## Available Devices:

**Gas Cap  
Opener**

The gas cap opener can help to loosen/tighten a car's gas cap to fill the gas tank.

**Boomerang  
Bottle Opener**

The Boomerang bottle opener fits around most bottle lids and makes them easier to open.

**Can Opener**

The can opener helps to make small cans easy and quick to open.

# 3D-Print Library

## Available Devices:

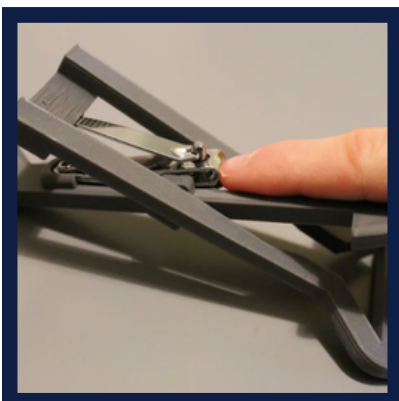

**Pull Tab Can Opener**

The pull tab can opener offers an easy way to open larger cans with a pull tab.

**Can Holder**

The can holder adds a handle to any can, making it easier to grip while taking a drink.

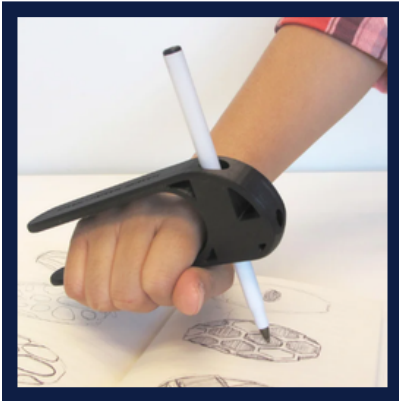

**Flipper Clipper**

The Flipper Clipper eliminates the need to hold the clippers, making nail clipping safe and easy.

# 3D-Print Library

## Available Devices:

**Palm Pen  
Holder**

The palm pen holder allows users to write without needing to grip their pen or pencil tightly.

**Hand Support  
Tool**

The hand support tool provides a handle that can be tightened around many hard-to-grip tools.

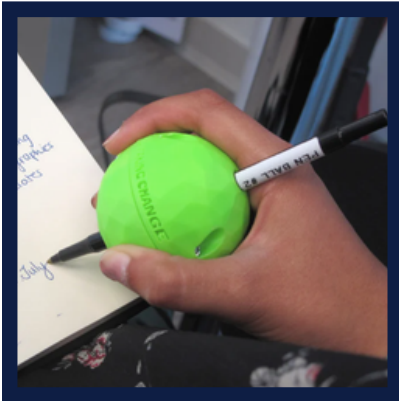

**Spray Can  
Attachment**

The spray can attachment fits around most spray cans and provides a handle for pressing down on the nozzle, making it easier to use spray bottles.

## Available Devices:

The yes/no tiles act as a visual aid for making choices and/or answering simple questions.

### Yes/No Tiles

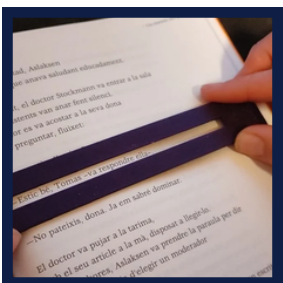

The knife aide serves as a larger area of surface for the palm of one's hand to utilize when cutting.

### Knife Aide

The nail polish applicator allows for users with low pinch strength to open, apply, and close nail polish. The device can be held by hand, worn on a finger, or worn over the hand.

### Nail Polish Applicator

The reading aid can be used to facilitate smoother reading by isolating each line in a book, newspaper, etc.

### Reading Aid
