

BRIGHT. FUTURE.

Here's how a Widener **engineering degree** will put you on the inside track to a rewarding career.

PICK A POWERHOUSE PROGRAM.

Choose from **eight majors** in our nationally ranked School of Engineering.

Earn a bachelor's degree and master's degree in five years through our **4+1 program**, saving time and money.

► GAIN REAL-WORLD EXPERIENCE.

Pair a **paid co-op experience** with an internship and graduate [on time!] with a year of on-the-job experience.

66% of Widener students complete a co-op or internship—14% higher than the national average.

Partner with faculty on **cutting-edge research** as soon as your first year.

► LAUNCH YOUR CAREER—SURROUNDED BY A SUPPORTIVE COMMUNITY.

Recent Employers:
The Boeing Company,
Merck, U.S. Navy,
Comcast

Experience **powerful mentorship** from industry-connected faculty and accessible alumni.

Join the engineering-focused specialty housing community to **form long-lasting connections** with peers and mentors.

"When I started my internship with [national manufacturing company] Comar, there was so much I didn't yet know how to do. That's where Widener prepared me best, because I felt confident that even if I wasn't sure how to do something, I knew how to overcome the challenge." —**Alex Kristeller '23**
