second year clinical field placement should strive to develop a Learning Contract that integrates the foundation curriculum of social work practice from a generalist practice and the clinical social work practice curriculum at the second year concentration. The field placement should allow the student a wide range of learning opportunities to practice clinical social work with individuals, families and small
The student and field instructor should use the Learning Contract throughout the semester to monitor the student’s progress in achieving her/his identified learning tasks and goals. Similarly, the student and field instructor should review the Learning Contract at the end of the semester in order to incorporate an assessment of the student’s progress in achieving her/his learning goals into the Field Practicum Performance Evaluation.

**General Field Policies and Procedures**

Listed below are the policies and procedural guidelines that govern the structure of field education:

1. Generalist/first year students spend the equivalent of two days (14-16 hours) in the field for a total of 420 hours in field instruction. Specialization/second year students spend the equivalent of three days (20-24 hours) in the field for a total of 680 hours in field instruction. Students may develop their own schedules for field attendance as long as the agency field instructors are in agreement with the schedule.

2. All generalist/first year field placement hours are to be completed within two consecutive semesters at a single agency approved by the Director or Assistant Director of Field Education. All specialization/second year field placement hours should be completed in no more than three consecutive semesters at a single agency approved by the Director/Assistant Director of Field Education.

3. In order to pass the first semester of field, a generalist/first year student must have at least 210 documented field hours unless special arrangements have been made with the faculty field liaison and/or the Assistant Director or Director of Field Education. Specialization/second year students doing the two-semester field placement must have at least 340 documented field hours and second year students doing the three semester placement must have at least 210 documented hours in the field in order to pass the first semester of field unless special arrangements have been made with the faculty field liaison and/or the Assistant Director or Director of Field Education.

4. The Center for Social Work Education offers the option for specialization/second year field students to enroll in a 14-16 hour per week field practicum that extends from fall to mid summer. Students that elect this extended option will complete the same number of hours in the field as do students who elect the traditional twenty to twenty-four hour per week field placement option. Students who enroll in the extended field placement must take a 1-credit field seminar during the summer semester.
5. During the field year, any student requesting changes in scheduled field education hours must be approved by the field instructor and the faculty field liaison. If the student works extra hours, they are entitled to take compensatory time during the same month.

6. All MSW students are required to go through the field application and planning process in order to be eligible for field placement. Students may explore field options but are not permitted to schedule agency interviews without the approval of the Director/Assistant Director of Field Education.

7. Attendance in field placement is mandatory. All missed time, whether due to illness, holiday or personal emergencies must be made up. Students are expected to develop a plan for making up missed time with their field instructor and faculty liaison.

8. While every attempt is made to accommodate students’ schedules, all students are expected to be available at least one full day per week during regular business hours for field. Any exceptions must be approved by the Director Assistant Director of Field.

9. Students are required to complete monthly field attendance records, signed by the field instructor, documenting their hours in the field and their supervision. These are uploaded to the electronic database and reviewed the faculty field liaison.

10. The student follows the vacation schedule as outlined in the field education calendar. Students placed in school settings are required to take spring break during the assigned school’s holiday and not the University spring break.

11. The student provides their own transportation to and from the field site. Interns should not drive clients unless the agency specifies to the intern that this requirement is part of the essential duties of the internship. In order for a student to transport clients, a written agreement between the student and the agency is required. This agreement must specify the agency’s policy regarding transporting of clients. Students are advised that internships requiring driving as an essential duty may require notification to the student’s insurance carrier. The Center for Social Work Education does not assume responsibility for injury to or caused by the student during field.

12. If the student uses their car for social work setting duties, the student and Agency must prepare and submit a written agreement in relation to reimbursement.

Evaluation and Field Practice Performance
It is the philosophy of the Center for Social Work Education to view a student’s field education experiences from a developmental perspective. Skills and outcomes mastered one semester are built upon and further refined in the subsequent semesters of field education. The generalist/first year of field provides students with opportunities to master the competencies and behaviors required for social work practice from a generalist perspective with individuals, families, groups and communities. The specialization/second year of field education builds upon those competencies demonstrated in the first year and provides students with opportunities to master the competencies related to the concentration in clinical social work practice with individuals, families, and small groups.

In order to pass each semester of field, the following criteria must be met:
1. Students must earn an overall grade of 80% or greater in the corresponding field seminar.
2. Students must receive a passing field evaluation.
3. Students must accrue the required number of hours.

</table>

Each year of field education has a unique Field Evaluation. At the end of each semester of field, the field instructor completes and submits a Field Evaluation reflecting the expectations of progress in competency development appropriate to the student’s place in the program. The Field Evaluation Form requires the field instructor to rate numerically the student’s performance on the nine competencies and the related core or specialized behaviors.

In order to demonstrate competency for each semester of field, students are expected to earn a score of three (3) or above on each of the nine competencies. The competency score is based on the average of the scores earned on each related behavior. First year students are expected to demonstrate competency on all Core Competencies and Related Behaviors, and second year students are expected to demonstrate competency on all Specialized Competencies and Related Behaviors. If the student does not earn a score of three (3) or above on each of the nine competencies, then the student may receive a grade of Non-Pass for the semester. The Pass or Non-Pass grade for field is awarded by the faculty field liaison.

It is strongly recommended that evaluation of field performance be a collaborative process between the student and the field instructor. As part of the end of the semester evaluation process, students should be given the opportunity to self-assess their performance over the semester in relation to the outcome criteria included on the Field Evaluation and the progress made toward achieving her/his individualized learning goals and activities identified in the student’s Learning Contract. The student and field instructor should devote at least one
supervisory session to discussion of the progress made in achieving individualized learning goals and to their respective ratings on the Field Evaluation.

Changing Field Placement
Each student is carefully matched with an appropriate social work setting in order to maximize their learning opportunities and to take into account the student's previous work and educational background, practice interests, geographic location, career goals and special life circumstances. However, changes in social work settings may occur that may adversely affect the student's learning. The faculty field liaison explores with the field instructor and student the field problems that arise and explores alternative solutions. The faculty field liaison consults with the Director or Assistant Director of Field Education when it appears that a change in field placement is indicated. The Director or Assistant Director of Field Education, the faculty field liaison and student explore new field placement options. The Director or Assistant Director of Field Education makes the final decision regarding changing field placements.

Field Education Probation and Termination Policy

During the field placement, most problems are successfully resolved collaboratively between the field instructor and student during regular supervision. However, if during the course of the semester the field instructor and/or site supervisor identified problems or feels that adequate progress is not being achieved, a meeting/phone conference should be held with the field instructor, site supervisor as applicable, student, and faculty field liaison to review the concerns. A written statement summarizing the meeting and identified field performance problems should be prepared by the faculty field liaison within one week of the joint meeting, with copies submitted to the student, field instructor, and site supervisor as applicable. Throughout the balance of the semester, the faculty field liaison should monitor the situation and provide whatever support is needed to assist the student, field instructor, and site supervisor as applicable in helping the student achieve an adequate level of performance by the end of the semester.

In order to demonstrate competency for each semester of field, students are expected to earn a score of three (3) or above on each of the nine competencies in the field evaluation. The competency score is based on the average of the scores earned on each related behavior. First year students are expected to demonstrate competency on all Core Competencies and Related Behaviors, and second year students are expected to demonstrate competency on all Specialized Competencies and Related Behaviors. If the student does not earn a score of three (3) or above on each of the nine competencies, then the student may receive a grade of Non-Pass for the semester, which is the equivalent of an “F”. The Pass or Non-Pass grade for field is awarded by the faculty field liaison. The Center for Social Work Education’s policies for failure, withdrawal, and reinstatement apply to the field grade.

Under certain circumstances when a student is not able to demonstrate competency in some areas, or when the student is experiencing non-academic issues that impact their ability to sustain the field placement, the field liaison, in conjunction with the Director or Assistant Director of Field
Education, can give the student a Conditional Incomplete, which would place the student automatically on probation. Students with a Conditional Incomplete receive a letter from the Director or Assistant Director of Field Education outlining the specific performance deficits and the specific field competencies and fulfillment dates that need to be improved during the next semester of field placement. If the student does not show improvement in the identified areas by the specified dates, they may fail field for the entire year, which will result in dismissal from the program. In order to reapply, the student must submit relevant documentation of their resolution of the identified problems. The Director or Assistant Director of Field Education assesses the student’s readiness for fieldwork for final disposition.

Many students can expect to be drug tested during the interview process at their placement site. Some sites may also require random drug screenings throughout the placement. Should a student test positive for drugs when screened for any reason, the student may be terminated from the placement and dismissed from the program. The Center for Social Work Education’s policies for failure, dismissal, withdrawal, and reinstatement apply to the field failure.

Conditional Incomplete

While students are expected to demonstrate competency with ratings of three (3) or above on each of the nine competencies by the end of the field year, we recognize that some students may still be within the pre-competence and emerging competence range (scores of one or two) at the end of the first semester of the field placement (SW 552 and SW 650). Under some circumstances, students in this category may receive a grade of Conditional Incomplete. Students earning the grade of Conditional Incomplete will be required to develop a Performance Improvement Plan for gaining competency in these areas as a way of responding to the evaluation. This plan should be developed in collaboration with the field instructor and the faculty liaison, and requires the approval of the Director of Field Education.

When the student is experiencing non-academic issues that impact their ability to sustain the field placement, the field liaison, in conjunction with the Director/Assistant Director of Field Education, may give the first semester student a Conditional Incomplete. Students earning the grade of Conditional Incomplete due to non-academic issues will be required to develop a Performance Improvement Plan to address these areas. This plan should be developed in collaboration with the field instructor and the faculty liaison, and requires the approval of the Director of Field Education.

A student earning a Conditional Incomplete for the first semester of the field placement due to academic or non-academic issues may remain in the field placement for the second semester. Students with a Conditional Incomplete receive a letter from the Director of Field Education outlining the specific performance deficits and fulfillment dates that need to be improved during the next semester of field placement. Students receiving a Conditional Incomplete are automatically placed on probation.

If, at the end of the second semester of field, the student receives scores of three or above on all nine Competencies and/or the identified non-academic issues have been resolved, the student will receive a passing grade for both field semesters. If the student does not show significant
improvement in the identified areas by the specified dates, they may fail field for the entire year, which will result in dismissal from the program.

**Field Placement Terminated by the Field Agency**

If a student’s field placement is terminated by the agency or a worksite student is terminated from employment at the agency, the Director of Field Education reviews the circumstances of the termination based on information received from the agency field instructor, field liaison, and a meeting with the student. A determination is made by the Director of Field Education whether or not the student will be offered a new field placement or receive a failing grade for field. If it is determined that the student is unable to meet performance expectations in the field due to issues related to professional behavior, professional competence, ethical behavior, or conduct or is otherwise not suited for the profession, the student may immediately receive a failing grade and be dismissed from the program. A failing grade due to field placement termination will supersede any other mark, including a “W” for withdrawal. In certain circumstances, a student may be offered the opportunity to repeat his or her field experience after demonstrating understanding of the concerns that led to the termination, detailing the efforts made to address the concerns, and demonstrating evidence of improvement.

**Administrative Field Review**

If a student is at risk of failing field at any time during the field placement due to academic or non-academic issues, an Administrative Field Review may be required. The Director of Field Education and MSW Program Director will lead this review and invite appropriate administrators and/or faculty to participate. Administrative Field Reviews will take place in person or via video conference. After the review is completed, the Director of Field Education and MSW Program Director will make a decision regarding the student’s status in the field program.

**Appealing Field Grade**

The Widener Center for Social Work Education Appeals Policy applies to failures in the field placement.
All students are assigned a faculty mentor upon acceptance into the program. Students are encouraged to meet with their mentors periodically during the school year to discuss their progress in the program, as well as any other academic or professional issues of concern.

The Assistant Director of the MSW Program will act as your academic Advisor. The advisor is available to students for guidance in any area pertinent to the successful completion of the MSW program. In the academic area, the advisor may assist students in course planning and with assistance with special problems. Students should note, however, that in accordance with Widener University's policy, the student's academic status and progress toward their degree is ULTIMATELY THE RESPONSIBILITY OF THE STUDENT AND NOT THE ADVISOR.

Advising includes both the academic and professional areas. All students may discuss grades and progress toward their development of a social work identity. In addition, the advisement process provides information to students and addresses academic- or career-related problems as needed. If a student experiences emotional and/or personal difficulties that interfere with their professional functioning, the student may be encouraged to seek professional help. When a student's difficulties are severe enough to indicate that discontinuance in the social work program is advisable, the Assistant Director of the MSW Program and other pertinent faculty members may meet with them to offer support and recommendations. Procedures leading toward possible dismissal are outlined in the MSW Retention in the Program Policy described in the sections below.

All student files with information regarding students' progress toward their degree are kept in the social work office. Students may examine their file at any time.

Writing Policy

We view writing as a professional practice skill. All students are expected to write at a level commensurate with graduate school education and professional social work. In order to help students reach our professional standards, all students are required to satisfactorily complete SW507, the Personal and Professional Writing Module, offered by the Center, before advancing into their second semester of the program.

All formal papers are expected to comply with the current APA standards.

Students who do not receive a passing grade may appeal to the Assistant MSW Program Director or the MSW Program Director.

Students desiring to waive the writing course must meet one of the following three conditions:

1. Hold a previously earned Masters degree or a PhD,
2. Have published a single authored article in a professional journal, or
3. Pass a writing waiver exam administered by the Center. As with all waiver exams, there is a $200 fee attached to the exam.

Requests to waive SW507 must be directed to the admissions coordinator or the Assistant MSW program director before September 1st of the first semester a student is enrolled in the MSW
program.

The following lists writing and APA expectations of graduate students:

**Writing Skills:**

- Clear thesis statement; thesis addresses the assigned topic
- Contains clear and effective transitions between ideas
- Effective organization, structure, and coherence; ideas, concepts, and principles are presented in an engaging, thoughtful, and consistent fashion
- Multiple conclusions/implications follow from thesis and data; paper makes sense, order of ideas builds a relevant case
- Citations are well integrated to support the thesis
- Supporting evidence for all information is provided
- Direct quotations are kept to a minimum and where used, they are very well contextualized within the student’s own thinking
- Language is clear, with all technical terms defined or explained in the body of the work
- Few errors in grammar, spelling, and punctuation
- Few errors in sentence structure

**APA Style:**

- Few APA errors are seen with overall paper formatting (12 pt. Times New Roman font, 1” margins, page headers)
- All APA components present and correctly formatted (title page and reference page)
- Paper is written in a scholarly style
- Effective headings and subheading are included and formatted in APA style
- Sources are correctly cited in APA format in the in-text citations and on the References page

If at any point additional writing help is needed, Widener University has a Writing Center (610-499-4332) that offers services to all students. Students who live locally (regardless of online MSW vs. on-campus MSW status) may come in to the writing center for an appointment. Appointments may also be held via a phone conference. All students must call ahead to schedule a review. Upon calling, the student will be asked to e-mail their paper and will be given a scheduled time for a phone conference once the Writing Center instructor has had the opportunity to preview the paper. Students are eligible for up to one hour/week of consultation. For more information, please visit the Writing Center’s website: https://www.widener.edu/node/5386.

**Course Registration**

Graduate social work course schedules are distributed electronically for the fall and spring semester and summer sessions. These fully describe registration policies, course schedules and tuition and fee obligations. Registration takes place in April for the fall semester and in November for the
spring and summer semesters. All returning students must register on-line through My.Widener.

Once the student is registered, they will incur a financial obligation for tuition after the add/drop day has closed. The add/drop day is 8 calendar days after the start of the term. Students are able to view their registration and pay their tuition bill through their My.Widener account.

Students are required to enter their Program Plan in the Student Planning feature in My.Widener. If a student’s program plan is altered (due to course withdrawals, leaves of absence, etc.), the Assistant MSW Program Director will assist with redesigning their program plan. Students must stay on their program plan unless they receive permission for modifications to their program plan from the On-campus MSW Assistant Program Director or the On-campus MSW Program Director.

*Please keep in mind that it will be your responsibility to contact the On-campus MSW Assistant Program Director if you need to change your registration (drop a course, etc.).*

Be sure that you have submitted your Health Information forms to Student Health prior to registration. *Unresolved Health coverage problems will result in blocked access to registration.*
Course Loads and Leave of Absence

Full-time students take at least 12 credit hours per semester and part time students take at least six credit hours each semester (including summer semesters) to qualify for financial aid. Students who are unable for personal reasons to carry a minimum of six credit hours in a given semester may petition for a one-semester leave of absence. To do this a student must submit a detailed request and plan for return to the Assistant MSW Program Director. Students who take a leave of absence may be required to take the remaining courses on the current curriculum ladder. Students who have been absent from the program for five years or longer will have their application including prior courses taken in the program reviewed by the MSW committee.

Course Requirements

Successful completion of courses requires (1) satisfactory attendance, (2) meeting appropriate academic ethical standards, (3) satisfactory demonstration of required readings, (4) participation in class activities, and (5) a “B-” or better grade in the course. In addition, courses provide opportunities for students to enhance their academic writing and critical thinking skills and opportunities to demonstrate program objective attainment vis-à-vis the inclusion of Designated Assignments.

The majority of the courses are worth 3 credit hours each (SW 552/553 and SW 650/651 are each worth 4 credit hours. When defining a credit hour, the U.S. Department of Education states:

“A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than—

(1) One hour of classroom or direct faculty instruction and a minimum of two hours of out of class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time; or

(2) At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.” (http://www.gpo.gov/fdsys/pkg/FR-2010-10-29/pdf/2010-26531.pdf)

Thus, under U.S Department of Education guidelines, a 3-credit course must entail a total of 135 hours of coursework.

</tr>
</tbody>
</table>

Note: Individual instructors may elect, at their discretion, not to use plus/minus grades. However, we do not give the grade C+ in this program.

The grade of "I" or incomplete may be given when a student has not completed course requirements because of excusable reasons, at the discretion of the instructor in conjunction with the Assistant MSW Program Director. Students, who anticipate that they may not be able to complete course requirements must discuss the matter with the course instructor, complete the required form detailing the terms of the incomplete and setting a date by which the course must be completed (see Appendix O). A student who receives a grade of "I" must have a plan make up all deficiencies approved by the instructor issuing the grade. If the student fails to contact the instructor within that time-period to make the necessary arrangements, the instructor has the option of failing the student. The instructor may not approve dates exceeding one calendar year. If the work is not made up within one calendar year from the end of the semester in which the "incomplete" is received or by the date agreed upon in the written plan the grade will be automatically converted to "F". A student cannot be awarded a degree when there is an outstanding incomplete grade on the transcript, even if the incomplete is in a course not required in the degree program.

Note: Students may not enroll in SW506 or SW553 if they have an “I” in SW505 or SW552, or in SW630 if they have an incomplete in SW506 or SW553. Similarly students may not enroll in SW650/651 if they have an “I” in SW630 or SW650.

If, at the start of the new semester, there is an outstanding “I” in the above-mentioned courses, the pre-registration for the subsequent course will be deleted and the student will not be able to take the course.

When a student earns a “C” for the first time in the program, they are automatically placed on Academic Probation. This means that the student must retake the core curriculum course in which
they earned a “C” the next time that the course takes place. A course for which a student has received a grade of “C” can be repeated only once. Both grades are recorded on the transcript, but only the most recent grade is used in calculating the grade point average.

When a student earns a “C” for the second time in the program, they may be dismissed from the program. Per the below “Requirements for Graduation”, students may not graduate with a “C” in a Core Course on their transcript that they have not retaken and successfully passed with a B- or better. Students may not graduate with more than one “C” on their transcript that they have not retaken and successfully passed with a B- or better.

When a student is convicted under Widener’s academic fraud policies, that student is prohibited from exercising the repeat of course option to remove the “F” grade (given as a result of fraud) from the GPA calculation. Any grade of “F” may result in immediate dismissal from the MSW program.

Graduate social work students may withdraw from courses up to the last day of classes for the semester and receive a grade of "W". When a student withdraws from a course for any reason – including academic jeopardy – and chooses to retake the course and continue in the program, the student must have an interview with the program director or designee to ascertain whether the student and current circumstances lend to reactivation in the program. For any withdrawal, students must take the course the next time it is offered. If students unsuccessfully attempt the same course a second time, they may not proceed with any other coursework until they have successfully completed that course. After three unsuccessful attempts – whether withdrawals or non-passing grades – at the same course, students may be dismissed from the program.

If a student fails to meet the degree requirements within five years of matriculation into the program or if a failure, or repeated ‘C’ grades, has occurred, the Center may administratively withdraw the student from the program. Conduct that is inconsistent with the ethical and professional standards of social work, whether it occurs before or after matriculation, is also grounds for dismissal from the program (refer to section entitled Retention in the MSW Program for more details). Such conduct includes academic fraud and violating the Social Work Code of Ethics. A student dismissed for academic fraud may no longer enroll in the graduate programs of the University and may not apply for admission into another division of the University (refer to section entitled Standards for Academic Integrity in this handbook for more details).

**Transfer Credit**

Students, at the time of application for admission, may request transfer of a maximum of 27 semester hours of graduate credit from MSW programs accredited by CSWE. A maximum of 9 semester hours may be transferred for graduate courses completed in disciplines related to social work.

To be accepted for transfer credit: courses must be equivalent to the program’s required graduate social work courses and electives; must have been completed within six years from the date of matriculation; must have been taken subsequent to completion of the undergraduate degree; and must have a recorded grade of B or better. Academic credit for life experience and previous work
experience is not given.
Proficiency Examinations

Students who hold a bachelor's degree in social work may waive courses in human behavior and the social environment (SW501, SW502), and research (SW520) by passing a proficiency examination. Such waivers do not reduce the credit hour requirements for the degree, but enable students to take additional elective courses. Requests for proficiency examinations are made through the MSW Program Director. There is a $200 fee for proficiency examinations. Practice courses (SW503, SW505, SW506, SW552 and SW553) cannot be waived. Students who have failed a course cannot opt to test out of the course rather than repeat the course in order to get a passing grade for the course.

Requirements for Graduation

To be eligible for the Master of Social Work degree, students must have fulfilled within a four-year period, from the date of initial registration, the course requirements as prescribed by the curriculum. Regular admission students must have a minimum of 64 credit hours and advanced standing admission students must have a minimum of 41 credit hours. All students must have a cumulative GPA of at least 3.0 for all classroom courses and a P (Pass) for all field practica. Students may not graduate with a “C” in a Core Course on their transcript that they have not retaken and successfully passed with a B- or better. Students may not graduate with more than one “C” on their transcript that they have not retaken and successfully passed with a B- or better.

Intersectionality Credit

Each student will be required to attend two ½ credit events sponsored by the Center for Social Work Education here on campus. Evidence of attendance including a written summary of the event must be uploaded to the Graduation course prior to graduation.

Graduation Petitions and Awarding of Degree

A student who completes the requirements for the MSW degree at the conclusion of the spring semester will be awarded the degree in May of that year. For students seeking their degree in May, a graduation petition must be submitted by the student to the Center for Social Work Education by November 1st. A student who completes the requirements for the degree at the conclusion of the summer session will be awarded the degree in August of that year. For students seeking their degree in August, a graduation petition must be submitted by the student to the Center for Social Work Education by March 1st. A student who completes the degree requirements at the conclusion of the fall semester will be awarded the degree in December of that year. For students seeking their degree in December, a graduation petition must be submitted by the student to the Center for Social Work Education by July 1st. Are these dates correct – they are not the same dates as those in the

The University holds only one formal commencement – in May – to which graduates since the previous commencement and August graduates for that year are invited.
Center for Social Work Education Code of Professional Conduct

Once accepted in the MSW Program, the student must adhere to the Center for Social Work Education Code of Professional Conduct, The Widener University Code of Student Conduct, and the NASW Code of Ethics and refrain from any illegal activities. To promote a positive, collegial and professional atmosphere among students, faculty, and staff and, in the student’s field practicum, with colleagues, supervisors and clients, the MSW Program has developed the following Code of Professional Conduct.

Respect: The NASW Code of Ethics extends to the classrooms, hallways, and offices of the MSW Program and the University as well as in the field practicum environment. Students must treat other students, faculty, staff, clients, field instructors, and colleagues with respect and in a professional and courteous manner at all times, whether in person or in written communication including e-mail. This includes the use of electronic devices in the classroom. Talking on cellphones and texting in classrooms during class time is prohibited. Use of other devices including laptops is limited to note taking, and other functions in the service of the classroom activity, with the consent of the instructor. Students are expected to participate fully in the classroom discussion, even when using approved electronic devices.

Truth: Endeavor to cite only the truth and not knowingly misrepresent, mischaracterize, or misquote information received from others.

Responsibility: Take responsibility for one’s own actions instead of blaming others and be willing to engage in productive problem solving when conflicts, disagreements, or differences of perception arise. Students have the obligation to report any information they learn about violations of the law, the NASW Code of Ethics, the Center’s Program or University policies, particularly in cases of academic dishonesty or endangerment to the student or to others. This information must be reported to the Director of the MSW Program.

Professional Presentation of Self: Present oneself in a manner that is consistent with one’s professional role for the field placement and in any face-to-face and virtual face-to-face interactions with University administrators, faculty, staff, or peers. This includes self-presentation in attire, hygiene, and language. Avoid clothing that could be considered provocative or inappropriately casual.

Cooperation: Work together with other students, faculty, and staff and in the practicum environment in a spirit of cooperation toward common goals of seeking and providing a high standard of professionalism.

Confidentiality/Privacy: Strive to uphold the right to confidentiality and privacy by not talking about others. Any divulging of class information – including, but not limited to, screenshots of class discussion boards, text messages, recorded videoconferences with classmates, and peer assignments – and ridiculing/putting down classmates via social media will result in immediate dismissal from the program. Confidentiality and privacy apply to all course and fieldwork involving other individuals; uploading video/audio recordings involving any other individuals
Besides the student publicly (e.g. uploading a video to YouTube under a public setting) is considered a violation of confidentiality and privacy.

Nondiscrimination: Embrace the differences in people, their ideas and opinions and reject bigotry and oppression.

Advisor Confidentiality: Respect student privacy; however, mentors and the academic advisor have an obligation to report any information they learn about violations of the law, the NASW Code of Ethics, the Center’s Program or University policies, particularly in cases of academic dishonesty or endangerment to the student or to others. This information must be reported to the Director of the MSW Program.

Course Registration

The Registrar notifies all students regarding registration times and procedures on Campus Cruiser.

Course Policies

Standards for Academic Integrity
Students must adhere to the Widener University policy on Academic Integrity as written both in the current Widener Student Handbook. The standard clearly outlines the fact that cheating, plagiarism and all other forms of academic fraud are serious and unacceptable violations of University policy and gives the penalties for any such violations. Students are advised to utilize the current Publication Manual of the APA (6th Edition) as a resource for correct citation and paper formats. In addition, it is a violation of the standards of academic integrity to either use or submit the paper of another student in order to complete the writing assignment(s) in a course. It is the responsibility of the student to be familiar with the Standards for Academic Integrity as outlined both in the current Widener Student Handbook and the MSW Student Manual.

Submission of Assignments
All assignments must be uploaded in the appropriate submission page in a course site and some assignments may be posted on discussion forums for classmates’ review and comments. Before submitting anything, students should always check to make sure that they are in the right location. Assignments uploaded into an assignment submission page allow students and instructors to receive originality feedback from Turnitin.com.

Lateness of Assignments
Students are expected to turn all assignments in on time. Grades for assignments handed in late can be lowered at the discretion of the instructor. Also, the instructor reserves the right to refuse to accept any assignment that is late, which will result in a zero or failure for that assignment as well as lowering the student’s cumulative grade for the course. If a student gives their instructor 24 hours advance notice, the instructor may allow the student to turn in the paper late with an identified due date.
Revision Policy
Papers with a grade of “B-” or lower may be revised with the permission of the instructor. In this case, students will have the opportunity to revise their paper one time based on feedback. All revisions are due one week from when they receive the graded paper back from the instructor. The final grade for this revised paper cannot exceed a grade of “B”. Revised papers must have the revised and/or added material highlighted. If the revised material is not highlighted, the instructor will return the paper ungraded.

Incompletes
An incomplete is not a student’s right. Students must request an incomplete based upon significant reasons using the Incomplete Grade Completion Form. Please note that it is the instructor’s discretion to grant or refuse a request for an “incomplete.” The student and the instructor must arrange a realistic date for submission of outstanding work. If the student does not adhere to this mutually arranged due date, they will automatically receive an “F” for the course. Incompletes are pre-established arrangements between instructor, student, and registrar.

Professional Behavior
Social workers are continually aware of the profession's mission, values, ethical principles, and ethical standards and practice in a manner consistent with them. Social workers act honestly and responsibly and promote ethical practices on the part of the organizations with which they are affiliated. Respectful, responsible, and appropriate interactions online are expected at all times.

Netiquette Guidelines:
- Use first names or something like “to everyone” if you want to address your group or the whole class.
- Offer compliments, support, & assistance to each other.
- Courtesy is required. Refer issues to the professor rather than making negative remarks to the person.
- If unsure what someone means when they post, ask before reacting in a negative way.
- Use *italics* to emphasize a word. ALL CAPS is considered to be online “yelling.”
- Use of humor can be misunderstood as sarcasm or fact (facial expression is unavailable). You may use a symbol e.g. 😊 to emphasize emotion.
- Wait patiently for replies. Due to work and home responsibilities, it may take up to a day or more for some students to respond.
- Write in full sentences & remember that spelling counts (posting online is an assignment).
- Avoid abbreviations & texting shorthand (e.g. TTYL).
- Use APA formatted citations when quoting or paraphrasing someone else’s work.
- Expect & respect cultural diversity.

Instructor Availability
If you need help, ask!
- Questions, concerns, requests and/or problems can be emailed to your instructor through Canvas or Wumail.
- Your instructor will address your question as quickly as possible.

Learning Accommodations
In accordance with the Americans with Disabilities Act (ADA) and Section 504 of the
Rehabilitation Act, any student has the right to request reasonable accommodation of a disability. Accommodations can be requested through Academic Support Services, Disabilities Services Office (520 E. 14th St., 610-499-1266). Please note that you will need to present documentation of your disability to Disabilities Services. It is important to make this request as soon as possible so that there is time to make any necessary arrangements.

STANDARDS FOR ACADEMIC INTEGRITY

Academic Integrity Statement

Widener University strongly supports the concepts of academic freedom and academic integrity and expects students and all other members of the Widener University community to be honest in all academic endeavors. Cheating, plagiarism, and all other forms of academic fraud are serious and unacceptable violations of university policy. Widener University expects all students to be familiar with university policies on academic honesty and will not accept a claim of ignorance – either of the policy itself or of what constitutes academic fraud – as a valid defense against such a charge. *(This statement was adopted by the Faculty Council on February 24, 1998, upon recommendation of the Academic Affairs Committee.)*

Definition of Violations of the Standards for Academic Integrity

Violations of the Standards of Academic Integrity constitute academic fraud. Academic fraud consists of any actions that serve to undermine the integrity of the academic process, including:

1. Unauthorized inspection or duplication of test materials, cheating, attempting to cheat, or assisting others to cheat in a classroom test, take-home examination, final examination, or comprehensive/qualifying/candidacy examination;
2. Post-test alteration of examination responses;
3. Plagiarism; and
4. Electronic or computer fraud.

Additionally, each university program may have specific acts particular to a discipline that constitute academic fraud.

Definition of Plagiarism

One of the most common violations of the Standards for Academic Integrity is plagiarism. Plagiarism can be intentional or unintentional. However, since each student is responsible for knowing what constitutes plagiarism, unintentional plagiarism is as unacceptable as intentional plagiarism and commission of it will bring the same penalties. In many classes, faculty members will provide their definitions of plagiarism. In classes where a definition is not provided, students are invited to follow the standards articulated in the following statement.
Statement of Plagiarism: PLAGIARISM—passing off the work of others as your own – is a serious offense. In the academic world, plagiarism is theft. Information from sources – whether quoted, paraphrased, or summarized - must be given credit through specific in-text citations. All sources used in the preparation of an academic paper must also be listed with full bibliographic details at the end of the paper. It is especially important that paraphrase be both cited and put into your own words. Merely rearranging a sentence or changing a few words is not sufficient.

Procedures for Students Accused of Violating the Standards for Academic Integrity

Informal Process

1. A faculty member who obtains evidence of academic fraud should inform the student of this evidence, either orally or in writing. The faculty member may also provide the student with the opportunity to respond to the charges. If the matter is resolved informally between the faculty member and the student, the faculty member must communicate in writing to the dean of their school or college the nature of the charges made against the student and how the matter was resolved.

2. If the faculty member cannot resolve the matter satisfactorily with the student, they may file a formal complaint against the student through the office of the dean of the faculty member’s school or college.

Formal Process

1. Upon receiving formal charges of academic fraud, the office of the dean of the school or college shall thereupon notify the student in writing of the complaint, the evidence upon which the complaint is based, the penalty to be imposed, and all rights of appeal.

2. If a student wishes to contest the allegations of the complaint, they may do so according to the process stipulated in the by-laws of the school or college in which the alleged offense occurred. In such a case, the student will also be informed of the time and location of a hearing on the complaint and of all rights of appeal.

3. Upon determination by the school/college committee that hears the initial appeal that sufficient evidence exists to support the allegations contained in the complaint, or in cases in which the student chooses not to contest the complaint, the prescribed penalty shall be imposed.

4. The dean will notify the associate provost in writing of the name of the student who has been found to have engaged in academic fraud.

5. Appeals beyond an individual school/college body may be made by the student to the university’s Academic Review Board. Please see the following section for board duties. Appeal to the Academic Review Board must be initiated by the student through the Office of the Associate Provost.
6. In the event a complaint is filed against a student alleging academic fraud and the student is not enrolled in the course in which academic fraud is alleged, action will be taken by the dean’s office of the school/college where the student is matriculated.

7. An “F” for academic fraud will supersede any other mark including a “W” for withdrawal. When a student is found to have engaged in academic fraud under Widener’s academic fraud policies, that student is prohibited from exercising the repeat-of-course option to remove the “F” grade (given as a result of fraud) from the GPA calculation.

8. A confidential, centralized listing of students disciplined for academic fraud will be maintained by the Office of the Provost. In the event of the filing of a complaint alleging a second offense, the student will be informed, in writing, by the Office of the Provost of such complaint. Names will be dropped from the list of first offenders upon graduation or at the end of seven years after the last attendance.

9. The above-articulated steps constitute due process when students are accused of academic fraud.

Penalties

1. The minimum penalty for individuals found through the formal complaint process described above to have engaged in academic fraud will be failure in the course. For a second offense, the penalty will be failure in the course and expulsion from the university.

2. For attempting to steal or stealing an examination for a course, students will be failed in the course and expelled from the university. For attempting to steal or stealing a comprehensive/qualifying/candidacy examination in a program, students will be expelled from the university.

3. Programs that require comprehensive/qualifying/candidacy examinations may elect to impose the penalties of failure on the examination and expulsion from the university for individuals who cheat or attempt to cheat on the comprehensive/qualifying/candidacy examination.

4. Individuals found through the formal complaint process described above to have engaged in academic fraud in the completion of a dissertation or thesis may be expelled from the university.

(These policies and procedures were approved by Faculty Council on April 28, 2008.)

RETENTION IN THE MSW PROGRAM

Retention in the MSW program is dependent upon the student meeting the standards of the profession of Social Work, the Center for Social Work Education, and Widener University. Commitment and adherence to these standards apply to many aspects of the students’ academic and professional lives, and must be demonstrated through classroom work, field practica experiences, and professional interpersonal relationships, such as the ability to engage in clinical
social work practice. Failure to maintain these standards at any time during the student's involvement with the program may be grounds for dismissal.

More specifically, retention in the program, and graduation requires that students:

1. Adhere to the Professional standards as defined by the NASW Code of Ethics (Appendix B);
2. Adhere to the University Codes of Conduct (http://www.widener.edu/academics/handbooks/Student_Handbook14.pdf);
3. Have fulfilled within a five-year period, from the date of initial registration, the course requirements as prescribed by the curriculum. Regular admission students must have a minimum of 64 credit hours and advanced standing admission students must have a minimum of 41 credit hours. All students must have a cumulative GPA of at least 3.0 for all classroom courses, no more than one “C” on their transcript, a “P” (Pass) for all field practica, and no “I” (incomplete) on their transcript;
4. May not graduate with more than one “C” in a core course on their transcript that they have not retaken and successfully passed with a B- or better.
5. Be free of interpersonal difficulties which interfere with their ability to engage in clinical social work practice and professional and respectful behavior in the classroom (see section entitled “Non-Academic Grounds for Dismissal from the Program” below for more details); and
6. Meet the necessary requirements for the satisfactory field placement experience, as defined in the section of this handbook on Field Practica.

Student adherence to these areas will be monitored by the Assistant Director of the On Campus MSW Program, the Director of the On Campus MSW Program, Center Director, faculty, Director of Field Education, Assistant Director of Field Education; and field supervisors. Where difficulties are found, the Assistant Director of the Campus MSW Program, MSW Campus Program Director, and other relevant faculty will work with the student to find satisfactory solutions.

In most instances, except for violation of the University Code of Conduct and academic fraud, final decisions about student continuance in the program lies with the Center Director in conjunction and the MSW Program Director. Students may appeal these decisions through one of the formal grievance procedures outlined below.

**Procedures for Dismissal from the Program**

A student can be dismissed from the program for failing to meet academic performance requirements, for inappropriate or inadequate performance in the field, for violations of NASW code of ethics, for violations of the Student Code of Conduct, for academic fraud, or for documented interpersonal problems, such as personality difficulties that interfere with the student’s ability to engage in social work practice or required classroom activities.

**Withdrawal from the Program**

In lieu of dismissal, a student can withdraw from the program in good standing any time before
the end of the semester and the status of “Withdrawn” is placed on their transcript. If a student, placed on probation, chooses to withdraw, the status of “Withdrawn on Probation” is placed on the transcript. Similarly, if the student is dismissed from the Program, the transcript will state this status accordingly.

**Academic Probation Policy**

**Academic Probation and Dismissal**

A student is placed on academic probation if their grade point average (GPA) falls below 3.0 or when a grade of “C” is received in any course. A grade of “F” in any core course in the curriculum may result in automatic dismissal from the program. The Assistant Director of the Campus MSW Program will notify a student placed on probation in writing. Upon receipt of notification, the student must arrange to meet with the Assistant Director of the MSW Program to develop a documented plan aimed at resolving the student’s academic difficulties, including repetition of any core curriculum course for which a grade of “C” or below was received. A course for which a student has received a grade of “C” can be repeated only once. Students may not subsequently test out of courses in which they have received grades of “C” or “F”. If a student received a NP in SW552, SW553, SW 637/638, SW 650/651, or SW 652, this is a failure and may result in dismissal from the program.

To be removed from academic probation, a student must raise their grade point average to a minimum of 3.0 within one semester and receive a passing grade for the core curriculum course for which a “C” was earned. A student will be dismissed from the program if their semester GPA is still below 3.0 in any semester following probation or if the student receives a grade of C or lower in the repeated core course. Students must repeat any practice sequence course no later than the next semester that the course is offered. A decision regarding the disposition of probationary status will be deferred until the student has had the opportunity to retake the core curriculum course, provided that the student’s grade point average is 3.0 or above.

If a student receives a second grade of “C” or below and/or the student’s GPA falls below a 3.0 for a second time, the student may be dismissed from the program. **If a student earns an “F”, they are prohibited from exercising the repeat-of-course option and will be dismissed from the program.**

A student in their last semester in the program who receives a second “C” or a grade point average (GPA) below 3.0 may not be permitted to graduate. The student must repeat the core curriculum course for which they have earned a “C” and raise their average above a 3.0 in order to graduate from the program.

Applicants with undergraduate GPAs below 3.0 may be admitted to the program. If an applicant is admitted whose undergraduate GPA was below 3.0, the applicant will be informed at the time of admission that they must achieve a minimum 3.0 GPA at the end of the first semester of enrollment in order to continue in the MSW program. If a 3.0 GPA is not achieved at the end of the first semester of enrollment in the MSW program, the student may be dismissed for failure to meet academic requirements.
A student must complete SW 505, earning a grade of “B-” or better before being permitted to enroll in SW 506. A student must earn a grade of “B-” or better in SW 506 in order to proceed to SW 630. Similarly, a student must complete SW 630, earning a grade of “B-” or better before being permitted to enroll in SW 639. A student who receives a grade lower than a “B-” in SW 505, SW 506, SW 535, SW 630, or SW 639 must repeat the class successfully (earning a grade of “B-” or better) along with the required concurrent field practicum. To proceed in the program, students must receive a “Pass” in all fieldwork.

Students may appeal course grades of “C” or “F” or NP (see “MSW Student Grievance Procedures”). Students who have been dismissed from the program and who are appealing the dismissal may not return to class pending the appeal. They can only be reinstated in the program when and if the appeal is found in their favor.

A student dismissed from the program due to academic failure or for non-academic reasons, seeking readmission, must reapply to the Center for Social Work Education. The application must indicate that the applicant has addressed all of the conditions leading to their dismissal.
Field Instruction Probation and Termination Policy

Under certain circumstances where a student was not able to demonstrate competency in some areas, the field liaison in conjunction with the Director of Field Education can give the student a Conditional Incomplete, which would place them automatically on probation. Students placed on field probation receive the form for Incompletes signed by the Director of Field Education or outlining the specific performance deficits and the specific field competencies and fulfillment dates that need to be improved during the next semester of field instruction placement.

If the student does not show improvement in the identified areas by the specified dates, they may fail field placement for the entire year which will result in dismissal from the program. The student must submit relevant documentation of their resolution of the identified problems. The Director of Field Education assesses the student’s readiness for fieldwork for final disposition. The student can only enter the field practicum and co-requisite practice course in the fall semester.

If a student wishes to appeal a decision of probation by the Director of Field Education, the student may appeal, in the following order, to the Academic Affairs Committee, the Director of the Center, and the Dean of the College of Human Service Professions.

Violations of Professional Codes of Conduct

Upon receipt of an allegation of a violation of the NASW Code of Ethics or the Student Code of Conduct, the Assistant Director of the on campus MSW Program or an authorized representative will make a preliminary investigation of the complaint. If sufficient cause is found to further investigate the allegation, the on campus MSW Program Director will conduct a full investigation of the complaint. If the allegation pertains to student actions while in their field placement, field seminar, or other field-related area, the preliminary investigation will involve the Director of Field Education.

Upon completion of this investigation, the on campus MSW Program Director – and Director of Field Education if the allegation occurred in a field-related context – will decide whether to dismiss the charges, or to uphold the complaint and determine the appropriate sanction. Such sanctions may include, but are not limited to, verbal warnings, written warnings to be placed in the student's file and removed upon graduation, behavioral probation, dismissal from the program, or referral to the campus judicial system. A student may appeal this decision to the Academic Affairs Committee chair within 48 hours.

Non Academic Grounds for Termination and Dismissal from the Program

Dismissal for Non-Academic Reasons

A student can be dismissed from the program for inappropriate or inadequate performance in the field, for violations of professional standards of behavior, for violations of the Student Code of Conduct, for academic fraud, or for documented interpersonal problems such as interpersonal
difficulties that interfere with the student’s capacity to engage in professional social work practice or required educational activities. A single incidence of unprofessional behavior or a pattern of impaired relationships may serve as grounds for dismissal from the program. A pattern of impaired relationships may include difficulty in relating to others in the program (i.e., peers, faculty, staff, field instructors, and/or clients), inability to establish trusting relationships, lack of respect for others, inability to recognize the needs of others in interactions, or inability to accept critical feedback. These issues may undermine the student’s capacity for social work practice and may place clients at risk. A single incident of unprofessional behavior that might result in immediate dismissal includes threatening behavior towards any other person, or disrupting the classroom, other areas of the University, or field agency. The MSW Program Director, in conjunction with the Director of Field Education if the incident/behavior occurred in a field-related context - will review the status of any student in jeopardy of dismissal for non-academic reasons.

If a student demonstrates interpersonal problems that affect their ability to engage with faculty, staff, peers, clients, and other professional colleagues, the person expressing concern must communicate their concern to the Assistant MSW Program Director in writing. A student who has a concern about another student may also bring that concern to the Assistant Director of the MSW Program. The Assistant MSW Program Director then gathers information. When a concern is substantiated, the Assistant MSW Program Director will notify the student in writing of the interpersonal problems that have been identified and give the student the opportunity to discuss the issues, and to supply a written response regarding the concerns. In addition, a substantiated concern may result in being placed on probation. In the event that the concern is deemed to be a serious violation of the Code of Ethics and/or Student Code of Conduct, the student may be dismissed from the program.

Depending on the severity of the behaviors, the student may have an opportunity to correct the described interpersonal problems. This opportunity should be developed through discussions with the member(s) of the faculty expressing concerns, the student, and the Assistant MSW Program Director or Director of Field Education if the concern is in a field-related context. Any subsequent or additional concerns will be documented in the same manner. Similarly, any meetings with the student in order to attempt resolution of recorded concerns must also be summarized in writing, with copies provided both to the student and the Assistant MSW Program Director as well as the Director of Field Education if the concern is in a field-related context.

The Assistant MSW Program Director will notify the student’s advisor of record that such an action has been taken. The Assistant MSW Program Director will retain the copy of the findings in a separate, secure file. The Assistant MSW Program Director will destroy the file upon the student’s successful completion of the program.

In the event of a second behavioral concern incident occurring with the same student who was not placed on probation after the first concerning event, the student will now be placed on probation, if the second concern is found to be substantiated; in the event that the concern is deemed to be a serious violation of the Code of Ethics and/or Student Code of Conduct, the student may be dismissed from the program.
In the event of a second behavioral concern incident occurring with the same student who was placed on probation after the first concerning event, the student may now be dismissed from the program, if the second concern is found to be substantiated.

**Program Status Review**

The Assistant Director of the Campus MSW Program, and Associate Director of Field Education will review the status of each student at the end of the semester. Students who fail to complete their courses satisfactorily or who show evidence of non-academic issues may be put on probation or dismissed from the program in accordance with the above stated policies for continuation in the program. Students may appeal the decision of the Assistant Director of the On campus MSW Program, Assistant Director of the MSW Program, asking for a review by the On campus MSW Program Director or Director of Field Education if the decision pertains to a non-passing grade in SW 552, SW 553, SW 650, or SW 651. Students must submit a statement with their appeal specifying why the appeal is warranted.

Upon receiving a request to review a student’s status from the Assistant Director of the On campus MSW Program, the On campus MSW Program Director will review the student’s record and the accumulated documentation, inviting discussion from the faculty and responses from the student, as deemed necessary. After the review is completed, the On campus MSW Program Director will make a decision regarding the student’s status in the program. If remediation is deemed necessary, any required remediation steps must be completed satisfactorily in order to progress in the program. The On campus MSW Program Director has the authority to dismiss the student. The final decision is communicated verbally and in writing to the student. If the student received a non-passing grade in SW 552, SW 553, SW 650, or SW 651, the above review and decision process is conducted by the MSW Program Director and Director of Field Education. A student may appeal the decision of the On campus MSW Program Director or Director of Field Education to the Academic Affairs Committee (see “Grievances about Non-Academic Issues” below).

**The Academic Affairs Committee**

The Academic Affairs Committee will be concerned with student appeals of On-Campus MSW Program Director decisions.

**Academic Affairs Procedures and Processes**

*Initiating an Appeal to Academic Affairs*

A student appealing the decision of the MSW Program Director must request an Academic Affairs review in writing to the Academic Affairs Committee chair. In their request, the student must submit a written statement specifying why an Academic Affairs review is warranted.

From the date that the Academic Affairs Committee chair receives the written complaint, they have no more than 5 working days[1] to schedule a review meeting, either in-person or via technology, inviting – in writing – the student, the Student Advocate, and Committee members. This documentation should include a referral to this policy manual for further information and
relevant policies and procedures as well as contact information should the student wish to contact the Student Advocate.

If the Academic Affairs Committee chair initiates a complaint against a student or there is another conflict of interest, another faculty member on the committee will be designated as chair of the committee.

**Documentation**

- At the time of the notification of the meeting, both the student and the Student Advocate should receive the same supporting documentation or case material received by the Committee.
- If any form of plagiarism has occurred, documents are not confidential as per University policy. An instructor is permitted to handle such situations individually, but must still document the incident and any actions taken or adjustments made, providing documentation and written notification to both the student and the Assistant Director of the MSW Program.
- One complete copy of the complaint and all supporting documents will be forwarded, along with the Committee’s recommendation, to the Center Director.
- All other copies will be destroyed.
- The Center Director will keep a confidential copy as well as copies of the minutes.

**Role of the Student Advocate**

Students are advised that they may contact the Student Advocate to discuss their appeal. It is the student’s responsibility to initiate contact with the Student Advocate.

The role of the Student Advocate is to:

- Make sure that the student understands the complaint;
- Make sure that the student understands the Committee’s policies and procedures and knows what procedures will be followed in the review meeting;
- Discuss possible outcomes of the case;
- When appropriate, provide referrals for student emotional support (Widener University Counseling Center or community resources); and
- Answer any student questions and provide general guidance on conduct.

While the Student advocate may accompany the student to the Academic Affairs Committee meeting, they will not speak on the behalf of the student during the meeting.

For matters outside of the Center for Social Work Education, but within the University, such as ethical violations, the Student Advocate can serve to provide the student with guidance about various courses of action.

**Student Privacy and Confidentiality**
All procedures relating to the performance review shall be carried out in a manner that will protect the student’s right to privacy consistent with University policy. Members of the committee and all other persons who appear at the review meeting are expected to observe the confidential nature of the information made available to them as well as any discussion held during the meeting. Actions and recommendations of the committee are to be confidential and shared only with those persons involved with the student in an educational capacity or University personnel on a need-to-know basis.

The committee operates under the professional concept of a “circle of confidentiality,” which means that departmental personnel and field instructors have a right and an obligation to exchange information on students as this impacts the operation of any part of the program, the integrity of the program in meeting its goals and objectives, the performance status of a student in the program, and the safety and well-being of any Widener University personnel, other students, or field agency personnel.

**Academic Affairs Meeting Procedures**

As per the above, the Academic Affairs meeting called by the chair should occur within the above noted timeline. Attendance at the review meeting will be governed as follows:

1. The student whose appeal will be reviewed is expected to attend the appeal review meeting either in person or via technology. However, if the student has been contacted but refuses to attend, the student’s appeal will be forfeited. At least 48 hours prior to the meeting date, the student is responsible for contacting the chair to confirm their intent to attend the meeting in writing. The student, the Student Advocate, and other student-invited individuals attend only the section of the meeting highlighted below as “Student Presentation and Response to Documentation.”

2. The student may invite another student, faculty member, or staff person from within the institution to attend the Academic Affairs Committee meeting, excluding legal counsel; it is the student’s responsibility to notify the chair of the committee ahead of time regarding who is being invited to attend.

3. Either the student or the committee chair, for information purposes, may also invite other persons who have significant knowledge of the problem or of the student’s academic performance. The chair may invite additional administrative personnel from within the institution, as appropriate.

4. The chair has the authority to limit the number of people who will be attending the review. The chair will also set the schedule for their participation.

In all cases, the Center’s Academic Affairs Committee shall follow procedures to ensure student due process, which requires the following:

- The student shall be advised of the time and place of the hearing;
- The student shall be advised of the breach of regulations of which they are charged;
The student shall be advised of the following rights:
- The right to present their case;
- The right to be accompanied by the MSW Student Advocate; and
- The right to invite another student, faculty member, or staff person from within the institution to attend the meeting;

The student shall be advised of the method of appeal;

The student shall be advised of supportive resources as appropriate (e.g. the Widener Counseling Center or community resources).

Academic Affairs Meeting Agenda

1. Presentation of the Case
   a. Presentation of facts leading to the decision (MSW Program Director or Director of Field Education)
   b. Presentation of additional facts or clarification of facts related to investigation (Complainant, others)
   c. Summation of Facts (Chair)

2. Student Presentation and Response to Documentation
   a. Student, Student Advocate, and other invited individuals are present

3. Deliberation
   a. Only those committee members who are present at the appeal review meeting may vote on committee recommendations or actions.
   b. Only the committee members, as well as additional administrative resources from within the institution, shall be present for part of the meeting.

4. Recommendations
   a. Recommendations of or actions taken by the committee shall be forwarded in writing to the Center Director within 2 working days following the meeting of the committee. See “Possible Outcomes of Appeal Review,” below, for illustrative recommendations. The Center Director reviews the committee’s recommendations and attached materials and renders a disposition in writing to the student within 10 working days.

5. Documentation
   a. The chair will collect all copies of all materials prepared for the committee in advance of the meeting and generated by the committee during the meeting and shred them. One set of the materials and corresponding disposition letters from the committee and the Center Director will keep the materials in a confidential file.

6. Student Response
   a. The student may put in writing their opinions about or reactions to the review process and/or the committee’s recommendations/actions. This written response should be sent to the chair of the committee, who will place a copy in the confidential file.
Possible Outcomes of Appeal Review

The following are some possible outcomes of a appeal review, applied as appropriate to the severity of the offense. This list is to be seen as *illustrative* rather than exhaustive.

- A written document from the student regarding their understanding of the nature of the complaint against them and their own plans for addressing the issues that led to the complaint;
- Mandatory participation in, and satisfactory completion of, an alcohol or drug rehabilitation program;
- A written performance plan;
- Extra coursework or educational experiences;
- A departmental probationary period during which specified criteria must be met;
- Referral to a Widener’s Judicial Affairs Office; or
- Suspension or dismissal from the program (including field).

MSW Student Grievance Procedures

Students have the right to file grievances and appeal decisions made affecting them about grades, faculty behavior, allegations of student violations of conduct, academic fraud, and Center for Social Work Education allegations of ethics violations or interpersonal problems. When violations of the University Code of Conduct are in question, the Campus Judicial System is utilized.

Grievances about Academic Issues

All student grievances about grades are channeled first through the instructor of the class with the grade in dispute. If no resolution is made, the student may appeal to (in the following order) the Assistant Director of the MSW Program, then the MSW Program Director, and then the Academic Affairs Committee, Center Director and the Dean of the College of Human Service Professions. Only grades of a “C” or lower, may be appealed above the level of the MSW Program Director. In cases where the appeal is based on an alleged violation of procedure in school/college academic review procedures, the student may appeal to the University Academic Review Board, which consists of the Provost, the deans of each school/college, the Vice Chair of the Faculty Council, and the Chair of the Academic Affairs Committee. Refer to the (Widener University) *Graduate Student Handbook* for information regarding appeals procedures for allegations of academic fraud.

Students must initiate their appeal to the Assistant Director of the MSW Campus program within two weeks of posting final grades in order for the student to be able to pursue appeal. If the student does not contest the grade in writing to the instructor within the specified time, a subsequent appeal will not be considered.

Appeals to all levels must be made in writing and include a detailed letter describing (a) the grounds for their appeal, and, when appropriate, (b) their plan for improving their program status. Review of the appeal will be made in a timely fashion, and both the student and the faculty
member (as needed) will be provided with the opportunity to state their case in person. The student and the faculty member will be notified, in writing, of the review decision.

**Grievances about Field Issues**

All student grievances about field issues are channeled first through the field instructor who communicates those concerns as soon as possible with the field liaison. If no resolution is made, the student may request a meeting with the field instructor, the field liaison, and the Director of Field Education to attempt to find a resolution. If the results of this meeting are not satisfactory to the student, they may appeal to (in the following order) the Academic Affairs Committee of the Center, Center Director, and MSW Program Director of Center for Social Work Education, and the Dean of the College of Human Service Professions. Appeals to all levels should be made in writing. Review of the appeal will be made in a timely fashion, and both the student and the faculty member will be provided with the opportunity to state their case in person. The student and the faculty member will be notified, in writing, of the review decision.

**Grievances about Non-Academic Issues**

In cases of decisions about ethical or non-academic misconduct outside of field-related contexts a system of investigation, resolution, and appeal has been established both by the Widener University Center for Social Work Education and the University. When a decision has been made, the student may appeal to (in the following order) the Assistant MSW Program Director, the MSW Program Director; the Academic Affairs Committee, Center Director, the Associate Dean and the Dean of the School of Human Service Professions. Appeals to all levels should be made in writing.

**STUDENT ORGANIZATIONS**

**MSW Student Organization**

The students and faculty of the Center for Social Work Education created the MSW Student Organization in 1991 to assist students in their academic, professional, and social life, and to provide students with a formal mechanism to channel information back and forth between students and the program. All matriculated MSW students are members of the organization. The Center supports this organization through the provision of an annual budget. A **social work full time faculty member**, designated as the MSW Student Organization Advisor, and serves as liaison between the administration, faculty, and the MSW Student Organization.

A Board of Student Representatives governs the organization. They meet frequently to work on various projects, as well as with the membership of the organization, from whom they receive guidance and suggestions. This group appoints members to act as liaisons to standing committees for the Center for Social Work Education as designated by the bylaws of the Center.

**Student Committee Participation**
In addition to the MSW student organization, students also serve on many of the standing committees of the Center. These include Academic Affairs (students, who have completed their first year in good standing are eligible for this committee), Continuing Education, and Diversity. A student representative is also a member of the Center Advisory Board. The MSW Student Organization selects student members of these committees and the Advisory Board. Students are afforded the same voting/input rights on these committees as the faculty.

**National Association of Black Social Workers – Widener Student Chapter**

The National Association of Black Social Workers was formed in May 1968 in San Francisco, California. It was created by a coalition of African American social work groups and practitioners, united to combat individual and institutional racism in the American social welfare system. The NABSW Student Chapter of the Center for Social Work Education was chartered in March 1998 with the help of the Philadelphia Chapter Alliance of Black Social workers and seventeen graduate and undergraduate students. The organization follows the by-laws and dues structure of the national office in Washington, D.C. and provides students of African descent a supportive environment and an opportunity for service, as well as professional and cultural development.

**GRADUATE STUDENT AWARDS**

Each year during the Social Work Graduation Banquet, the following three awards are presented to graduating students who have applied for and been chosen by faculty to receive these awards.

**Hobart C. Jackson Jr. Award**
This award is given to the student who exemplifies excellence in clinical social work practice with ethnic minority senior populations.

**Carolyn Walter Award for Outstanding Clinical Social Work Practice**
This award is given to the student who exemplifies excellence in direct clinical social work practice.

**Dr. Norma D. Thomas Commencement Awards**
This award is given to a graduate student of African descent who has demonstrated outstanding levels of service to the community and a commitment to practice in the field of gerontology.
FULL TIME FACULTY

Lisa Allen, MSW, LSW
Assistant Director of Field Education
MSW Temple Univ.
(generalist practice, child welfare, sex offender evaluation and treatment, MSW field education)

Marina Barnett, MSW, DSW
Associate Professor
MSW Univ. of Michigan; DSW Univ. of Pennsylvania
(policy, community organization, parenting, multiculturalism)

Beth Barol, MSS, PhD, LSW
Associate Professor
MSS, PhD Bryn Mawr College
(clinical practice, trauma, group dynamics and leadership, human behavior in the social environment, intellectual and developmental disabilities)

Linda Benavides, MSW, PhD
Assistant Professor
MSW Univ. of Texas – Austin; PhD Univ. of Texas – Arlington
(interpersonal processes, human behavior and the social environment, generalist practice, spirituality)

Michelle Brandt, MSW, LSW
Associate Director of Field Education
MSW Marywood Univ.
(generalist practice, medical social work, palliative and end of life care)

Margo Campbell, MSS, MLSP, PhD
Director of BSW Program and Assistant Professor
MSS, MLSP, PhD Bryn Mawr College
(effects of economic insecurity on families and children; social and economic justice; social change)

Richard Cooper, MSW, PhD, LSW, ALSW
Clinical Assistant Professor
MSW Howard Univ.; PhD Temple Univ.
(diversity, clinical practice, AHBSE)

Jennifer Cullen, MSW, PhD
Director of On-Campus MSW Program and Associate Professor
MSW Univ. of Pennsylvania; PhD. Widener Univ.
(interpersonal process, human behavior and the social environment, generalist practice, intellectual & developmental disabilities)

Patricia Fletcher, MSW, PhD, LCSW
Director of Field Education and Associate Professor
MSW, Ph. D. Widener Univ.
Virginia Focht-New, MSN, PhD
Clinical Associate Professor
MSN Univ. of Pennsylvania; PhD Widener Univ.
(human behavior, research methods, intellectual and developmental disabilities, trauma)

Kimberly Giamportone, MSW, LSW
Assistant Director of Field Education
MSW Marywood Univ.
(generalist practice, medical social work, palliative and end of life care)

Robin S. Goldberg-Glen, AM, PhD
Associate Professor
AM, PhD Univ. of Chicago
(gerontology, research methods, international social work)

Linda Houser, MSW, PhD
Director of PhD Program and Associate Professor
MSW Temple Univ.; PhD Bryn Mawr College
(policy, research, women’s issues)

Celeste Johnson, MSS, PhD, LCSW, BCD
Associate Professor
MSS, PhD Bryn Mawr College
(social work practice, human behavior)

Stephen Kauffman, MSW, PhD
Associate Professor
MSW Washington Univ.; PhD Bryn Mawr College
(social policy, community organization, environmental policy)

Matthew Myrick, MSW, LSW
Clinical Assistant Professor
MSW Temple Univ.
(older adults, medical social work)

Jenifer Norton, MSW
Director of Online MSW Program
MSW Widener Univ.
(policy, research, welfare, social work education)

Tina Radin, MSW, LSW
Assistant Director of Field Education
MSW Temple Univ.
/community organizing, health disparities, HIV and AIDS, trauma

Regina Rothe, MSW, LCSW
Assistant Director of Field Education
MSW Univ. of Pennsylvania
(generalist practice, psychiatric social work, community mental health, trauma)
Brent A. Satterly, MSS, PhD, LCSW
Associate Professor
MSS Bryn Mawr College; PhD Univ. of Pennsylvania
(HBSE, Human Sexuality, practice)

Jolynne Shannon, MSW, LCSW
Assistant Director of Online MSW Program
MSW Widener Univ.
(clinical practice, intellectual and developmental disabilities, Deaf culture, HBSE, trauma)

Paula Silver, MSW, PhD
Professor Emeritus
MSW Univ. of Pennsylvania; PhD Bryn Mawr College

Eric Stein, MSW, DSW, LSW
Assistant Director of On-Campus MSW Program and Assistant Professor
MSW Univ. of Pennsylvania; DSW Univ. of Pennsylvania
(organizational context issues, trauma, field supervision, issues of deviance and stigma in mental health)

Rebecca Vlam, MSS, LCSW
Clinical Assistant Professor
MSS Bryn Mawr College
(integrated care, behavioral health consultation, DBT, clinical supervision)

Shanna M. Williams, MSW, MEd, LCSW
Director of Social Work Counseling Services and Clinical Assistant Professor
MSW, MEd Widener Univ.
(generalist practice, clinical supervision)

Jeannette Wyatt, MSS, PhD, LCSW
Associate Professor
MSS, PhD Bryn Mawr College
(mental health, clinical practice, children and adolescents, HBSE)
APPENDIX A – Affiliation Agreement

AFFILIATION AGREEMENT WIDENER UNIVERSITY CENTER FOR SOCIAL WORK EDUCATION

THIS AGREEMENT is made and entered into on ______ by and between __________________ (“Facility/Agency”) and WIDENER UNIVERSITY CENTER FOR SOCIAL WORK EDUCATION (“School”) concerning social work field training for students from Widener University Center for Social Work Education.

WHEREAS, both parties desire to maintain and improve their existing standards of social services and education by entering into this Agreement; and

WHEREAS, both parties desire to establish and maintain a working relationship in order to assure maximum utilization of social work services and facilities; and

WHEREAS, it is to the mutual interest of and to the mutual advantage of the parties to this Agreement that the field education students of School involved be given the opportunity and benefit of the use of existing facilities maintained by Facility/Agency; and

WHEREAS, both parties are mutually desirous of cooperating in the organization and implementation of a social work field education program in the manner set forth in this Agreement.

NOW THEREFORE, in consideration of the mutual covenants contained herein and intending to be legally bound hereby, it is agreed by both parties as follows:

1. RESPONSIBILITIES OF SCHOOL

1.1 School shall retain general responsibility and discretion for content and methods of instruction, supervision, control, evaluation and related matters concerning the structure of the social work field education program and student admission to, dismissal from and participation in and faculty appointments to the social work field education program. School shall be responsible for advising Facility/Agency regarding appropriate student assignments, especially as related to any known student special needs. All students shall be identified as Widener University - Center for Social Work field education students while at Facility/Agency. The activities of the students while participating in the education program at Facility/Agency shall be the following: learning experiences deemed appropriate for the educational level of the Undergraduate and Graduate students as mutually agreed upon by representatives of the Facility/Agency and School.

1.2 School agrees to provide the services of a coordinator of social work education (Director/Assistant Director of Field Education) as liaison between School and Facility/Agency. The Director/Assistant Director of Field Education shall establish the social work education objectives for the affiliation and the methods for their implementation and for the evaluation of their effectiveness. The Director/Assistant Director of Field Education will provide Facility/Agency with necessary information, including that regarding appropriate student assignments, prior to the student's arrival at Facility/Agency and will plan appropriate visits and consultation conferences in person, by phone or via virtual technology. The Director/Assistant Director of Field Education will supply all forms necessary for Facility/Agency to evaluate students in a timely and proper fashion, if Facility/Agency is so required. School will provide field instructors with field education policy and field calendar.
1.3 School will send to Facility/Agency only those students who possess a satisfactory record, have met the minimum requirements established by School for the clinical education program and who have been educated in the performance of the skills necessary to participate in the social work field education program.

1.4 School shall assure that students meet the relevant governmental regulations that apply to the Facility/Agency.

1.5 School agrees to offer the staff of Facility/Agency the opportunity to attend workshops and special social work education programs as the School shall from time to time conduct on campus and/or via web-based trainings.

1.6 All applicable policies, procedures, rules and regulations of Facility/Agency shall apply to students and faculty of School during their participation in the social work field education program. School shall be responsible for advising its students and faculty of this requirement, including the responsibility to maintain the confidentiality of all Facility/Agency and Client/Patient records. However, Facility/Agency agrees to allow students to use case material within the bounds of confidentiality to complete course assignments.

1.7 School agrees to assure that students carry and maintain malpractice liability insurance coverage in the amount of $1,000,000 per occurrence and $3,000,000 in the aggregate while such students are acting within the scope of the students' educational objectives at the Facility/Agency. School shall also maintain for School general and professional liability insurance in adequate amounts. School will provide a copy of its certificate of insurance coverage to Facility/Agency if requested.

1.8 School agrees to indemnify and hold harmless Facility/Agency, its directors, officers, agents and employees, from and against any and all claims, allegations of malpractice, demands, actions, settlements or judgments, liabilities, losses, damages, suits, costs and expenses whatsoever, including without limitation any and all expenses whatsoever reasonably incurred in connection with investigating, preparing for, or defending against any litigation, commenced or threatened, or any claim whatsoever, based upon or arising out of activities described in this Agreement, to the extent occasioned by the negligence, actions or omissions of School, its agents, employees or students or in connection with any acts or failure to act by School, its agents, employees or students.

1.9 School agrees that at Facility/Agency’s request School shall withdraw a student or faculty member from Facility/Agency if Facility/Agency notifies School that such student or faculty member does not abide by the rules, regulations, policies and procedures of Facility/Agency, threatens Client/Patient well-being or Facility/Agency operations, or is otherwise detrimental to the social work field education program operations as documented by Facility/Agency. Such student or faculty member may not return to Facility/Agency unless both School and Facility/Agency agree to such return in writing.

1.10 School shall be responsible for initiating periodic reviews with the Field Instructor to review student progress and the social work field education program in general.

1.11 The Director/Assistant Director of Field Education, in conjunction with the Facility/Agency staff and the student, will assume responsibility for the selection and planning of the student’s learning experiences. Supervision and evaluation of student performance will be shared by the representatives of the Facility/Agency and School. Faculty shall visit the field education site to the extent necessary to provide sound direction for students and collaboration with the Field Instructor. Such visits will be conducted using virtual technology as appropriate.
2. RESPONSIBILITIES OF FACILITY/AGENCY

2.1 Facility/Agency agrees to designate a staff member acceptable to School as coordinator of social work field education (the "Facility/Agency Coordinator") who will be responsible for working with School and its faculty to coordinate and direct the field education program and the students' field experience. The Facility/Agency Coordinator shall work with Director/Assistant Director of Field Education to insure an approved educational program. The format of the field education program, including program objectives, the methods for objective implementation, the evaluation of objective effectiveness, student assignments, and schedules, shall be subject to the approval of the Facility/Agency Coordinator.

2.2 Facility/Agency shall provide supervision of a qualified Field Instructor to students while such students are participating in the field education portion of the Undergraduate and/or Graduate programs. For Undergraduate students, the field instructor shall hold the BSW or MSW degree and for Graduate students the field instructor shall hold the MSW degree. Field instructors will have a minimum of two years post graduate practice experience, and shall be afforded time to supervise, meet with representatives of the School, and participate in supervisory seminars. The Field Instructor will provide a minimum of 60 minutes individual weekly supervision for Undergraduate students and Graduate students and will use at least one process recording/tape recording weekly as a tool to focus the supervisory meeting.

2.3 Facility/Agency shall maintain a sufficient level of staff support so that an assigned student will not be expected to perform in lieu of staff.

2.4 Facility/Agency will provide a field placement for student(s) for the entire placement experience (two semesters or three semesters for Specialization Year extended field students) barring unforeseen circumstances.

2.5 Facility/Agency shall provide to the student copies of all applicable rules, regulations, policies and procedures of the Facility/Agency including all updates of such material. The Facility/Agency shall be responsible for providing assigned interns with training regarding workplace safety appropriate to the Facility/training.

2.6 Facility/Agency shall permit students or faculty of School to participate in Facility/Agency's educational programs, including those involving Client/Patient care, at the discretion of the Facility/Agency Coordinator when such participation will not interfere with Client/Patient care or Facility/Agency operations.

2.7 Facility/Agency will provide sufficient desk space, phone service, offices supplies and clerical support necessary for the performance of students' responsibilities. Facility/Agency shall provide space or technology to accommodate meetings between faculty and students or Facility/Agency personnel as reasonably available.

2.8 When necessary and upon request of School, Facility/Agency will provide information and/or reports, on forms supplied by School, which may be needed by School for evaluation or for compliance with accreditation standards.

2.9 Facility/Agency will allow students access to the Facility/Agency's library during normal hours of operation.
2.10. Facility/Agency will allow student use of Facility/Agency's dining facilities; however, students are responsible for the provision of and/or payment for their own meals.

2.11 Facility/Agency shall extend to student whatever parking privileges are available to staff in general.

2.12 Facility/Agency agrees to indemnify and hold harmless School, its directors, officers, agents and employees, from and against any and all claims, allegations of malpractice, demands, actions, settlements or judgments, liabilities, losses, damages, suits, costs and expenses whatsoever, including without limitation any and all expenses whatsoever reasonably incurred in connection with investigating, preparing or defending against any litigation, commenced or threatened, or any claim whatsoever, based upon or arising out of activities described in this Agreement, to the extent occasioned by the negligence, actions or omissions of Facility/Agency, its agents, or employees, or in connection with any acts or failure to act by Facility/Agency, its agents or employees.

2.13 Facility/Agency will maintain responsibility for the services to all Client/Patients and/or their families at all times irrespective of student assignment and/or participation.

2.14 Facility/Agency will provide observational and participatory experience in the designated clinical/administrative areas necessary to satisfy the School's course requirements.

2.15 Facility/Agency will provide orientation including clinical/administrative areas and selected Client/Patient units as may be appropriate for the students and faculty to the extent necessary for them to function adequately and appropriately in the Facility/Agency.

2.16 Facility/Agency will have a written understanding in regard to reimbursement and insurance coverage with students who are expected to use their own or agency automobiles in performing practicum assignments. Facility/Agency will provide for all student travel approved by the Field Instructor and occurring on behalf of Facility/Agency or its Client/Patients by reimbursing students for use of private cars at the same mileage rate provided to agency employees, or reimbursing students for the cost of public transportation.

3. GENERAL TERMS

3.1 It is mutually agreed upon that no student shall use Facility/Agency's clinical facilities after the end of the student’s clinical day unless authoritative Facility/Agency personnel are present. Should the Facility/Agency choose to retain the student beyond the provisions of the field calendar, then the Facility/Agency and student must enter into a separate agreement.

3.2 Facility/Agency shall not assume responsibility for student or faculty members' medical care other than first aid and/or emergency treatment not covered by insurance which is necessitated by an injury sustained while participating in the activities of the social work field program at the Facility/Agency.

3.3 Neither party shall consider the students or faculty members to be employees of or agents of Facility/Agency, and Facility/Agency shall retain no financial obligations with respect to the students other than as provided in 2.16 above for transportation expenses incurred by students.

3.4 Both parties agree that in the performance of this Agreement, there will be no discrimination against any student or employee on account of race, color, sex, sexual orientation,
religion, ancestry, age, national origin, disability or any other class protected by federal, state or local law. Receipt by either party of evidence of such discrimination shall be cause for termination of this Agreement.

3.5 The initial term of this Agreement shall be one year from the date first entered and thereafter from year to year unless terminated by either party.

3.6 Either party may terminate this Agreement at any time upon sixty (60) days’ prior written notice. Either party may also terminate this Agreement at any time if the other party defaults in any way of its obligations, but only if such default shall have continued for a period of thirty (30) days after receipt of written notice thereof by the other party. In any event, students then participating in the social work field education program shall be entitled to complete the current program.

3.7 This Agreement represents the entire understanding of the parties with respect to the subject matter covered herein and supersedes and nullifies any previous agreements between the parties.

3.8 An annual review by the Director/Assistant Director of Field Education and Facility/Agency Coordinator shall be held for the purpose of evaluating and developing student training opportunities at the Facility/Agency.

3.9 This Agreement may be amended only in writing and any amendments hereto must be signed by authorized representatives of School and the Facility/Agency.

3.10 This Agreement shall not constitute, nor shall it be construed or deemed to constitute, a partnership or joint venture between the parties hereto. On the contrary, such parties shall remain separate corporate entities, and each shall continue to conduct its own business and affairs under the control of its own officers and Board of Directors or Trustees, as the case may be with each Board of Directors or Trustees remaining solely responsible in all respects for the management and conduct of the business and affairs of its institution.

3.11 Any notices to be provided under this Agreement shall be made by hand delivery or sent by nationally-recognized overnight courier service or certified or registered mail, return receipt requested, to the parties as addressed below:

School:

Michelle Brandt, MSW, LSW
Director of Field Education
Widener University, CSWE
One University Place
Chester, PA 19013-5792

Joseph J. Baker
Senior Vice President for Administration
And Finance
Widener University
One University Place
Chester, PA 19013-5792

Agency:
Notices shall be effective upon delivery or upon refusal to accept delivery.

3.12 Jurisdiction and venue for any and all disputes which may arise under or pursuant to this Agreement shall reside exclusively in the Court of Common Pleas of Delaware County, Pennsylvania, and the parties hereto expressly consent to such jurisdiction and venue and waive any and all objections thereto.

3.13 EACH OF THE PARTIES HERETO EXPRESSLY WAIVES ANY AND ALL RIGHTS IT MAY HAVE TO A TRIAL BY JURY.
3.14 This Agreement shall be governed by and construed in accordance with the laws of the Commonwealth of Pennsylvania.

3.15 Each of the parties hereto agrees to keep strictly confidential and to hold in trust all confidential information of the other and not disclose any such information to any third party without the express prior written consent of the other party hereto, unless otherwise required by law.

3.16 This Agreement may not be assigned by either party without the express prior written consent of the other party.

3.17 All paragraph and other headings and captions are for convenience of reference only and shall not be used in the construction or interpretation of this Agreement.

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed by their duly authorized officers, as of the day and year first above written.

APPENDIX B – NASW Code of Ethics

Code of Ethics of the National Association of Social Workers

Approved by the 1996 NASW Delegate Assembly and revised by the 1999 NASW Delegate Assembly

Preamble

The primary mission of the social work profession is to enhance human well-being and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's focus on individual well-being in a social context and the well-being of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. "Clients" is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation, administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

- service
- social justice
- dignity and worth of the person
- importance of human relationships
- integrity
- competence.

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.

Purpose of the NASW Code of Ethics

Professional ethics are at the core of social work. The profession has an obligation to articulate its basic values, ethical principles, and ethical standards. The NASW Code of Ethics sets forth these values, principles, and standards to guide social workers’ conduct. The Code is relevant to all social workers and social work students, regardless of their professional functions, the settings in which they work, or the populations they serve.

The NASW Code of Ethics serves six purposes:

1. The Code identifies core values on which social work's mission is based.
2. The Code summarizes broad ethical principles that reflect the profession's core values and establishes a set of specific ethical standards that should be used to guide social work practice.
3. The Code is designed to help social workers identify relevant considerations when professional obligations
conflict or ethical uncertainties arise.

4. The Code provides ethical standards to which the general public can hold the social work profession accountable.

5. The Code socializes practitioners new to the field to social work's mission, values, ethical principles, and ethical standards.

6. The Code articulates standards that the social work profession itself can use to assess whether social workers have engaged in unethical conduct. NASW has formal procedures to adjudicate ethics complaints filed against its members.* In subscribing to this Code, social workers are required to cooperate in its implementation, participate in NASW adjudication proceedings, and abide by any NASW disciplinary rulings or sanctions based on it.

*For information on NASW adjudication procedures, see NASW Procedures for the Adjudication of Grievances.

The Code offers a set of values, principles, and standards to guide decision making and conduct when ethical issues arise. It does not provide a set of rules that prescribe how social workers should act in all situations. Specific applications of the Code must take into account the context in which it is being considered and the possibility of conflicts among the Code's values, principles, and standards. Ethical responsibilities flow from all human relationships, from the personal and familial to the social and professional.

Further, the NASW Code of Ethics does not specify which values, principles, and standards are most important and ought to outweigh others in instances when they conflict. Reasonable differences of opinion can and do exist among social workers with respect to the ways in which values, ethical principles, and ethical standards should be rank ordered when they conflict. Ethical decision making in a given situation must apply the informed judgment of the individual social worker and should also consider how the issues would be judged in a peer review process where the ethical standards of the profession would be applied.

Ethical decision making is a process. There are many instances in social work where simple answers are not available to resolve complex ethical issues. Social workers should take into consideration all the values, principles, and standards in this Code that are relevant to any situation in which ethical judgment is warranted. Social workers' decisions and actions should be consistent with the spirit as well as the letter of this Code.

In addition to this Code, there are many other sources of information about ethical thinking that may be useful. Social workers should consider ethical theory and principles generally, social work theory and research, laws, regulations, agency policies, and other relevant codes of ethics, recognizing that among codes of ethics social workers should consider the NASW Code of Ethics as their primary source. Social workers also should be aware of the impact on ethical decision making of their clients' and their own personal values and cultural and religious beliefs and practices. They should be aware of any conflicts between personal and professional values and deal with them responsibly. For additional guidance social workers should consult the relevant literature on professional ethics and ethical decision making and seek appropriate consultation when faced with ethical dilemmas. This may involve consultation with an agency-based or social work organization's ethics committee, a regulatory body, knowledgeable colleagues, supervisors, or legal counsel.

Instances may arise when social workers' ethical obligations conflict with agency policies or relevant laws or regulations. When such conflicts occur, social workers must make a responsible effort to resolve the conflict in a manner that is consistent with the values, principles, and standards expressed in this Code. If a reasonable resolution of the conflict does not appear possible, social workers should seek proper consultation before making a decision.

The NASW Code of Ethics is to be used by NASW and by individuals, agencies, organizations, and bodies (such as licensing and regulatory boards, professional liability insurance providers, courts of law, agency boards of directors, government agencies, and other professional groups) that choose to adopt it or use it as a frame of reference. Violation of standards in this Code does not automatically imply legal liability or violation of the law. Such determination can only be made in the context of legal and judicial proceedings. Alleged violations of the Code would be subject to a peer review process. Such processes are generally separate from legal or administrative procedures and insulated from legal review or proceedings to allow the profession to counsel and discipline its own members.
A code of ethics cannot guarantee ethical behavior. Moreover, a code of ethics cannot resolve all ethical issues or disputes or capture the richness and complexity involved in striving to make responsible choices within a moral community. Rather, a code of ethics sets forth values, ethical principles, and ethical standards to which professionals aspire and by which their actions can be judged. Social workers' ethical behavior should result from their personal commitment to engage in ethical practice. The NASW Code of Ethics reflects the commitment of all social workers to uphold the profession's values and to act ethically. Principles and standards must be applied by individuals of good character who discern moral questions and, in good faith, seek to make reliable ethical judgments.

**Ethical Principles**

The following broad ethical principles are based on social work's core values of service, social justice, dignity and worth of the person, importance of human relationships, integrity, and competence. These principles set forth ideals to which all social workers should aspire.

**Value: Service**

Ethical Principle: Social workers' primary goal is to help people in need and to address social problems.

Social workers elevate service to others above self-interest. Social workers draw on their knowledge, values, and skills to help people in need and to address social problems. Social workers are encouraged to volunteer some portion of their professional skills with no expectation of significant financial return (pro bono service).

**Value: Social Justice**

Ethical Principle: Social workers challenge social injustice.

Social workers pursue social change, particularly with and on behalf of vulnerable and oppressed individuals and groups of people. Social workers' social change efforts are focused primarily on issues of poverty, unemployment, discrimination, and other forms of social injustice. These activities seek to promote sensitivity to and knowledge about oppression and cultural and ethnic diversity. Social workers strive to ensure access to needed information, services, and resources; equality of opportunity; and meaningful participation in decision making for all people.

**Value: Dignity and Worth of the Person**

Ethical Principle: Social workers respect the inherent dignity and worth of the person.

Social workers treat each person in a caring and respectful fashion, mindful of individual differences and cultural and ethnic diversity. Social workers promote clients' socially responsible self-determination. Social workers seek to enhance clients' capacity and opportunity to change and to address their own needs. Social workers are cognizant of their dual responsibility to clients and to the broader society. They seek to resolve conflicts between clients' interests and the broader society's interests in a socially responsible manner consistent with the values, ethical principles, and ethical standards of the profession.

**Value: Importance of Human Relationships**

Ethical Principle: Social workers recognize the central importance of human relationships.

Social workers understand that relationships between and among people are an important vehicle for change. Social workers engage people as partners in the helping process. Social workers seek to strengthen relationships among people in a purposeful effort to promote, restore, maintain, and enhance the well-being of individuals, families, social groups, organizations, and communities.

**Value: Integrity**

Ethical Principle: Social workers behave in a trustworthy manner.
Social workers are continually aware of the profession's mission, values, ethical principles, and ethical standards and practice in a manner consistent with them. Social workers act honestly and responsibly and promote ethical practices on the part of the organizations with which they are affiliated.

Value: Competence

Ethical Principle: Social workers practice within their areas of competence and develop and enhance their professional expertise.

Social workers continually strive to increase their professional knowledge and skills and to apply them in practice. Social workers should aspire to contribute to the knowledge base of the profession.

Ethical Standards

The following ethical standards are relevant to the professional activities of all social workers. These standards concern (1) social workers' ethical responsibilities to clients, (2) social workers' ethical responsibilities to colleagues, (3) social workers' ethical responsibilities in practice settings, (4) social workers' ethical responsibilities as professionals, (5) social workers' ethical responsibilities to the social work profession, and (6) social workers' ethical responsibilities to the broader society.

Some of the standards that follow are enforceable guidelines for professional conduct, and some are aspirational. The extent to which each standard is enforceable is a matter of professional judgment to be exercised by those responsible for reviewing alleged violations of ethical standards.

1. Social Workers' Ethical Responsibilities to Clients

1.01 Commitment to Clients

Social workers' primary responsibility is to promote the well-being of clients. In general, clients' interests are primary. However, social workers' responsibility to the larger society or specific legal obligations may on limited occasions supersede the loyalty owed clients, and clients should be so advised. (Examples include when a social worker is required by law to report that a client has abused a child or has threatened to harm self or others.)

1.02 Self-Determination

Social workers respect and promote the right of clients to self-determination and assist clients in their efforts to identify and clarify their goals. Social workers may limit clients' right to self-determination when, in the social workers' professional judgment, clients' actions or potential actions pose a serious, foreseeable, and imminent risk to themselves or others.

1.03 Informed Consent

(a) Social workers should provide services to clients only in the context of a professional relationship based, when appropriate, on valid informed consent. Social workers should use clear and understandable language to inform clients of the purpose of the services, risks related to the services, limits to services because of the requirements of a third-party payer, relevant costs, reasonable alternatives, clients' right to refuse or withdraw consent, and the time frame covered by the consent. Social workers should provide clients with an opportunity to ask questions.

(b) In instances when clients are not literate or have difficulty understanding the primary language used in the practice setting, social workers should take steps to ensure clients' comprehension. This may include providing clients with a detailed verbal explanation or arranging for a qualified interpreter or translator whenever possible.

(c) In instances when clients lack the capacity to provide informed consent, social workers should protect clients' interests by seeking permission from an appropriate third party, informing clients consistent with the clients'
level of understanding. In such instances social workers should seek to ensure that the third party acts in a manner consistent with clients' wishes and interests. Social workers should take reasonable steps to enhance such clients' ability to give informed consent.

(d) In instances when clients are receiving services involuntarily, social workers should provide information about the nature and extent of services and about the extent of clients' right to refuse service.

(e) Social workers who provide services via electronic media (such as computer, telephone, radio, and television) should inform recipients of the limitations and risks associated with such services

(f) Social workers should obtain clients' informed consent before audiotaping or videotaping clients or permitting observation of services to clients by a third party.

1.04 Competence

(a) Social workers should provide services and represent themselves as competent only within the boundaries of their education, training, license, certification, consultation received, supervised experience, or other relevant professional experience.

(b) Social workers should provide services in substantive areas or use intervention techniques or approaches that are new to them only after engaging in appropriate study, training, consultation, and supervision from people who are competent in those interventions or techniques.

(c) When generally recognized standards do not exist with respect to an emerging area of practice, social workers should exercise careful judgment and take responsible steps (including appropriate education, research, training, consultation, and supervision) to ensure the competence of their work and to protect clients from harm.

1.05 Cultural Competence and Social Diversity

(a) Social workers should understand culture and its function in human behavior and society, recognizing the strengths that exist in all cultures.

(b) Social workers should have a knowledge base of their clients' cultures and be able to demonstrate competence in the provision of services that are sensitive to clients' cultures and to differences among people and cultural groups.

(c) Social workers should obtain education about and seek to understand the nature of social diversity and oppression with respect to race, ethnicity, national origin, color, sex, sexual orientation, age, marital status, political belief, religion, and mental or physical disability.

1.06 Conflicts of Interest

(a) Social workers should be alert to and avoid conflicts of interest that interfere with the exercise of professional discretion and impartial judgment. Social workers should inform clients when a real or potential conflict of interest arises and take reasonable steps to resolve the issue in a manner that makes the clients' interests primary and protects clients' interests to the greatest extent possible. In some cases, protecting clients' interests may require termination of the professional relationship with proper referral of the client.

(b) Social workers should not take unfair advantage of any professional relationship or exploit others to further their personal, religious, political, or business interests.

(c) Social workers should not engage in dual or multiple relationships with clients or former clients in which there are risks of exploitation or potential harm to the client. In instances when dual or multiple relationships are unavoidable, social workers should take steps to protect clients and are responsible for setting clear, appropriate, and culturally sensitive boundaries. (Dual or multiple relationships occur when social workers
relate to clients in more than one relationship, whether professional, social, or business. Dual or multiple relationships can occur simultaneously or consecutively.)

(d) When social workers provide services to two or more people who have a relationship with each other (for example, couples, family members), social workers should clarify with all parties which individuals will be considered clients and the nature of social workers' professional obligations to the various individuals who are receiving services. Social workers who anticipate a conflict of interest among the individuals receiving services or who anticipate having to perform in potentially conflicting roles (for example, when a social worker is asked to testify in a child custody dispute or divorce proceedings involving clients) should clarify their role with the parties involved and take appropriate action to minimize any conflict of interest.

1.07 Privacy and Confidentiality

(a) Social workers should respect clients' right to privacy. Social workers should not solicit private information from clients unless it is essential to providing services or conducting social work evaluation or research. Once private information is shared, standards of confidentiality apply.

(b) Social workers may disclose confidential information when appropriate with valid consent from a client or a person legally authorized to consent on behalf of a client.

(c) Social workers should protect the confidentiality of all information obtained in the course of professional service, except for compelling professional reasons. The general expectation that social workers will keep information confidential does not apply when disclosure is necessary to prevent serious, foreseeable, and imminent harm to a client or other identifiable person. In all instances, social workers should disclose the least amount of confidential information necessary to achieve the desired purpose; only information that is directly relevant to the purpose for which the disclosure is made should be revealed.

(d) Social workers should inform clients, to the extent possible, about the disclosure of confidential information and the potential consequences, when feasible before the disclosure is made. This applies whether social workers disclose confidential information on the basis of a legal requirement or client consent.

(e) Social workers should discuss with clients and other interested parties the nature of confidentiality and limitations of clients' right to confidentiality. Social workers should review with clients circumstances where confidential information may be requested and where disclosure of confidential information may be legally required. This discussion should occur as soon as possible in the social worker-client relationship and as needed throughout the course of the relationship.

(f) When social workers provide counseling services to families, couples, or groups, social workers should seek agreement among the parties involved concerning each individual's right to confidentiality and obligation to preserve the confidentiality of information shared by others. Social workers should inform participants in family, couples, or group counseling that social workers cannot guarantee that all participants will honor such agreements.

(g) Social workers should inform clients involved in family, couples, marital, or group counseling of the social worker's, employer's, and agency's policy concerning the social worker's disclosure of confidential information among the parties involved in the counseling.

(h) Social workers should not disclose confidential information to third-party payers unless clients have authorized such disclosure.

(i) Social workers should not discuss confidential information in any setting unless privacy can be ensured.

(j) Social workers should not discuss confidential information in public or semipublic areas such as hallways, waiting rooms, elevators, and restaurants.

(k) Social workers should protect the confidentiality of clients during legal proceedings to the extent permitted
by law. When a court of law or other legally authorized body orders social workers to disclose confidential or privileged information without a client's consent and such disclosure could cause harm to the client, social workers should request that the court withdraw the order or limit the order as narrowly as possible or maintain the records under seal, unavailable for public inspection.

(l) Social workers should protect the confidentiality of clients when responding to requests from members of the media.

(m) Social workers should protect the confidentiality of clients' written and electronic records and other sensitive information. Social workers should take reasonable steps to ensure that clients' records are stored in a secure location and that clients' records are not available to others who are not authorized to have access.

(n) Social workers should take precautions to ensure and maintain the confidentiality of information transmitted to other parties through the use of computers, electronic mail, facsimile machines, telephones and telephone answering machines, and other electronic or computer technology. Disclosure of identifying information should be avoided whenever possible.

(o) Social workers should transfer or dispose of clients' records in a manner that protects clients' confidentiality and is consistent with state statutes governing records and social work licensure.

(p) Social workers should take reasonable precautions to protect client confidentiality in the event of the social worker's termination of practice, incapacitation, or death.

(q) Social workers should not disclose identifying information when discussing clients for teaching or training purposes unless the client has consented to disclosure of confidential information.

(r) Social workers should not disclose identifying information when discussing clients with consultants unless the client has consented to disclosure of confidential information or there is a compelling need for such disclosure.

(s) Social workers should protect the confidentiality of deceased clients consistent with the preceding standards.

1.08 Access to Records

(a) Social workers should provide clients with reasonable access to records concerning the clients. Social workers who are concerned that clients' access to their records could cause serious misunderstanding or harm to the client should provide assistance in interpreting the records and consultation with the client regarding the records. Social workers should limit clients' access to their records, or portions of their records, only in exceptional circumstances when there is compelling evidence that such access would cause serious harm to the client. Both clients' requests and the rationale for withholding some or all of the record should be documented in clients' files.

(b) When providing clients with access to their records, social workers should take steps to protect the confidentiality of other individuals identified or discussed in such records.

1.09 Sexual Relationships

(a) Social workers should under no circumstances engage in sexual activities or sexual contact with current clients, whether such contact is consensual or forced.

(b) Social workers should not engage in sexual activities or sexual contact with clients' relatives or other individuals with whom clients maintain a close personal relationship when there is a risk of exploitation or potential harm to the client. Sexual activity or sexual contact with clients' relatives or other individuals with whom clients maintain a personal relationship has the potential to be harmful to the client and may make it difficult for the social worker and client to maintain appropriate professional boundaries. Social workers--not their clients, their clients' relatives, or other individuals with whom the client maintains a personal
relationship--assume the full burden for setting clear, appropriate, and culturally sensitive boundaries.

(c) Social workers should not engage in sexual activities or sexual contact with former clients because of the potential for harm to the client. If social workers engage in conduct contrary to this prohibition or claim that an exception to this prohibition is warranted because of extraordinary circumstances, it is social workers--not their clients--who assume the full burden of demonstrating that the former client has not been exploited, coerced, or manipulated, intentionally or unintentionally.

(d) Social workers should not provide clinical services to individuals with whom they have had a prior sexual relationship. Providing clinical services to a former sexual partner has the potential to be harmful to the individual and is likely to make it difficult for the social worker and individual to maintain appropriate professional boundaries.

1.10 Physical Contact

Social workers should not engage in physical contact with clients when there is a possibility of psychological harm to the client as a result of the contact (such as cradling or caressing clients). Social workers who engage in appropriate physical contact with clients are responsible for setting clear, appropriate, and culturally sensitive boundaries that govern such physical contact.

1.11 Sexual Harassment

Social workers should not sexually harass clients. Sexual harassment includes sexual advances, sexual solicitation, requests for sexual favors, and other verbal or physical conduct of a sexual nature.

1.12 Derogatory Language

Social workers should not use derogatory language in their written or verbal communications to or about clients. Social workers should use accurate and respectful language in all communications to and about clients.

1.13 Payment for Services

(a) When setting fees, social workers should ensure that the fees are fair, reasonable, and commensurate with the services performed. Consideration should be given to clients' ability to pay.

(b) Social workers should avoid accepting goods or services from clients as payment for professional services. Bartering arrangements, particularly involving services, create the potential for conflicts of interest, exploitation, and inappropriate boundaries in social workers' relationships with clients. Social workers should explore and may participate in bartering only in very limited circumstances when it can be demonstrated that such arrangements are an accepted practice among professionals in the local community, considered to be essential for the provision of services, negotiated without coercion, and entered into at the client's initiative and with the client's informed consent. Social workers who accept goods or services from clients as payment for professional services assume the full burden of demonstrating that this arrangement will not be detrimental to the client or the professional relationship.

(c) Social workers should not solicit a private fee or other remuneration for providing services to clients who are entitled to such available services through the social workers' employer or agency.

1.14 Clients Who Lack Decision-Making Capacity

When social workers act on behalf of clients who lack the capacity to make informed decisions, social workers should take reasonable steps to safeguard the interests and rights of those clients.
1.15 Interruption of Services

Social workers should make reasonable efforts to ensure continuity of services in the event that services are interrupted by factors such as unavailability, relocation, illness, disability, or death.

1.16 Termination of Services

(a) Social workers should terminate services to clients and professional relationships with them when such services and relationships are no longer required or no longer serve the clients' needs or interests.

(b) Social workers should take reasonable steps to avoid abandoning clients who are still in need of services. Social workers should withdraw services precipitously only under unusual circumstances, giving careful consideration to all factors in the situation and taking care to minimize possible adverse effects. Social workers should assist in making appropriate arrangements for continuation of services when necessary.

(c) Social workers in fee-for-service settings may terminate services to clients who are not paying an overdue balance if the financial contractual arrangements have been made clear to the client, if the client does not pose an imminent danger to self or others, and if the clinical and other consequences of the current nonpayment have been addressed and discussed with the client.

(d) Social workers should not terminate services to pursue a social, financial, or sexual relationship with a client.

(e) Social workers who anticipate the termination or interruption of services to clients should notify clients promptly and seek the transfer, referral, or continuation of services in relation to the clients' needs and preferences.

(f) Social workers who are leaving an employment setting should inform clients of appropriate options for the continuation of services and of the benefits and risks of the options.

2. Social Workers' Ethical Responsibilities to Colleagues

2.01 Respect

(a) Social workers should treat colleagues with respect and should represent accurately and fairly the qualifications, views, and obligations of colleagues.

(b) Social workers should avoid unwarranted negative criticism of colleagues in communications with clients or with other professionals. Unwarranted negative criticism may include demeaning comments that refer to colleagues' level of competence or to individuals' attributes such as race, ethnicity, national origin, color, sex, sexual orientation, age, marital status, political belief, religion, and mental or physical disability.

(c) Social workers should cooperate with social work colleagues and with colleagues of other professions when such cooperation serves the well-being of clients.

2.02 Confidentiality

Social workers should respect confidential information shared by colleagues in the course of their professional relationships and transactions. Social workers should ensure that such colleagues understand social workers' obligation to respect confidentiality and any exceptions related to it.

2.03 Interdisciplinary Collaboration

(a) Social workers who are members of an interdisciplinary team should participate in and contribute to decisions that affect the well-being of clients by drawing on the perspectives, values, and experiences of the social work profession. Professional and ethical obligations of the interdisciplinary team as a whole and of its individual members should be clearly established.
(b) Social workers for whom a team decision raises ethical concerns should attempt to resolve the disagreement through appropriate channels. If the disagreement cannot be resolved, social workers should pursue other avenues to address their concerns consistent with client well-being.

2.04 Disputes Involving Colleagues

(a) Social workers should not take advantage of a dispute between a colleague and an employer to obtain a position or otherwise advance the social workers' own interests.

(b) Social workers should not exploit clients in disputes with colleagues or engage clients in any inappropriate discussion of conflicts between social workers and their colleagues.

2.05 Consultation

(a) Social workers should seek the advice and counsel of colleagues whenever such consultation is in the best interests of clients.

(b) Social workers should keep themselves informed about colleagues' areas of expertise and competencies. Social workers should seek consultation only from colleagues who have demonstrated knowledge, expertise, and competence related to the subject of the consultation.

(c) When consulting with colleagues about clients, social workers should disclose the least amount of information necessary to achieve the purposes of the consultation.

2.06 Referral for Services

(a) Social workers should refer clients to other professionals when the other professionals' specialized knowledge or expertise is needed to serve clients fully or when social workers believe that they are not being effective or making reasonable progress with clients and that additional service is required.

(b) Social workers who refer clients to other professionals should take appropriate steps to facilitate an orderly transfer of responsibility. Social workers who refer clients to other professionals should disclose, with clients' consent, all pertinent information to the new service providers.

(c) Social workers are prohibited from giving or receiving payment for a referral when no professional service is provided by the referring social worker.

2.07 Sexual Relationships

(a) Social workers who function as supervisors or educators should not engage in sexual activities or contact with supervisees, students, trainees, or other colleagues over whom they exercise professional authority.

(b) Social workers should avoid engaging in sexual relationships with colleagues when there is potential for a conflict of interest. Social workers who become involved in, or anticipate becoming involved in, a sexual relationship with a colleague have a duty to transfer professional responsibilities, when necessary, to avoid a conflict of interest.

2.08 Sexual Harassment

Social workers should not sexually harass supervisees, students, trainees, or colleagues. Sexual harassment includes sexual advances, sexual solicitation, requests for sexual favors, and other verbal or physical conduct of a sexual nature.
2.09 Impairment of Colleagues

(a) Social workers who have direct knowledge of a social work colleague's impairment that is due to personal problems, psychosocial distress, substance abuse, or mental health difficulties and that interferes with practice effectiveness should consult with that colleague when feasible and assist the colleague in taking remedial action.

(b) Social workers who believe that a social work colleague's impairment interferes with practice effectiveness and that the colleague has not taken adequate steps to address the impairment should take action through appropriate channels established by employers, agencies, NASW, licensing and regulatory bodies, and other professional organizations.

2.10 Incompetence of Colleagues

(a) Social workers who have direct knowledge of a social work colleague's incompetence should consult with that colleague when feasible and assist the colleague in taking remedial action.

(b) Social workers who believe that a social work colleague is incompetent and has not taken adequate steps to address the incompetence should take action through appropriate channels established by employers, agencies, NASW, licensing and regulatory bodies, and other professional organizations.

2.11 Unethical Conduct of Colleagues

(a) Social workers should take adequate measures to discourage, prevent, expose, and correct the unethical conduct of colleagues.

(b) Social workers should be knowledgeable about established policies and procedures for handling concerns about colleagues' unethical behavior. Social workers should be familiar with national, state, and local procedures for handling ethics complaints. These include policies and procedures created by NASW, licensing and regulatory bodies, employers, agencies, and other professional organizations.

(c) Social workers who believe that a colleague has acted unethically should seek resolution by discussing their concerns with the colleague when feasible and when such discussion is likely to be productive.

(d) When necessary, social workers who believe that a colleague has acted unethically should take action through appropriate formal channels (such as contacting a state licensing board or regulatory body, an NASW committee on inquiry, or other professional ethics committees).

(e) Social workers should defend and assist colleagues who are unjustly charged with unethical conduct.

3. Social Workers' Ethical Responsibilities in Practice Settings

3.01 Supervision and Consultation

(a) Social workers who provide supervision or consultation should have the necessary knowledge and skill to supervise or consult appropriately and should do so only within their areas of knowledge and competence.

(b) Social workers who provide supervision or consultation are responsible for setting clear, appropriate, and culturally sensitive boundaries.

(c) Social workers should not engage in any dual or multiple relationships with supervisees with whom there is a risk of exploitation or potential harm to the supervisee.

(d) Social workers who provide supervision should evaluate supervisees' performance in a manner that is fair and respectful.
3.02 Education and Training

(a) Social workers who function as educators, field instructors for students, or trainers should provide instruction only within their areas of knowledge and competence and should provide instruction based on the most current information and knowledge available in the profession.

(b) Social workers who function as educators or field instructors for students should evaluate students' performance in a manner that is fair and respectful. Social workers who function as educators or field instructors for students should take reasonable steps to ensure that clients are routinely informed when services are being provided by students.

(c) Social workers who function as educators or field instructors for students should not engage in any dual or multiple relationships with students in which there is a risk of exploitation or potential harm to the student. Social work educators and field instructors are responsible for setting clear, appropriate, and culturally sensitive boundaries.

3.03 Performance Evaluation

Social workers who have responsibility for evaluating the performance of others should fulfill such responsibility in a fair and considerate manner and on the basis of clearly stated criteria.

3.04 Client Records

(a) Social workers should take reasonable steps to ensure that documentation in records is accurate and reflects the services provided.

(b) Social workers should include sufficient and timely documentation in records to facilitate the delivery of services and to ensure continuity of services provided to clients in the future.

(c) Social workers' documentation should protect clients' privacy to the extent that is possible and appropriate and should include only information that is directly relevant to the delivery of services.

(d) Social workers should store records following the termination of services to ensure reasonable future access. Records should be maintained for the number of years required by state statutes or relevant contracts.

3.05 Billing

Social workers should establish and maintain billing practices that accurately reflect the nature and extent of services provided and that identify who provided the service in the practice setting.

3.06 Client Transfer

(a) When an individual who is receiving services from another agency or colleague contacts a social worker for services, the social worker should carefully consider the client's needs before agreeing to provide services. To minimize possible confusion and conflict, social workers should discuss with potential clients the nature of the clients' current relationship with other service providers and the implications, including possible benefits or risks, of entering into a relationship with a new service provider.

(b) If a new client has been served by another agency or colleague, social workers should discuss with the client whether consultation with the previous service provider is in the client's best interest.

3.07 Administration

(a) Social work administrators should advocate within and outside their agencies for adequate resources to meet clients' needs.
(b) Social workers should advocate for resource allocation procedures that are open and fair. When not all clients' needs can be met, an allocation procedure should be developed that is nondiscriminatory and based on appropriate and consistently applied principles.

(c) Social workers who are administrators should take reasonable steps to ensure that adequate agency or organizational resources are available to provide appropriate staff supervision.

(d) Social work administrators should take reasonable steps to ensure that the working environment for which they are responsible is consistent with and encourages compliance with the NASW Code of Ethics. Social work administrators should take reasonable steps to eliminate any conditions in their organizations that violate, interfere with, or discourage compliance with the Code.

3.08 Continuing Education and Staff Development

Social work administrators and supervisors should take reasonable steps to provide or arrange for continuing education and staff development for all staff for whom they are responsible. Continuing education and staff development should address current knowledge and emerging developments related to social work practice and ethics.

3.09 Commitments to Employers

(a) Social workers generally should adhere to commitments made to employers and employing organizations.

(b) Social workers should work to improve employing agencies' policies and procedures and the efficiency and effectiveness of their services.

(c) Social workers should take reasonable steps to ensure that employers are aware of social workers' ethical obligations as set forth in the NASW Code of Ethics and of the implications of those obligations for social work practice.

(d) Social workers should not allow an employing organization's policies, procedures, regulations, or administrative orders to interfere with their ethical practice of social work. Social workers should take reasonable steps to ensure that their employing organizations' practices are consistent with the NASW Code of Ethics.

(e) Social workers should act to prevent and eliminate discrimination in the employing organization's work assignments and in its employment policies and practices.

(f) Social workers should accept employment or arrange student field placements only in organizations that exercise fair personnel practices.

(g) Social workers should be diligent stewards of the resources of their employing organizations, wisely conserving funds where appropriate and never misappropriating funds or using them for unintended purposes.

3.10 Labor-Management Disputes

(a) Social workers may engage in organized action, including the formation of and participation in labor unions, to improve services to clients and working conditions.

(b) The actions of social workers who are involved in labor-management disputes, job actions, or labor strikes should be guided by the profession's values, ethical principles, and ethical standards. Reasonable differences of opinion exist among social workers concerning their primary obligation as professionals during an actual or threatened labor strike or job action. Social workers should carefully examine relevant issues and their possible impact on clients before deciding on a course of action.

4. Social Workers' Ethical Responsibilities as Professionals
4.01 Competence

(a) Social workers should accept responsibility or employment only on the basis of existing competence or the intention to acquire the necessary competence.

(b) Social workers should strive to become and remain proficient in professional practice and the performance of professional functions. Social workers should critically examine and keep current with emerging knowledge relevant to social work. Social workers should routinely review the professional literature and participate in continuing education relevant to social work practice and social work ethics.

(c) Social workers should base practice on recognized knowledge, including empirically based knowledge, relevant to social work and social work ethics.

4.02 Discrimination

Social workers should not practice, condone, facilitate, or collaborate with any form of discrimination on the basis of race, ethnicity, national origin, color, sex, sexual orientation, age, marital status, political belief, religion, or mental or physical disability.

4.03 Private Conduct

Social workers should not permit their private conduct to interfere with their ability to fulfill their professional responsibilities.

4.04 Dishonesty, Fraud, and Deception

Social workers should not participate in, condone, or be associated with dishonesty, fraud, or deception.

4.05 Impairment

(a) Social workers should not allow their own personal problems, psychosocial distress, legal problems, substance abuse, or mental health difficulties to interfere with their professional judgment and performance or to jeopardize the best interests of people for whom they have a professional responsibility.

(b) Social workers whose personal problems, psychosocial distress, legal problems, substance abuse, or mental health difficulties interfere with their professional judgment and performance should immediately seek consultation and take appropriate remedial action by seeking professional help, making adjustments in workload, terminating practice, or taking any other steps necessary to protect clients and others.

4.06 Misrepresentation

(a) Social workers should make clear distinctions between statements made and actions engaged in as a private individual and as a representative of the social work profession, a professional social work organization, or the social worker's employing agency.

(b) Social workers who speak on behalf of professional social work organizations should accurately represent the official and authorized positions of the organizations.

(c) Social workers should ensure that their representations to clients, agencies, and the public of professional qualifications, credentials, education, competence, affiliations, services provided, or results to be achieved are accurate. Social workers should claim only those relevant professional credentials they actually possess and take steps to correct any inaccuracies or misrepresentations of their credentials by others.

4.07 Solicitations

(a) Social workers should not engage in uninvited solicitation of potential clients who, because of their
circumstances, are vulnerable to undue influence, manipulation, or coercion.

(b) Social workers should not engage in solicitation of testimonial endorsements (including solicitation of consent to use a client's prior statement as a testimonial endorsement) from current clients or from other people who, because of their particular circumstances, are vulnerable to undue influence.

4.08 Acknowledging Credit

(a) Social workers should take responsibility and credit, including authorship credit, only for work they have actually performed and to which they have contributed.

(b) Social workers should honestly acknowledge the work of and the contributions made by others.

5. Social Workers' Ethical Responsibilities to the Social Work Profession

5.01 Integrity of the Profession

(a) Social workers should work toward the maintenance and promotion of high standards of practice.

(b) Social workers should uphold and advance the values, ethics, knowledge, and mission of the profession. Social workers should protect, enhance, and improve the integrity of the profession through appropriate study and research, active discussion, and responsible criticism of the profession.

(c) Social workers should contribute time and professional expertise to activities that promote respect for the value, integrity, and competence of the social work profession. These activities may include teaching, research, consultation, service, legislative testimony, presentations in the community, and participation in their professional organizations.

(d) Social workers should contribute to the knowledge base of social work and share with colleagues their knowledge related to practice, research, and ethics. Social workers should seek to contribute to the profession's literature and to share their knowledge at professional meetings and conferences.

(e) Social workers should act to prevent the unauthorized and unqualified practice of social work.

5.02 Evaluation and Research

(a) Social workers should monitor and evaluate policies, the implementation of programs, and practice interventions.

(b) Social workers should promote and facilitate evaluation and research to contribute to the development of knowledge.

(c) Social workers should critically examine and keep current with emerging knowledge relevant to social work and fully use evaluation and research evidence in their professional practice.

(d) Social workers engaged in evaluation or research should carefully consider possible consequences and should follow guidelines developed for the protection of evaluation and research participants. Appropriate institutional review boards should be consulted.

(e) Social workers engaged in evaluation or research should obtain voluntary and written informed consent from participants, when appropriate, without any implied or actual deprivation or penalty for refusal to participate; without undue inducement to participate; and with due regard for participants' well-being, privacy, and dignity. Informed consent should include information about the nature, extent, and duration of the participation requested and disclosure of the risks and benefits of participation in the research.

(f) When evaluation or research participants are incapable of giving informed consent, social workers should
provide an appropriate explanation to the participants, obtain the participants' assent to the extent they are able, and obtain written consent from an appropriate proxy.

(g) Social workers should never design or conduct evaluation or research that does not use consent procedures, such as certain forms of naturalistic observation and archival research, unless rigorous and responsible review of the research has found it to be justified because of its prospective scientific, educational, or applied value and unless equally effective alternative procedures that do not involve waiver of consent are not feasible.

(h) Social workers should inform participants of their right to withdraw from evaluation and research at any time without penalty.

(i) Social workers should take appropriate steps to ensure that participants in evaluation and research have access to appropriate supportive services.

(j) Social workers engaged in evaluation or research should protect participants from unwarranted physical or mental distress, harm, danger, or deprivation.

(k) Social workers engaged in the evaluation of services should discuss collected information only for professional purposes and only with people professionally concerned with this information.

(l) Social workers engaged in evaluation or research should ensure the anonymity or confidentiality of participants and of the data obtained from them. Social workers should inform participants of any limits of confidentiality, the measures that will be taken to ensure confidentiality, and when any records containing research data will be destroyed.

(m) Social workers who report evaluation and research results should protect participants' confidentiality by omitting identifying information unless proper consent has been obtained authorizing disclosure.

(n) Social workers should report evaluation and research findings accurately. They should not fabricate or falsify results and should take steps to correct any errors later found in published data using standard publication methods.

(o) Social workers engaged in evaluation or research should be alert to and avoid conflicts of interest and dual relationships with participants, should inform participants when a real or potential conflict of interest arises, and should take steps to resolve the issue in a manner that makes participants' interests primary.

(p) Social workers should educate themselves, their students, and their colleagues about responsible research practices.

6. Social Workers' Ethical Responsibilities to the Broader Society

6.01 Social Welfare

Social workers should promote the general welfare of society, from local to global levels, and the development of people, their communities, and their environments. Social workers should advocate for living conditions conducive to the fulfillment of basic human needs and should promote social, economic, political, and cultural values and institutions that are compatible with the realization of social justice.

6.02 Public Participation

Social workers should facilitate informed participation by the public in shaping social policies and institutions.

6.03 Public Emergencies

Social workers should provide appropriate professional services in public emergencies to the greatest extent possible.
6.04 Social and Political Action

(a) Social workers should engage in social and political action that seeks to ensure that all people have equal access to the resources, employment, services, and opportunities they require to meet their basic human needs and to develop fully. Social workers should be aware of the impact of the political arena on practice and should advocate for changes in policy and legislation to improve social conditions in order to meet basic human needs and promote social justice.

(b) Social workers should act to expand choice and opportunity for all people, with special regard for vulnerable, disadvantaged, oppressed, and exploited people and groups.

(c) Social workers should promote conditions that encourage respect for cultural and social diversity within the United States and globally. Social workers should promote policies and practices that demonstrate respect for difference, support the expansion of cultural knowledge and resources, advocate for programs and institutions that demonstrate cultural competence, and promote policies that safeguard the rights of and confirm equity and social justice for all people.

(d) Social workers should act to prevent and eliminate domination of, exploitation of, and discrimination against any person, group, or class on the basis of race, ethnicity, national origin, color, sex, sexual orientation, age, marital status, political belief, religion, or mental or physical disability.
The purpose of the social work profession is to promote human and community well-being. Guided by a person and environment construct, a global perspective, respect for human diversity, and knowledge based on scientific inquiry, social work’s purpose is actualized through its quest for social and economic justice, the prevention of conditions that limit human rights, the elimination of poverty, and the enhancement of the quality of life for all persons.

Social work educators serve the profession through their teaching, scholarship, and service. Social work education—at the baccalaureate, master’s, and doctoral levels—shapes the profession’s future through the education of competent professionals, the generation of knowledge, and the exercise of leadership within the professional community.

The Council on Social Work Education (CSWE) uses the Educational Policy and Accreditation Standards (EPAS) to accredit baccalaureate- and master’s-level social work programs. EPAS supports academic excellence by establishing thresholds for professional competence. It permits programs to use traditional and emerging models of curriculum design by balancing requirements that promote comparability across programs with a level of flexibility that encourages programs to differentiate.

EPAS describe four features of an integrated curriculum design: (1) program mission and goals; (2) explicit curriculum; (3) implicit curriculum; and (4) assessment. The Educational Policy and Accreditation Standards are conceptually linked. Educational Policy describes each curriculum feature. Accreditation Standards (in italics) are derived from the Educational Policy and specify the requirements used to develop and maintain an accredited social work program at the baccalaureate (B) or master’s (M) level.

1. Program Mission and Goals

Educational Policy 1.0—Program Mission and Goals
The mission and goals of each social work program address the profession’s purpose, are grounded in core professional values (EP 1.1), and are informed by context (EP 1.2).

Educational Policy 1.1—Values Service, social justice, the dignity and worth of the person, the importance of human relationships, integrity, competence, human rights, and scientific inquiry are among the core values of social work. These values underpin the explicit and implicit curriculum and frame the profession’s commitment to respect for all people and the quest for social and economic justice.

Educational Policy 1.2—Program Context encompasses the mission of the institution in which the program is located and the needs and opportunities associated with the setting. Programs are further influenced by their historical, political, economic, social, cultural, demographic, and global contexts and by the ways they elect to engage these

---

factors. Additional factors include new knowledge, technology, and ideas that may have a bearing on contemporary and future social work education and practice.

**Accreditation Standard 1.0—Mission and Goals** The social work program’s mission and goals reflect the profession’s purpose and values and the program’s context.

1.0.1 The program submits its mission statement and describes how it is consistent with the profession’s purpose and values and the program’s context.

1.0.2 The program identifies its goals and demonstrates how they are derived from the program’s mission.

2. Explicit Curriculum

**Educational Policy 2.0—The Social Work Curriculum and Professional Practice** The explicit curriculum constitutes the program’s formal educational structure and includes the courses and the curriculum. Social work education is grounded in the liberal arts, which provide the intellectual basis for the professional curriculum and inform its design. The explicit curriculum achieves the program’s competencies through an intentional design that includes the foundation offered at the baccalaureate and master’s levels and the advanced curriculum offered at the master’s level. The BSW curriculum prepares its graduates for generalist practice through mastery of the core competencies. The MSW curriculum prepares its graduates for advanced practice through mastery of the core competencies augmented by knowledge and practice behaviors specific to a concentration.

**Educational Policy 2.1—Core Competencies** Competency-based education is an outcome performance approach to curriculum design. Competencies are measurable practice behaviors that are comprised of knowledge, values, and skills. The goal of the outcome approach is to demonstrate the integration and application of the competencies in practice with individuals, families, groups, organizations, and communities. The ten core competencies are listed below [EP 2.1.1–EP 2.1.10(d)], followed by a description of characteristic knowledge, values, skills, and the resulting practice behaviors that may be used to operationalize the curriculum and assessment methods. Programs may add competencies consistent with their missions and goals.

**Educational Policy 2.1.1—Identify as a professional social worker and conduct oneself accordingly.** Social workers serve as representatives of the profession, its mission, and its core values. They know the profession’s history. Social workers commit themselves to the profession’s enhancement and to their own professional conduct and growth. Social workers

- advocate for client access to the services of social work;
- practice personal reflection and self-correction to assure continual professional development;
- attend to professional roles and boundaries;
- demonstrate professional demeanor in behavior, appearance, and communication;
- engage in career-long learning;
- and, use supervision and consultation.

**Educational Policy 2.1.2—Apply social work ethical principles to guide professional practice.** Social workers have an obligation to conduct themselves ethically and to engage in ethical decision-making. Social workers are knowledgeable about the value base of the profession, its ethical standards, and relevant law. Social workers

- recognize and manage personal values in a way that allows professional values to guide practice;
- make ethical decisions by applying standards of the National Association of Social Workers Code of Ethics\(^5\) and, as applicable, of the International Federation of Social Workers/International Association of Schools of Social Work Ethics in Social Work, Statement of Principles;\(^6\)
- tolerate ambiguity in resolving ethical conflicts; and
- apply strategies of ethical reasoning to arrive at principled decisions.

---

Educational Policy 2.1.3—Apply critical thinking to inform and communicate professional judgments. Social workers are knowledgeable about the principles of logic, scientific inquiry, and reasoned discernment. They use critical thinking augmented by creativity and curiosity. Critical thinking also requires the synthesis and communication of relevant information. Social workers

- distinguish, appraise, and integrate multiple sources of knowledge, including research-based knowledge, and practice wisdom;
- analyze models of assessment, prevention, intervention, and evaluation; and
- demonstrate effective oral and written communication in working with individuals, families, groups, organizations, communities, and colleagues.

Educational Policy 2.1.4—Engage diversity and difference in practice. Social workers understand how diversity characterizes and shapes the human experience and is critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including age, class, color, culture, disability, ethnicity, gender, gender identity and expression, immigration status, political ideology, race, religion, sex, and sexual orientation. Social workers appreciate that, as a consequence of difference, a person’s life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers

- recognize the extent to which a culture’s structures and values may oppress, marginalize, alienate, or create or enhance privilege and power;
- gain sufficient self-awareness to eliminate the influence of personal biases and values in working with diverse groups;
- recognize and communicate their understanding of the importance of difference in shaping life experiences; and
- view themselves as learners and engage those with whom they work as informants.

Educational Policy 2.1.5—Advance human rights and social and economic justice. Each person, regardless of position in society, has basic human rights, such as freedom, safety, privacy, an adequate standard of living, health care, and education. Social workers recognize the global interconnections of oppression and are knowledgeable about theories of justice and strategies to promote human and civil rights. Social work incorporates social justice practices in organizations, institutions, and society to ensure that these basic human rights are distributed equitably and without prejudice. Social workers

- understand the forms and mechanisms of oppression and discrimination;
- advocate for human rights and social and economic justice; and
- engage in practices that advance social and economic justice.

Educational Policy 2.1.6—Engage in research-informed practice and practice-informed research. Social workers use practice experience to inform research, employ evidence-based interventions, evaluate their own practice, and use research findings to improve practice, policy, and social service delivery. Social workers comprehend quantitative and qualitative research and understand scientific and ethical approaches to building knowledge. Social workers

- use practice experience to inform scientific inquiry and
- use research evidence to inform practice.

Educational Policy 2.1.7—Apply knowledge of human behavior and the social environment. Social workers are knowledgeable about human behavior across the life course; the range of social systems in which people live; and the ways social systems promote or deter people in maintaining or achieving health and well-being. Social workers apply theories and knowledge from the liberal arts to understand biological, social, cultural, psychological, and spiritual development. Social workers

- utilize conceptual frameworks to guide the processes of assessment, intervention, and evaluation; and
- critique and apply knowledge to understand person and environment.

Educational Policy 2.1.8—Engage in policy practice to advance social and economic well-being and to deliver effective social work services. Social work practitioners understand that policy affects service delivery, and they actively engage in policy practice. Social workers know the history and current structures of social policies and services; the role of policy in service delivery; and the role of practice in policy development. Social workers
• analyze, formulate, and advocate for policies that advance social well-being; and
• collaborate with colleagues and clients for effective policy action.

Educational Policy 2.1.9—Respond to contexts that shape practice. Social workers are informed, resourceful, and proactive in responding to evolving organizational, community, and societal contexts at all levels of practice. Social workers recognize that the context of practice is dynamic, and use knowledge and skill to respond proactively. Social workers
• continuously discover, appraise, and attend to changing locales, populations, scientific and technological developments, and emerging societal trends to provide relevant services; and
• provide leadership in promoting sustainable changes in service delivery and practice to improve the quality of social services.

Educational Policy 2.1.10(a)–(d)—Engage, assess, intervene, and evaluate with individuals, families, groups, organizations, and communities. Professional practice involves the dynamic and interactive processes of engagement, assessment, intervention, and evaluation at multiple levels. Social workers have the knowledge and skills to practice with individuals, families, groups, organizations, and communities. Practice knowledge includes identifying, analyzing, and implementing evidence-based interventions designed to achieve client goals; using research and technological advances; evaluating program outcomes and practice effectiveness; developing, analyzing, advocating, and providing leadership for policies and services; and promoting social and economic justice.

Educational Policy 2.1.10(a)—Engagement Social workers
• substantively and affectively prepare for action with individuals, families, groups, organizations, and communities;
• use empathy and other interpersonal skills; and • develop a mutually agreed-on focus of work and desired outcomes.

Educational Policy 2.1.10(b)—Assessment Social workers
• collect, organize, and interpret client data;
• assess client strengths and limitations;
• develop mutually agreed-on intervention goals and objectives; and
• select appropriate intervention strategies.

Educational Policy 2.1.10(c)—Intervention Social workers
• initiate actions to achieve organizational goals;
• implement prevention interventions that enhance client capacities;
• help clients resolve problems;
• negotiate, mediate, and advocate for clients; and
• facilitate transitions and endings.

Educational Policy 2.1.10(d)—Evaluation Social workers critically analyze, monitor, and evaluate interventions.

Educational Policy B2.2—Generalist Practice Generalist practice is grounded in the liberal arts and the person and environment construct. To promote human and social well-being, generalist practitioners use a range of prevention and intervention methods in their practice with individuals, families, groups, organizations, and communities. The generalist practitioner identifies with the social work profession and applies ethical principles and critical thinking in practice. Generalist practitioners incorporate diversity in their practice and advocate for human rights and social and economic justice. They recognize, support, and build on the strengths and resiliency of all human beings. They engage in research-informed practice and are proactive in responding to the impact of context on professional practice. BSW practice incorporates all of the core competencies.

Educational Policy M2.2—Advanced Practice Advanced practitioners refine and advance the quality of social work practice and that of the larger social work profession. They synthesize and apply a broad range of interdisciplinary and multidisciplinary knowledge and skills. In areas of specialization, advanced practitioners assess, intervene, and evaluate to promote human and social well-being. To do so they suit each action to the circumstances at hand, using the discrimination learned through experience and self-improvement. Advanced practice incorporates all of the core
competencies augmented by knowledge and practice behaviors specific to a concentration.

**Educational Policy 2.3—Signature Pedagogy: Field Education** Signature pedagogy represents the central form of instruction and learning in which a profession socializes its students to perform the role of practitioner. Professionals have pedagogical norms with which they connect and integrate theory and practice. In social work, the signature pedagogy is field education. The intent of field education is to connect the theoretical and conceptual contribution of the classroom with the practical world of the practice setting. It is a basic precept of social work education that the two interrelated components of curriculum—classroom and field—are of equal importance within the curriculum, and each contributes to the development of the requisite competencies of professional practice. Field education is systematically designed, supervised, coordinated, and evaluated based on criteria by which students demonstrate the achievement of program competencies.

**Accreditation Standard B2.0—Curriculum** The 10 core competencies are used to design the professional curriculum. The program

**B2.0.1** Discusses how its mission and goals are consistent with generalist practice as defined in EP B2.2.

**B2.0.2** Identifies its competencies consistent with EP 2.1 through 2.1.10(d).

**B2.0.3** Provides an operational definition for each of its competencies used in its curriculum design and its assessment [EP 2.1 through 2.1.10(d)].

**B2.0.4** Provides a rationale for its formal curriculum design demonstrating how it is used to develop a coherent and integrated curriculum for both classroom and field (EP 2.0).

**B2.0.5** Describes and explains how its curriculum content (knowledge, values, and skills) implements the operational definition of each of its competencies.

**Accreditation Standard M2.0—Curriculum** The 10 core competencies are used to design the foundation and advanced curriculum. The advanced curriculum builds on and applies the core competencies in an area(s) of concentration. The program

**M2.0.1** Identifies its concentration(s) (EP M2.2).

**M2.0.2** Discusses how its mission and goals are consistent with advanced practice (EP M2.2).

**M2.0.3** Identifies its program competencies consistent with EP 2.1 through 2.1.10(d) and EP M2.2.

**M2.0.4** Provides an operational definition for each of the competencies used in its curriculum design and its assessment [EP 2.1 through 2.1.10(d); EP M2.2].

**M2.0.5** Provides a rationale for its formal curriculum design (foundation and advanced), demonstrating how it is used to develop a coherent and integrated curriculum for both classroom and field (EP 2.0).

**M2.0.6** Describes and explains how its curriculum content (relevant theories and conceptual frameworks, values, and skills) implements the operational definition of each of its competencies.

**Accreditation Standard 2.1—Field Education** The program discusses how its field education program

**2.1.1** Connects the theoretical and conceptual contribution of the classroom with the practice setting, fostering the implementation of evidence-informed practice.

**2.1.2** Provides generalist practice opportunities for students to demonstrate the core competencies.

**M2.1.2** Provides advanced practice opportunities for students to demonstrate the program’s competencies.

**2.1.3** Provides a minimum of 400 hours of field education for baccalaureate programs and 900 hours for master’s programs.

**2.1.4** Admits only those students who have met the program’s specified criteria for field education.

**2.1.5** Specifies policies, criteria, and procedures for selecting field settings; placing and monitoring students; maintaining field liaison contacts with field education settings; and evaluating student learning and field setting effectiveness congruent with the program’s competencies.

---

2.1.6 Specifies the credentials and practice experience of its field instructors necessary to design field learning opportunities for students to demonstrate program competencies. Field instructors for baccalaureate students hold a baccalaureate or master's degree in social work from a CSWE-accredited program. Field instructors for master's students hold a master's degree in social work from a CSWE-accredited program. For cases in which a field instructor does not hold a CSWE-accredited social work degree, the program assumes responsibility for reinforcing a social work perspective and describes how this is accomplished.

2.1.7 Provides orientation, field instruction training, and continuing dialog with field education settings and field instructors.

2.1.8 Develops policies regarding field placements in an organization in which the student is also employed. To ensure the role of student as learner, student assignments and field education supervision are not the same as those of the student’s employment.

1. Implicit Curriculum

Educational Policy 3.0—Implicit Curriculum: The Learning Environment The implicit curriculum refers to the educational environment in which the explicit curriculum is presented. It is composed of the following elements: the program’s commitment to diversity; admissions policies and procedures; advisement, retention, and termination policies; student participation in governance; faculty; administrative structure; and resources. The implicit curriculum is manifested through policies that are fair and transparent in substance and implementation, the qualifications of the faculty, and the adequacy of resources. The culture of human interchange; the spirit of inquiry; the support for difference and diversity; and the values and priorities in the educational environment, including the field setting, inform the student’s learning and development. The implicit curriculum is as important as the explicit curriculum in shaping the professional character and competence of the program’s graduates. Heightened awareness of the importance of the implicit curriculum promotes an educational culture that is congruent with the values of the profession.\(^8\)

Educational Policy 3.1—Diversity

The program’s commitment to diversity—including age, class, color, culture, disability, ethnicity, gender, gender identity and expression, immigration status, political ideology, race, religion, sex, and sexual orientation—is reflected in its learning environment (institutional setting; selection of field education settings and their clientele; composition of program advisory or field committees; educational and social resources; resource allocation; program leadership; speaker series, seminars, and special programs; support groups; research and other initiatives; and the demographic make-up of its faculty, staff, and student body).

Accreditation Standard 3.1—Diversity

3.1.1 The program describes the specific and continuous efforts it makes to provide a learning environment in which respect for all persons and understanding of diversity and difference are practiced.

3.1.2 The program describes how its learning environment models affirmation and respect for diversity and difference.

3.1.3 The program discusses specific plans to improve the learning environment to affirm and support persons with diverse identities.

Educational Policy 3.2—Student Development

Accreditation Standard 3.2—Student Development: Admissions; Advisement, Retention, and Termination; and Student Participation Admissions

Educational preparation and commitment to the profession are essential qualities in the admission and development of students for professional practice. To promote the social work education continuum, BSW graduates admitted to

MSW programs are presented with an articulated pathway toward a concentration. Student participation in formulating and modifying policies affecting academic and student affairs are important for the student’s professional development.

B3.2.1 The program identifies the criteria it uses for admission.
M3.2.1 The program identifies the criteria it uses for admission. The criteria for admission to the master’s program must include an earned bachelor’s degree from a college or university accredited by a recognized regional accrediting association.

3.2.2 The program describes the process and procedures for evaluating applications and notifying applicants of the decision and any contingent conditions associated with admission.

M3.2.3 BSW graduates entering MSW programs are not to repeat what has been mastered in their BSW programs. MSW programs describe the policies and procedures used for awarding advanced standing. These policies and procedures should be explicit and unambiguous. Advanced standing is awarded only to graduates holding degrees from baccalaureate social work programs accredited by CSWE, those recognized through its International Social Work Degree Recognition and Evaluation Service, or covered under a memorandum of understanding with international social work accreditors.

3.2.4 The program describes its policies and procedures concerning the transfer of credits.
3.2.5 The program submits its written policy indicating that it does not grant social work course credit for life experience or previous work experience. The program documents how it informs applicants and other constituents of this policy.

Advisement, retention, and termination
3.2.6 The program describes its academic and professional advising policies and procedures.
3.2.7 Professional advising is provided by social work program faculty, staff, or both. The program spells out how it informs students of its criteria for evaluating their academic and professional performance, including policies and procedures for grievance.
3.2.8 The program submits its policies and procedures for terminating a student’s enrollment in the social work program for reasons of academic and professional performance.

Student participation
3.2.9 The program describes its policies and procedures specifying students’ rights and responsibilities to participate in formulating and modifying policies affecting academic and student affairs.
3.2.10 The program demonstrates how it provides opportunities and encourages students to organize in their interests.

Educational Policy 3.3—Faculty
Faculty qualifications, including experience related to the program’s competencies, and an appropriate student-faculty ratio are essential for developing an educational environment that promotes, emulates, and teaches students the knowledge, values, and skills expected of professional social workers. Through their teaching, scholarship, and service—as well as their interactions with one another, administration, students, and community—the program’s faculty models the behavior and values expected of professional social workers.

Accreditation Standard 3.3—Faculty
3.3.1 The program identifies each full and part-time social work faculty member and discusses their qualifications, competence, expertise in social work education and practice, and years of service to the program. Faculty who teach social work practice courses have a master’s degree in social work from a CSWE-accredited program and at least two years of social work practice experience.
3.3.2 The program discusses how faculty size is commensurate with the number and type of curricular offerings in class and field; class size; number of students; and the faculty’s teaching, scholarly, and service responsibilities. To carry out the ongoing functions of the program, the full-time equivalent faculty-to-student ratio is usually 1:25 for baccalaureate programs and 1:12 for master’s programs.

B3.3.3 The baccalaureate social work program identifies no fewer than two full-time faculty assigned to the program, with full-time appointment in social work, and whose principal assignment is to the baccalaureate program. The majority and no fewer than two of the full-time faculty has either a master’s degree in social work from a CSWE-accredited program, with a doctoral degree preferred, or a baccalaureate degree in social work from a CSWE-accredited program and a doctoral degree.
preferably in social work.

M3.3.3 The master’s social work program identifies no fewer than six full-time faculty with master’s degrees in social work from a CSWE-accredited program and whose principal assignment is to the master’s program. The majority of the full-time master’s social work program faculty has a master’s degree in social work and a doctoral degree preferably in social work.

3.3.4 The program describes its faculty workload policy and discusses how the policy supports the achievement of institutional priorities and the program’s mission and goals.

3.3.5 Faculty demonstrate ongoing professional development as teachers, scholars, and practitioners through dissemination of research and scholarship, exchanges with external constituencies such as practitioners and agencies, and through other professionally relevant creative activities that support the achievement of institutional priorities and the program’s mission and goals.

3.3.6 The program describes how its faculty models the behavior and values of the profession in the program’s educational environment.

Educational Policy 3.4—Administrative Structure
Social work faculty and administrators, based on their education, knowledge, and skills, are best suited to make decisions regarding the delivery of social work education. They exercise autonomy in designing an administrative and leadership structure, developing curriculum, and formulating and implementing policies that support the education of competent social workers.

Accreditation Standard 3.4—Administrative Structure

3.4.1 The program describes its administrative structure and shows how it provides the necessary autonomy to achieve the program’s mission and goals.

3.4.2 The program describes how the social work faculty has responsibility for defining program curriculum consistent with the Educational Policy and Accreditation Standards and the institution’s policies.

3.4.3 The program describes how the administration and faculty of the social work program participate in formulating and implementing policies related to the recruitment, hiring, retention, promotion, and tenure of program personnel.

3.4.4 The program identifies the social work program director. Institutions with accredited BSW and MSW programs appoint a separate director for each.

B3.4.4(a) The program describes the BSW program director’s leadership ability through teaching, scholarship, curriculum development, administrative experience, and other academic and professional activities in social work. The program documents that the director has a master’s degree in social work from a CSWE-accredited program with a doctoral degree preferred or a baccalaureate degree in social work from a CSWE-accredited program and a doctoral degree, preferably in social work.

B3.4.4(b) The program provides documentation that the director has a full-time appointment to the social work program.

B3.4.4(c) The program describes the procedures for determining the program director’s assigned time to provide educational and administrative leadership to the program. To carry out the administrative functions of the program, a minimum of 25% assigned time is required at the baccalaureate level. The program demonstrates this time is sufficient.

M3.4.4(a) The program describes the MSW program director’s leadership ability through teaching, scholarship, curriculum development, administrative experience, and other academic and professional activities in social work. The program documents that the director has a master’s degree in social work from a CSWE-accredited program. In addition, it is preferred that the MSW program director have a doctoral degree, preferably in social work.

M3.4.4(b) The program provides documentation that the director has a full-time appointment to the social work program.

M3.4.4(c) The program describes the procedures for determining the program director’s assigned time to provide educational and administrative leadership to the program. To carry out the administrative functions of the program, a minimum of 50% assigned time is required at the master’s level. The program demonstrates this time is sufficient.

3.4.5 The program identifies the field education director.

3.4.5(a) The program describes the field director’s ability to provide leadership in the field education program through practice experience, field instruction experience, and administrative and other relevant academic and professional activities in social work.
3.4.5(b) The program documents that the field education director has a master’s degree in social work from a CSWE-accredited program and at least 2 years of postbaccalaureate or postmaster’s social work degree practice experience.

B3.4.5(c) The program describes the procedures for determining the field director’s assigned time to provide educational and administrative leadership for field education. To carry out the administrative functions of the field at least 25% assigned time is required for baccalaureate programs. The program demonstrates this time is sufficient.

M3.4.5(c) The program describes the procedures for determining the field director’s assigned time to provide educational and administrative leadership for field education. To carry out the administrative functions of the field at least 50% assigned time is required for master’s programs. The program demonstrates this time is sufficient.

Educational Policy 3.5—Resources
Adequate resources are fundamental to creating, maintaining, and improving an educational environment that supports the development of competent social work practitioners. Social work programs have the necessary resources to support learning and professionalization of students and program improvement.

Accreditation Standard 3.5—Resources
3.5.1 The program describes the procedures for budget development and administration it uses to achieve its mission and goals. The program submits the budget form to demonstrate sufficient and stable financial supports that permit program planning and faculty development.

3.5.2 The program describes how it uses resources to continuously improve the program and address challenges in the program’s context.

3.5.3 The program demonstrates sufficient support staff, other personnel, and technological resources to support itself.

3.5.4 The program submits the library form to demonstrate comprehensive library holdings and/or electronic access and other informational and educational resources necessary for achieving its mission and goals.

3.5.5 The program describes and demonstrates sufficient office and classroom space and/or computer-mediated access to achieve its mission and goals.

3.5.6 The program describes its access to assistive technology, including materials in alternative formats (e.g., Braille, large print, books on tape, assistive learning systems).

5. Assessment

Educational Policy 4.0—Assessment is an integral component of competency-based education. To evaluate the extent to which the competencies have been met, a system of assessment is central to this model of education. Data from assessment continuously inform and promote change in the explicit and implicit curriculum to enhance attainment of program competencies.

Accreditation Standard 4.0—Assessment
4.0.1 The program presents its plan to assess the attainment of its competencies. The plan specifies procedures, multiple measures, and benchmarks to assess the attainment of each of the program’s competencies (AS B2.0.3; AS M2.0.4).

4.0.2 The program provides evidence of ongoing data collection and analysis and discusses how it uses assessment data to affirm and/or make changes in the explicit and implicit curriculum to enhance student performance.

4.0.3 The program identifies any changes in the explicit and implicit curriculum based on the analysis of the assessment data.

4.0.4 The program describes how it makes its constituencies aware of its assessment outcomes.

4.0.5 The program appends the summary data for each measure used to assess the attainment of each competency for at least one academic year prior to the submission of the self-study.

**INSTRUCTIONS FOR DEVELOPING AND USING THE LEARNING CONTRACT**

Development of the Learning Contract should be a collaborative process between the student and field instructor, with the field liaison available for assistance and feedback. A Learning Contract
is due each semester, usually at the end of the first month of the placement

Field education Competencies and Practice Behaviors for the MSW First Year Generalist placement have been delineated. The field instructor and student identify learning activities available at the placement that will support the student in accomplishing the stated competencies. A learning activity can address more than one outcome and can span more than one objective. Due dates also are designated or the activity is noted as on-going.

In designing the Learning Contract, these factors need to be incorporated and recorded:
- Learning activities appropriate for the agency
- Supervision
- Class assignments: course syllabi should be reviewed by the student and field instructor to determine what can be incorporated (i.e. case summaries, process recordings)

The Learning Contract should be reviewed monthly and is a dynamic document that can be changed and developed as the practicum proceeds. Substantial changes should be written-up and forwarded to the field liaison.

A completed Learning Contract should be submitted to the Field liaison by the due date. The student and Field Instructor should also keep copies. The semester evaluation will be based on the development of competencies and practice behaviors, not the specific activities in the Learning Contract.

LEARNING CONTRACT IS DIFFERENT IN ONLINE MANUAL.

</tr>
</tbody>
</table>

Competency Educational Policy 2.1.4-Engage diversity and difference in practice.

<table>
<thead>
<tr>
<th>Outcomes:</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>CPB14.</strong> Recognize the extent to which a culture’s structures and values may oppress, marginalize, alienate, or create or enhance privilege and power;</td>
</tr>
<tr>
<td><strong>CPB15.</strong> Gain sufficient self-awareness to eliminate the influence of personal biases and values in working with diverse groups;</td>
</tr>
<tr>
<td><strong>CPB16.</strong> Recognize and communicate their understanding of the importance of difference in shaping life experiences; and</td>
</tr>
<tr>
<td><strong>CPB17.</strong> View themselves as learners and engage those whom they work with as informants.</td>
</tr>
</tbody>
</table>
### Competency Educational Policy 2.1.5—Advance human rights and social and economic justice.

**Outcomes:**

- CPB18. Understand the forms and mechanisms of oppression and discrimination;
- CPB19. Advocate for human rights and social and economic justice; and
- CPB20. Engage in practices that advance social and economic justice.

### Learning Activities and Time Frame

Please list the activities and tasks that the student will undertake to achieve the educational outcomes. Indicate the due date or that the activity is ongoing.

<table>

### Competency Educational Policy 2.1.6—Engage in research-informed practice and practice-informed research.

**Outcomes:**
- **APB11.** Utilize evidence-based interventions in a culturally sensitive, collaborative and empowering manner;
- **APB12.** Use research methodology to evaluate practice and program effectiveness.

#### Learning Activities and Time Frame

Please list the activities and tasks that the student will undertake to achieve the educational outcomes. Indicate the due date or that the activity is ongoing.

## Competency Educational Policy 2.1.8—Engage in policy practice to advance social and economic well-being and to deliver effective social work services.

### Outcomes:
1. **APB15.** Develop policies and funding strategies for enhancing services and client quality of life at the organizational and community level; and
2. **APB16.** Develop a strategy to advocate for change in a policy, program, or service that negatively impacts a specific client population.

### Learning Activities and Time Frame
Please list the activities and tasks that the student will undertake to achieve the educational outcomes. Indicate the due date or that the activity is ongoing.

Instructions for Rating Interns on the 10 Competencies:

Please rate your intern in comparison to a beginning-level generalist social worker and use the Assessment Rubric for Field Instructor’s Evaluation to guide your ratings of the required practice behaviors. The ten Competencies and associated Practice Behaviors on this evaluation form were established by the Council on Social Work Education, the national accrediting organization for social work education. Please use the following scale to rate your intern’s level of mastery of all the Practice Behaviors associated with the 10 identified Competencies.

<table>
<thead>
<tr>
<th>Rating Level of Competency</th>
</tr>
</thead>
<tbody>
<tr>
<td>n/a</td>
</tr>
<tr>
<td>1</td>
</tr>
<tr>
<td>2</td>
</tr>
<tr>
<td>3</td>
</tr>
<tr>
<td>4</td>
</tr>
</tbody>
</table>
**Greatly Exceeds Expectations** - The intern has greatly exceeded expectations in this area.

**Comments** may be made under any competency statement if desired. Please be sure to indicate those areas in which you think the intern is particularly strong and those areas in which the student needs improvement.

This evaluation is intended to give your intern feedback about their performance at this time. This evaluation is not the sole factor used to determine if your intern receives a pass or non-pass for the semester. It is, however, a major component that is taken into considered by the faculty field liaison in assigning the student’s field grade.

**Competency 2.1.1: Intern identifies as a professional social worker and conducts themselves accordingly.**

<p>| | | | | | |</p>
<table>
<thead>
<tr>

Supporting Evidence and/or Comments:
**FALL SEMESTER EVALUATION SUMMARY**

Please check one of the following at the fall evaluation. At the spring evaluation do **NOT** complete this section.

- This intern is excelling in field placement by performing above expectations for interns.
- This intern is meeting the expectations of a field placement intern.
- This intern is functioning somewhat below the expectations of a field placement intern. There is a question whether this intern will be ready for beginning level generalist social work practice by the end of placement.
- This intern is functioning below the expectations of a field placement intern. There is considerable concern that this intern will not be ready for beginning level generalist social work practice by the end of placement. Serious corrective action is necessary if the intern wants to remain in social work.

**Narrative Summary** – Describe the student’s progress over the fall semester in relation to the 10 Competencies and related Practice Behaviors as outlined in the student’s Learning Contract. In addition, please comment on the student’s development of a professional identity, development of generalist social work knowledge and skills, and participation in the educational process.
SPRING SEMESTER EVALUATION SUMMARY

Please check one of the following at the final evaluation. At the fall evaluation do NOT complete this section.

☐ This intern has excelled in field placement by performing above expectations for interns. If an appropriate position were open at this agency, for a beginning level generalist social worker, this intern would be considered among the top candidates for that position.

☐ This intern has met the expectations of field placement. This intern is ready for beginning level generalist social work practice.

☐ This intern is not yet ready for beginning level generalist social work practice.

☐ This intern is not yet ready for beginning level generalist social work practice, and has demonstrated serious problems in performance, and perhaps should be encouraged to pursue another major.

Narrative Summary- Describe the student’s progress over the spring semester in relation to the 10 Competencies and related Practice Behaviors as outlined in the student’s Learning Contract. In addition, please comment on the student’s development of a professional identity, development of generalist social work knowledge and skills, and participation in the educational process.
The following section should be completed by the intern:

My agency supervisor has discussed this evaluation with me, and I have received a copy. Please check if you agree or disagree with this evaluation and put your initials next to the box you check.

☐ agree with the evaluation.

☐ do not agree with the evaluation.

If the intern disagrees with the evaluation they should describe the reasons for the disagreement in writing and submit a copy to both the field instructor and faculty liaison. If needed, a meeting between the student, agency supervisor, and faculty liaison will be held to discuss any disagreements.

____________________________________________________________________________

____________________________________________________________________________
Please use this rating scale to assess your student’s performance in each of the nine Competencies and related behaviors. The Council on Social Work Education (CSWE), the national accrediting organization for all social work programs, has established these Competencies and related behaviors and has identified field education as the signature pedagogy of a social work education. The expectation is that competency in all areas be demonstrated during the field placement. By the end of the field placement students are expected to demonstrate competency, a minimum score of 3, in all of the areas. Please support your ratings with evidence or examples. This evaluation is intended to give your intern feedback about his or her performance at this time and is not the sole factor used to determine if your intern receives a pass or non-pass for the semester. It is, however, a major component that is taken into consideration by the faculty field liaison in assigning the student’s field grade.

1 - Pre Competence
- The student is not able or rarely able to demonstrate integration of social work knowledge, values or skills in practice.
- The student needs constant supervision or repeated guidance.
- The student’s assigned tasks are not completed in a timely manner.
- The student is not able to transfer knowledge and skills from one assignment to another.
- The quality of the student’s work is not meeting expectations.

2 - Emerging Competence
- The student is beginning to demonstrate integration of social work knowledge, values, and skills but cannot consistently apply them to practice.
- The student requires supervision and oversight in completing assigned tasks.
- The student is inconsistent in completing assigned tasks in a timely manner.
- The student is beginning to transfer knowledge and skills from one assignment to another but cannot do so consistently.
- The quality of the student’s work is not meeting expectations but continues to show improvement.

3 - Competence
- The student usually demonstrates integration of social work knowledge, values and skills in practice with sufficient mastery.
- The student can work independently.
- The student completes assigned tasks in a timely manner.
- The student can apply and transfer knowledge and skills from one learning activity to another.
- The quality of the student’s work is consistently meeting expectations.

4 - Advanced Competence
- The student consistently demonstrates integration of social work knowledge, values, and skills in practice with expertise.
- The student works autonomously and independently.
- The student performs activities in a timely and efficient manner.
- The student is able to teach others.
- The quality of the student’s work is exceeding expectations.
Core Competency 1: Demonstrate Ethical and Professional Behavior
Clinical social workers are able to address ethical issues, legal parameters, and societal changes as they affect clinical practice on micro, mezzo, and macro levels. Clinical social workers recognize the multi-faceted issues that impact ethical decision-making in professional therapeutic settings. Clinical social workers demonstrate professional demeanor in all manners of communication, both in-person and through electronic and/or virtual technology. Clinical social workers:

<table>
<thead>
<tr>
<th>1 - Pre Competence</th>
<th>2 - Emerging Competence</th>
<th>3 - Competence</th>
<th>4 - Advanced Competence</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.6</td>
<td>Demonstrate the awareness of trauma and how it affects the self and others, and of the implications for interventions, including advocacy, being conscious of our potential to re-traumatize clients on the micro and macro level.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.7</td>
<td>Commit to lifelong learning.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1.8</td>
<td>Demonstrate awareness of how our affective reactions influence clients (social and emotional competency) and of in vivo reflection in relational work.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Overall Competency Rating**

Supporting Evidence and/or Comments:

Core Competency 2: Engage Diversity and Difference in Practice
Clinical social workers are knowledgeable about diversity and difference and how the intersectionality of such variables affects the lives of client systems within the therapeutic context. Clinical social workers also display cultural competency in clinical work with such systems, including addressing the realities of oppression and privilege. Clinical social workers understand that they are shaped by their own cultural and developmental experiences and how those experiences influence their clinical practice choices. Clinical social workers are knowledgeable that they must continually strive to enhance their degree of cultural competency, especially when working with diverse client systems. Clinical social workers:

<table>
<thead>
<tr>
<th>1 - Pre Competence</th>
<th>2 - Emerging Competence</th>
<th>3 - Competence</th>
<th>4 - Advanced Competence</th>
</tr>
</thead>
<tbody>
<tr>
<td>2.4</td>
<td>Identify the systemic influence of oppression and privilege on human rights violations and social, economic, and environmental injustice on client systems.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2.5</td>
<td>Display culturally sensitive language and behaviors with clients.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2.6</td>
<td>Demonstrate cultural competency in assessing the intersectionality of client problems and strengths.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>2.7</td>
<td>Display emotional intelligence regarding their own cultural values and biases and how such values and biases can affect clinical decisions.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
**Core Competency 3: Advance Human Rights and Social, Economic, and Environmental Justice**

Clinical social workers understand the potentially challenging effects of economic and social factors in the lives of clients and client systems. They also understand the potentially empowering effects that community engagement with client systems – addressing such variables as human rights violations and social, economic, and environmental injustices – can have on such communities. Clinical social workers also demonstrate effective and client-centered, culturally competent strategies for advancing human rights and social economic justice in domestic and global contexts. Clinical social workers:

<table>
<thead>
<tr>
<th>1 - Pre Competence</th>
<th>2 - Emerging Competence</th>
<th>3 - Competence</th>
<th>4 - Advanced Competence</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.3</td>
<td>Display competency in addressing the effects of oppression, discrimination, global human rights issues, and historical trauma on client systems in clinical decisions.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3.4</td>
<td>Identify the social work profession’s role in advocacy and empowerment in communities when addressing human rights violations and social, economic, and environmental injustice on client systems using relevant strategies.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Overall Competency Rating**

Supporting Evidence and/or Comments:

---

**Core Competency 4: Engage In Practice-informed Research and Research-informed Practice**

Clinical social workers are knowledgeable about evidence-based interventions, best practices, and the research process, and are able to think critically about what constitutes evidence. Clinical social workers:

<table>
<thead>
<tr>
<th>1 - Pre Competence</th>
<th>2 - Emerging Competence</th>
<th>3 - Competence</th>
<th>4 - Advanced Competence</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.4</td>
<td>Critically evaluate evidence-based methods for assessment and intervention with individuals, families, groups, organizations, and communities.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4.5</td>
<td>Use evidence-based interventions in a culturally sensitive and collaborative manner that integrates research evidence with both practitioner experience and client values.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4.6</td>
<td>Participate in and inform agency-based and community-based needs assessments and program evaluations.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>4.7</td>
<td>Use research methodology to evaluate practice and program effectiveness.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Overall Competency Rating**

Supporting Evidence and/or Comments:
Core Competency 5: Engage in Policy Practice

Clinical social workers recognize the connection between clients, practice, and public and organizational policy. Clinical social workers are knowledgeable of and have the ability to critically analyze the factors that influence the development of legislation, policies, program services, and funding at all system levels, as well as the impacts of these policies. They have knowledge of policy analysis, advocacy, organization, trauma-informed strategies, and methods of social change that contribute to effective policies that promote social, economic, and environmental well-being. They engage in policy practice at the agency and community level. Clinical social workers:

<table>
<thead>
<tr>
<th>1 - Pre Competence</th>
<th>2 - Emerging Competence</th>
<th>3 - Competence</th>
<th>4 - Advanced Competence</th>
</tr>
</thead>
<tbody>
<tr>
<td>5.4 Identify the influence of community and organizational factors and trauma that impact services and client quality of life.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>5.5 Develop policies and funding strategies for enhancing services and client quality of life at the organizational and community level.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>5.6 Select appropriate methods of advocacy, organization, and trauma-informed social change to promote social and economic well-being.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>5.7 Conduct policy practice.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Overall Competency Rating

Supporting Evidence and/or Comments:

Core Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Clinical social workers develop culturally sensitive therapeutic relationships with individuals and families from diverse backgrounds and effectively attend to the interpersonal dynamics and contextual factors that strengthen and potentially threaten the therapeutic alliance. Clinical social workers establish a relationally based process that engages clients in a collaborative partnership throughout the treatment process. Clinical social workers also understand the importance of cultural differences in the therapeutic relationship and have the ability to use research to strengthen their cultural competence and ability to engage clients in a therapeutic relationship. Clinical social workers:

<table>
<thead>
<tr>
<th>1 - Pre Competence</th>
<th>2 - Emerging Competence</th>
<th>3 - Competence</th>
<th>4 - Advanced Competence</th>
</tr>
</thead>
<tbody>
<tr>
<td>6.3 Understand the contextual elements that affect engagement in the therapeutic relationship including interpersonal dynamics, trauma, cultural difference, and organizational dynamics.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>6.4 Utilize collaborative and person-centered, developmentally appropriate engagement strategies.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Core Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Clinical social workers engage in an assessment process with clients in order to inform their choice and implementation of interventions. Clinical social workers combine knowledge of theories and frameworks – including trauma-informed assessment during the assessment process. On-going self-reflection is part of best practice, allowing the social work practitioner to be aware of issues relating to transference/countertransference. Clinical social workers:

<table>
<thead>
<tr>
<th>1 - Pre Competence</th>
<th>2 - Emerging Competence</th>
<th>3 - Competence</th>
<th>4 - Advanced Competence</th>
</tr>
</thead>
<tbody>
<tr>
<td>7.5</td>
<td>Conduct multidimensional, trauma-informed assessments with consideration for the client’s readiness for change, adaptive capacities, and contexts.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>7.6</td>
<td>Use continuous assessment and collaboration with clients to inform the implementation of interventions.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>7.7</td>
<td>Critically analyze client and contextual dynamics using theory to guide assessment and interventions with clients.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>7.8</td>
<td>Engage in ongoing self-reflection to assess how personal experiences and affective reactions may influence assessment, including the identification of transference/countertransference.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Overall Competency Rating

Supporting Evidence and/or Comments:

Core Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Clinical social workers engage in interventions with clients through an ongoing process of skill selection and implementation. In the skill selection process, clinical social workers base their choice in interventions on the intersectionality of such factors as theoretical models, multidisciplinary frameworks, evidence-based practice, practice wisdom, the trauma-informed perspective, advocacy, and the therapeutic relationship. Clinical social workers:

<table>
<thead>
<tr>
<th>1 - Pre Competence</th>
<th>2 - Emerging Competence</th>
<th>3 - Competence</th>
<th>4 - Advanced Competence</th>
</tr>
</thead>
<tbody>
<tr>
<td>8.6</td>
<td>Critically analyze theory driven strategies within the context of their practice and as applied to diverse client needs and challenges.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>8.7</td>
<td>Use multidisciplinary frameworks and knowledge of human behavior and the social environment to apply and continually evaluate intervention models in their work with clients.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>8.8</td>
<td>Utilize a variety of skills to both support and negotiate for their clients, including interdisciplinary and interagency collaboration, advocacy, and system change initiatives.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
8.9 Utilize evidence-based practice, practice-informed wisdom, and a trauma-informed perspective to critically evaluate, select, and apply interventions with clients.

8.10 Continually attune to and examine the therapeutic relationship and use of self with clients as they affect change, and empower and support clients particularly in areas of vulnerability and difference.

Core Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities
Clinical social workers recognize the critical role of evaluation of practice at all levels from individual clients to international policy. Clinical social workers are knowledgeable about evaluative processes and can identify empirically and theoretically sound indicators of change. They are knowledgeable of a range of evaluative methods, and they participate in the evaluation process. They also design and implement evaluations as appropriate to their practice setting.

Clinical social workers:

<table>
<thead>
<tr>
<th>1 - Pre Competence</th>
<th>2 - Emerging Competence</th>
<th>3 - Competence</th>
<th>4 - Advanced Competence</th>
</tr>
</thead>
<tbody>
<tr>
<td>9.5 Participate in the evaluation of processes and outcomes in organization and community programs.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>9.6 Use empirical literature to identify variables, concepts, and theories to evaluate practice.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>9.7 Utilize evaluation outcomes to critically analyze and modify practice effectiveness at the micro, mezzo, and macro levels.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Overall Competency Rating

Supporting Evidence and/or Comments:
FIRST SEMESTER EVALUATION SUMMARY

Please check one of the following at the first evaluation. At the second evaluation do NOT complete this section.

☐ This intern is excelling in field placement by performing above expectations for interns.

☐ This intern is meeting the expectations of a field placement intern.

☐ This intern is functioning somewhat below the expectations of a field placement intern. There is a question whether this intern will be ready for beginning level clinical social work practice by the end of placement.

☐ This intern is functioning below the expectations of a field placement intern. There is considerable concern that this intern will not be ready for beginning clinical level social work practice by the end of placement. Serious corrective action is necessary if the intern wants to remain in social work.

Narrative Summary: Please describe the student’s progress over the first semester in relation to the nine Competencies and related behaviors as outlined in the student’s Learning Contract. In addition, please comment on the student’s development of a professional identity and development of clinical knowledge and skills, social work values, and affective and cognitive processes related to practice.

Page Break

SECOND SEMESTER EVALUATION SUMMARY

Please check one of the following at the final evaluation. At the fall evaluation do NOT complete this section.

☐ This intern has excelled in field placement by performing above expectations for interns. If an appropriate position were open at this agency for a beginning level clinical social worker, this intern would be considered among the top candidates for that position.

☐ This intern has met the expectations of field placement. This intern is ready for beginning level clinical social work practice.

☐ This intern is not yet ready for beginning level clinical social work practice.

☐ This intern is not yet ready for beginning level clinical social work practice and has demonstrated serious problems in performance.

Narrative Summary: Please describe the student’s progress over the final semester in relation to the nine Competencies and related behaviors as outlined in the student’s Learning Contract. In addition,
please comment on the student’s development of a professional identity and development of clinical knowledge and skills, social work values, and affective and cognitive processes related to practice.

Recommended Grade:  Pass/Non-Pass

The following section should be completed by the intern:

My agency supervisor has discussed this evaluation with me, and I have received a copy. Please check if you agree or disagree with this evaluation and put your initials next to the box you check.

Error! Filename not specified.

If the intern disagrees with the evaluation he/she should describe the reasons for the disagreement in writing and submit a copy to both the field instructor and faculty liaison. If needed, a meeting between the student, agency supervisor, and faculty liaison will be held to discuss any disagreements.

APPENDIX I – Field Placement Application

WIDENER UNIVERSITY
A. **PRACTICE PREFERENCES**: Please review the website for field placement ideas. First year students tend to be placed in agencies that offer a range of practice experiences and allow students to learn generalist social work roles and skills. Second year students tend to
be placed in agencies that provide clinical social work experiences with individuals, families and groups. Please mark all potential areas of interest.

B. **FIELD AGENCY LOCATION PREFERENCE:** Please list the geographic areas that would be convenient for your field placement. Your flexibility and willingness to travel will open up more options for field placement.

1. _________________________________________________

2. _________________________________________________

3. _________________________________________________

C. **GENERAL INFORMATION:**

1. Do you speak a language other than English? **YES** **NO**
   
   If yes, specify language______________________________
2. Will you be working during field? YES NO
   How many hours per week? ______
3. Do you have a registered insured car available for field placement? YES NO
4. Do you have a valid driver’s license? YES NO
5. Have you ever been convicted of a crime? YES NO
   If YES, please describe under section J below.
6. Have you ever been investigated by a child welfare agency? YES NO
   If YES, please describe under section J below.
7. Do you have a disability that should be considered in placement? YES NO
   If YES, please describe under section J below.
8. If you have any agencies or client populations you would not wish to work with,
   please indicate them and why this is so:
__________________________________________________________________
__________________________________________________________________

D. FIELD HOURS AVAILABILITY: While every attempt is made to accommodate
students’ schedules, all students are expected to be available at least one full day per
week during daytime business hours for field placement. Field placement requirements
are 480 hours in the foundation-year field placement and 720 hours for the concentration
year.

Indicate below the hours you are available for field each day. Leave the day blank if you
are not available.

<table>
<thead>
<tr>

E. EXPERIENCE: Describe any work, past field practicum, volunteer experiences or life
experiences that you have had which you consider relevant to your field practicum. Include
special skills and interests as well as activities, tasks and skills developed.
F. **STRENGTHS:** Please briefly state the skills, experience and strengths you feel you possess.

G. **LEARNING NEEDS:** Please briefly state the challenges you will have and the skills you will need to learn in the field.

H. **ACADEMIC WORK:** List all graduate courses you will have taken by fall. Indicate grade earned in course if completed.

I. **CAREER GOALS:** Based on your current thinking, indicate the areas of social work practice you are considering for your future. Remember your clinical skills can be used in other settings than traditional clinical settings.

J. **SPECIAL LIFE CIRCUMSTANCES:** Describe any circumstances that may affect your involvement in field work (health, family responsibilities, work, financial concerns, legal, etc.). Please include any information that may impact your ability to provide Child Abuse
Clearances, Criminal Record Clearances or FBI Fingerprint Clearances, as these are often agency requirements.

K. **WORKSITE FIELD PLACEMENT:** Criteria are listed at the end of the Field Application and further elaboration is found in the MSW Student Handbook online. Will you be applying for a Worksite Placement?

- [ ] YES
- [ ] NO
- [ ] UNDECIDED

*SECOND YEAR FIELD STUDENTS ONLY*
You are eligible to enroll in our extended field placement program. The program requires 16 hours in field weekly between September and July instead of 24 hours weekly between September and April. To enroll in this program you will need approval of the agency and Director of Field. You will need to sign up and pay for a one-credit summer field seminar that supports the extended field placement.

Will you be enrolling in the extended field option? _____ YES _____ NO
FIELD STATEMENT
The information in this application is true and I have disclosed all information that could be pertinent to my field placement. I am aware that I am required to provide Child Abuse Clearances and Criminal Record Clearances and may be required to provide FBI Fingerprint Clearances, at my own expense. I may also be required to have a physical health examination, immunizations and/or a drug screening test at my expense.

I am aware that I am required to obtain and maintain malpractice insurance during the duration of my field placement in the amount of $1,000,000 per incident/$3,000,000 total.

As a student in the Master of Social Work program at Widener University, I agree to abide by the NASW Code of Ethics in the classroom and in all aspects of my field practicum. This Code can be found in the MSW Student Policy Manual available online at the Center for Social Work Education website.

________ My initials indicate acknowledgement of these field requirements.

Signature: _____________________________

Date: ______________________

NOTES:

FIELD PLACEMENT SITE INTERVIEWS
Each student who plans to begin field placement in the fall will be asked to set up an appointment at a potential field placement site. Both the field instructor and student will explore the appropriateness of this practicum assignment. Listed below are questions you may want to consider asking at this site interview.

1. What is the purpose and function of your agency?
2. What is the role of the social worker in your agency?
3. What may be specific tasks and activities I may participate in during a regular day?
4. What skills might I develop during a field practicum at this agency?
5. Is the staff composed of other disciplines than social work? How are they organized in relation to each other?
6. What are the general characteristics of the client population? What is a typical presenting problem? What is a typical student case? What services are provided? What treatment modalities are used most often?
7. How do you handle supervision in this agency?
8. Does the agency offer additional learning opportunities, student seminars, in-service training, workshops, secondary supervision, etc. other than primary supervision?
9. Will I have to work a night and/or vary my field placement schedule in order to attend necessary staff meetings or learning seminars?
10. Will I have an office or will I be sharing an office with another staff person or student? Are there students from other schools in this agency?
**WORKSITE CRITERIA**

(Applies only to students whose field practicum will be at their place of employment).

If a student wants to have a practicum at their worksite, it must be clearly differentiated from their work and educationally focused in order to gain sufficient practice experience in the application of theory and skills. The learning placement population, cases, supervision and practicum time/days should be separated from the agency-related population, cases, supervision, time and tasks.

Generalist first year, two day placements require at least 6 hours of client system contact that may include counseling, psychosocial assessments, case management, crisis intervention, advocacy, group and family work, community as client and program planning.

Second year, three day placements require at least 9 hours of client contact that are primarily clinical (individual, family and group counseling) and allow the student a chance to see clients over a period of time and use self differentially.

Supervision must be with an experienced MSW field instructor (two years minimum) who can supervise 90 minutes weekly from a generalist problem solving perspective for first year students and a clinical perspective for second year students and has time to read at least one weekly process recording/tape/video recording and give feedback on your work with clients. The student as well as the agency must have time, clear boundaries between work and school and a commitment to the students learning process in order to have an optimal worksite field placement.

APPENDIX J – Practicum at Place of Worksite

Widener University
Center for Social Work Education MSW Programs
Agency Agreement for Work Site Field Placement

Student: Please provide the following information and submit this completed form to the Director or Assistant Director of Field Education working with you for field planning. Worksite plans may be submitted as soon as they are completed, but must be submitted at least 60 days prior to the start of the field semester. Forms must be typed and must include all four of the required signatures in order to be considered as a placement option. Handwritten forms will not be accepted and forms must be scanned and submitted as word or .pdf documents.

Student Name: _____________________________ _________________________________________

Description of Proposed Field Placement: Roles and Responsibilities/Client Population: ________________

____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

CSWE accreditation standards require that work site field placements provide students with opportunities to work with different clients, in a different setting and under different supervision from their paid employment role. Please keep this in mind as you develop your work site field placement.

Specify how placement activities will differ from job responsibilities: __________________________
____________________________________________________________________________________
____________________________________________________________________________________

Educational/Field Days/Hours must be defined and separated from the regular work days. The following hours are the minimum required in order to successfully complete the field placement portion of the Program. Students are encouraged to schedule a minimum of four hours per day/shift at the agency:

MSW First Year: 420 hours, 2 Semesters
MSW Second Year: 680 hours, 2 Semesters or Extended Field Year 3 Semesters

Please list your proposed weekly field and work schedule. Be specific with the days of the week and exact range of hours (Example: Monday – 9am-4pm)

<table>

Widener University Director/Associate/Assistant Director of Field Education
APPENDIX K – Student Practicum Activity – Bi-Monthly Report Form

STUDENT PRACTICUM ACTIVITY BI-MONTHLY REPORT FORM

STUDENT NAME: ___________________________ AGENCY: ________________________________

FACULTY LIAISON: _______________________ MONTH: _________ ACADEMIC YEAR: _______

FIELD PLACEMENT STUDENT:
Please give your activity bi-monthly field report to your faculty liaison the first week of October, December, February, and April.

1. Describe your present caseload, including number of current cases, problems presented, status of cases, treatment modality, interviews attended during the past month.

2. Describe other agency learning activities, such as in-service seminars, conferences, staff meetings, study groups, professional committees, collaboration with other professionals, advocacy concerns, etc.

3. Describe a case or new learning task educationally challenging to you as a student this past month.

4. Any comments or questions that you have for the faculty liaison about your practicum?
APPENDIX O – Incomplete Grade Request Form

This form is to be completed by the student after coordinating with their professor. Both the professor and student must sign the form before submitting it to the Director or Assistant Director of the MSW program.
